A. NOTES TO THE UNAUDITED FINANCIAL REPORT FOR THE SECOND QUARTER ENDED 30 JUNE 2018

A1. Basis of accounting and changes in accounting policies

a) Basis of accounting

The consolidated interim financial statements of K-Star Sports Limited (the "Company" or "K-Star") and its subsidiary companies ("the Group") for the quarter ended 30 June 2018 are unaudited and have been prepared in accordance with Singapore Financial Reporting Standards ("FRS") and Appendix 9B of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Malaysia").

The unaudited consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements of the Group for the financial year ended ("FYE") 31 December 2017. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the FYE 31 December 2017.

In the current financial year, the Company has adopted all the new or amended FRS and Interpretations of FRS ("INT FRS") that are relevant to its operations and effective for the current financial year ending 31 December 2018.

The adoption of these new or revised FRS and INT FRS did not result in substantial changes to the Group's and the Company's accounting policies and had no material effect on the amounts reported for the current or prior financial years.

At the date of authorisation of this report, the following FRS relevant to the Group were issued but not yet effective for the current financial period under review:

No.	Title	Effective date - Annual periods commencing on or after
FRS 110, FRS	Amendments to FRS 110 and FRS 28: Sale or	To be
28	Contribution of Assets between an Investor and its Associate or Joint Venture	determined
FRS 109	Amendments to FRS 109: Prepayment	1 January 2019
	Features with Negative Compensation	
Improvements to	FRSs (December 2018)	1 January 2019
FRS 28	Amendments to FRS 48: Long-term interests	1 January 2019
	in Associates and Joint Ventures	•
FRS 116	Leases	1 January 2019
		•
FRS 117	Insurance Contracts	1 January 2021
INT FRS 123	Uncertainty over Income Tax Treatments	1 January 2019

The Directors do not anticipate that the adoption of these FRS (including sequential amendments) and INT FRS, where relevant to the Group, in future periods will have a material impact on the financial statements of the Group in the period of their initial adoption.

Changes in accounting policies

The accounting policies and presentation adopted by the Group for the interim consolidated financial statements are consistent with those adopted for the Group's audited consolidated financial statements for the FYE 31 December 2017.

b) Basis of consolidation

The consolidated interim financial statements of the Group have been prepared using the historical cost method similar to the "pooling-of-interest" as acquisition of subsidiary is accounted for as reconstructions of businesses. Under the historical cost method, the acquired assets and liabilities are recorded at their existing carrying amounts.

The consolidated interim financial statements include the results of operations, and the assets and liabilities of the pooled enterprises as part of the Group for the whole of the current period.

Other than accounting of subsidiary company using the historical cost method as disclosed above, the results of the subsidiary companies acquired during the financial year, if any, are included in the consolidated statement of comprehensive income from the effective date in which control is transferred to the Group.

Subsequent acquisitions of subsidiary companies, if any, are accounted for using the purchase method. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest.

Where accounting policies of a subsidiary do not conform with those of the Company, adjustments are made on consolidation when the amounts involved are considered significant to the Group.

All inter-company balances and significant inter-company transactions and resulting unrealised profits or losses are eliminated on consolidation and the consolidated financial statements reflect external transactions and balances only. The results of subsidiary companies acquired or disposed of during the financial year are included or excluded from the consolidated statement of comprehensive income from the effective date in which control is transferred to the Group.

c) Functional currency and translation to presentation currency

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The financial statements are presented in Renminbi ("RMB"), which is also the functional currency of the Group.

(ii) Transactions and balances

Foreign currency transactions are measured and recorded in the functional currency using the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the closing rates ruling at the respective statement of financial position dates. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the date of transactions. Non-monetary items measured at fair values in foreign currencies are translated using the exchange rates when the fair values are determined.

(iii) Group companies

The results and financial positions of all entities that have functional currencies different from the presentation currency are translated into the presentation currency as follows:

- (1) Assets and liabilities are translated at the closing exchange rate at the end of reporting period;
- (2) Income and expenses are translated at average exchange rates (unless the average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- (3) All resulting currency translation differences are recognised in the currency translation reserve in equity.

A2. Audit report of the Group's preceding annual financial statements

The Group's audited consolidated financial statements for the FYE 31 December 2017 were not subject to any audit qualification.

A3. Seasonal or cyclical factors

There were no seasonal or cyclical factors which will materially affect the Group during the quarter under review.

A4. Unusual items

There were no unusual items affecting assets, liabilities, equity, net income or cash flows of the Group during the current financial quarter and financial year-to-date.

A5. Material changes in estimates

There were no changes in estimates of amounts reported in prior financial year that have a material effect on the results of the current quarter under review.

A6. Changes in share capital and debts

Save as disclosed below, there were no issuance, cancellations, repurchase, resale and repayment of debt and equity securities, share buy backs, share cancellation, shares held as treasury shares and resale of treasury shares for the current financial period to date.

Details of the movements in the Company's shares since the previous FYE 31 December 2017 up to the current financial year to date are as follows:

Statement of profit & loss

For the current quarter three (3) months ended 30 June 2018 ("2Q2018"), the Group revenue has decreased by approximately 6.86% as compared to the preceding year corresponding quarter, contributed mainly from the decrease in sales of Dixing's core brand footwear by RMB 7.90 million or 12.17%. However, this was partly off-set by the revenue derived from the OEM segment which has grew by 15.13% and additional new stream of revenue contributed from the construction segment.

