PART A – EXPLANATORY NOTES PURSUANT TO THE MALAYSIAN FINANCIAL REPORTING STANDARDS ("MFRS") 134: INTERIM FINANCIAL REPORTING

A5. Segment information (contd.)

The Group is organised into business units based on their products and services, and has four operating segments as follows:

- (a) The sales of cable and wires segment supplies power and telecommunication cables and cable components to consumers.
- (b) The sales of galvanised products and steel structures segment supplies galvanised products and steel structures. It also offers galvanising services.
- (c) The transmission lines construction segment involves the supply, installation and commissioning of transmission line projects.
- (d) The helicopter services and corporate segment is involved in provision of helicopter services and Group-level corporate and management services.

Sales of cables and wires

The sales of cables and wires segment contributed 84.7% (30 November 2023: N/A) of the total revenue of the Group for 18 months ended 30 November 2024.

The segment recorded a revenue and loss before tax of RM298.6 million (30 November 2023: N/A) and RM38.3 million (30 November 2023: N/A) respectively for 18 months ended 30 November 2024. As reported earlier, this segment has been operating under lower capacity using all internal resources, which has led to lower production, lower revenue, higher unabsorbed overheads and the segment losses. As announced on 16 May 2024, the court has on 15 May 2024 appointed Messrs. Deloitte Restructuring Services PLT as joint and several liquidators of Leader Cable Industry Berhad and Universal Cable (M) Berhad, wholly owned subsidiaries. This segment collectively accounts for at least 50% of the total assets employed of the Group on a consolidated basis.

Sales of galvanized products and steel structures

The sales of galvanized products and steel structures segment contributed 5.6% (30 November 2023: N/A) of the total revenue of the Group for 18 months ended 30 November 2024.

The Group's subsidiary whose sales and services are in this segment, concentrates mainly in East Malaysia.

This segment recorded a loss before tax of RM6.8 million (30 November 2023: N/A) for 18 months ended 30 November 2024. The segment is also operating using internal resources as its financing lines are also on a stand-still while negotiation with creditors is in progress. This has resulted in a reduced operations and therefore, the low revenue was insufficient to cover the manufacturing and operating expenses leading to a segment loss recognised for the reporting period.

PART A – EXPLANATORY NOTES PURSUANT TO THE MALAYSIAN FINANCIAL REPORTING STANDARDS ("MFRS") 134: INTERIM FINANCIAL REPORTING

A5. Segment information (contd.)

Transmission lines construction

The transmission line construction segment contributed 11.2% (30 November 2023: N/A) of the total revenue of the Group for 18 months ended 30 November 2024.

The segment recorded a revenue and loss before tax of RM40.0 million (30 November 2023: N/A) and RM1.2 million (30 November 2023: N/A) respectively for 18 months ended 30 November 2024.

Progress of all projects are also affected by the stand-still of its financing lines. Despite that, we are making every effort to ensure that all on-going projects are to be completed within the committed construction period.

The Group has disposed of a subsidiary under this business segment. Please refer to Note A7.

Helicopter services and corporate

The helicopter services and corporate segment provides provision of helicopter services and Group-level corporate and management services.

Consolidated loss before tax

The Group recorded a loss before tax of RM338.8 million (30 November 2023: N/A) for 18 months ended 30 November 2024 mainly due to impairment losses recognised on other receivables and on liquidation of subsidiaries.

A6. Seasonality of operations

The Group's operations were not significantly affected by seasonal or cyclical factors.

A7. Assets/(liabilities) classified as held for sale and discontinued operation

As at 31 May 2023, the assets and liabilities related to PT Inpola Mitra Elektrindo were presented as assets and liabilities held for sale. This transaction was completed on 31 October 2023.

On 7 September 2023, the Company entered into a Share Subscription Agreement ("SSA") and on 15 January 2024 entered into an agreement to dispose of Trenergy Infrastructure Sdn. Bhd. ("TISB"), a subsidiary in which the Company holds 100.00% equity interest. The business of TISB represented the Group's transmission line construction segment.

There is no assets/(liabilities) classified as held for sale and discontinued operation during the quarter ended 30 November 2024 under review.

The effective tax rate for the current quarter ended 30 November 2024 was lower than the statutory tax rate principally due to derecognition of deferred tax liabilities arising from unabsorbed capital allowances.

The effective tax rate for the previous quarter and financial year ended 30 November 2023 was higher than the statutory tax rate principally due to reversal of its previous recognition of deferred tax assets which arose from unutilised tax losses and other unutilised tax allowances in certain subsidiaries.

A10. Loss per share

Basic loss per share amounts are calculated by dividing loss for the year, net of tax, attributable to equity holders of the company by the weighted average number of ordinary shares outstanding during the year.

The Group had no potential ordinary shares in issue as at the reporting date and therefore, diluted loss per share is presented as equal to basic loss per share.

The following are the loss and share data used in the computation of basic and diluted loss per share:

	Current	t quarter	Cumulative 18 months ended
