B3. Commentary on Prospects and Targets

In line with growing rubber glove demand globally, the Group will continue with its NGC capacity expansion plans. Plant 6 of NGC facility has commissioned 8 out of 12 lines with remaining production lines to come on steam progressively. Plant 6 will have an annual installed capacity of 4.7 billion pieces once completed. Plant 7 is also in the expansion pipeline catering to small orders focusing more on specialty products and will have an annual installed capacity of 2.7 billion pieces. With the progressive commissioning of Plant 6 and 7, the Group's annual installed capacity is expected to increase from current 39 billion to 44 billion pieces by FY2022.

On the global front, demand for medical supplies such as gloves has surged due to the COVID-19 pandemic. With new cases continue to soar in US, Latin America, India, and other countries, the growing demand for gloves is expected to continue in the coming years. In addition, the sector is expected to undergo a structural step-up in demand on the back of increased glove usage from emerging markets with low gloves consumption per capita and heightened hygiene awareness. The overall projected growth in demand is expected to outstrip supply for the next few years.

To ensure the Group continues to deliver gloves to front liners globally without disruption, the Group will continue to enforce the COVID-19 preventive measures that were put in place in order to minimize the risk of infection within the operations in Malaysia. These include enforcing social distancing measures, awareness programme, entry screening procedure, installing thermal scanners at high traffic locations, staggered shift hours and frequent sanitizing at common areas.

During March this year, the Group has entered into a Sales and Purchase Agreement for the acquisition of a piece of land located in Banting for a total cash consideration of RM263 million. The land which measures approximately 95 acres will serve as the future site for NGC 2.0 capacity expansion plan. The acquisition will enable the Group to progressively expand its capacity to meet the rising global demand.

Moving forward, the Group remains optimistic of the longer term prospects underpinned by growing demand for rubber gloves and ongoing expansion plans.