Gross profit margin has reduced from 12.30% to 8.96% which was due to the increase in the cost of production and the Group has yet to fully transfer those costs to the customers.

Selling and distribution expenses has decreased by 82.99% as compared to 2Q2017 as the Group has cut all advertising expenses since the 2nd half of 2017.

Administrative expenses has reduced by 7.21% mainly due to lower depreciation expenses incurred. Finance costs has reduced by 41.57% resulting from repayment of long term loan during the 2nd half of 2017.

For the financial period ended ("FPE") 30 June 2018 comparing to the preceding year corresponding period, the Group's total revenue stood at RMB 150.03 million, of which 76.86% and 23.14% of the total footwear revenue of RMB 148.32 million were derived from Dixing's core brand and OEM segment respectively. The balance was revenue derived from construction of approximately RMB 1.71 million. Dixing brand footwear has decreased by 10.23% while the OEM segment has recorded an increasing sales of 21.71% mainly contributed from the increasing order from a local PRC brand customer.

Notwithstanding that the average unit selling price and production costs remained consistent as well as with the benefit of new designs and production processes to reach cost efficiencies, the Group's gross profit margin has improved marginally by approximately 0.73% from 9.90% recorded in the preceding year corresponding period.

The sales and distribution expenses has decreased by approximately 87.69% as compared to the preceding year corresponding period. This was mainly due to cost cutting measure in advertising expenditures whereby there was no advertising expenditure incurred during the current financial period.

The administrative expenses has also reduced by approximately 11.67% mainly attributed from the reduction in depreciation and amortisation expenses. Finance costs was lower by 41.27% resulted from the repayment made in the previous financial year.

The Group has rebounded from a loss making position in the preceding year corresponding period to record a profit before taxation of RMB 1.18 million in the current period. This was primarily attributable to the slight improvement in gross profit margin as well as cost savings in advertising, depreciation and amortisation expenses.

Statement of financial position

The inventory turnover period stood at the age of 8 days as at 30 June 2018 and has remained fairly consistent as compared to the FPE 30 June 2017 of 9 days.

The trade receivables turnover period as at 30 June 2018 was 132 days as compared to 135 days in the FPE 30 June 2017. All trade receivables as at 30 June 2018 were within 120 days age band and were neither considered as past due nor impaired.

The trade payables turnover period stood at the age of 41 days as compared to the preceding year corresponding quarter of 46 days. All trade payables were remained at the 31-60 days age band as at 30 June 2018.

Statement of cash flow

The net cash outflow from operating activities of the Group for the FPE 30 June 2018 amounted to RMB 9.70 million, has decreased by RMB 13.64 million as compared to the net cash in flow of RMB 3.94 million recorded in the preceding year corresponding quarter. There were no cash flow allocation from investing activities as well as bank borrowings.

For the current financial period, the net cash and cash equivalents stood at RMB 2.86 million, representing a decrease of RMB 2.64 million as compared to RMB 5.50 million recorded in the FPE 30 June 2017. During the current financial period, a sum of RMB 11.38 million was raised through a private placement exercise via the issuance of 87.91 million new ordinary shares of the Company.

The Group's profit/loss before taxation is arrived at after charging/(crediting) amongst others, the following:

Revenue	43,879	47,695	
Loss before taxation	(630)	1,665	
Loss after taxation and total			

The Group's revenue for the 2Q2018 has decreased by 7.96% as compared to the preceding quarter three (3) months ended 31 March 2018 ("1Q2018"). The main contributor was primarily due to slower delivery to customers which was resulted from the shortages of production labour subsequent to the Chinese New Year festive celebration. Meanwhile, revenue from the construction segment has decreased by 22.56% with a consistent gross profit margin of 22.67%.

The gross profit margin has decreased by 3.21%, stood at 8.96% as compared to 12.17% recorded in the preceding quarter. The average unit production costs has increased by 4.44% and the labour cost of both in-house and outsourced have both increased by 3.22% and 2.36% respectively. Nevertheless, the average unit selling price has remained consistent with no immediate adjustment to transfer the surging cost to the customers.

Sales and distribution expenses, administrative expenses and finance costs have no material deviation as compared to the 1Q2018.

In view of the lower revenue and gross profit margin recorded during the current quarter, the Group has suffered a loss before taxation of RMB 1.03 million as compared to a profit before taxation of RMB 2.73 million recorded in 1Q2018.

B3. Prospects for the financial year ending 31 December 2018

The China economy has slowed down with declining in manufacturing, falling exports, turbulent capital market, rising debt level and eroding foreign reserves. The gross domestic product ("GDP") growth was at a rate of 6.7% in both 2016 and 2017. It is envisaged that a challenging time ahead for China economy that the China Government has lower its economic growth target to approximately 6.5% as set in the 13th Five-Year Plan. However, the unveiled 13th Five-Year Plan also sets to promote "Made in China 2025" which encourages the industry to reform its manufacturing practices into high-end manufacturing and encouraging expansion into the international market. Rising participation in sport activities supported by Government policy and advancement of e-commerce are in place to drive growth and recovery of the overall sporting goods industry.

Looking forward, the China sports footwear market will remain challenging after years of downturn. Domestic brands underwent a prolong restructuring arising from overly expansion which led to high level of excessive inventory. The oversupply situation has generally stabilised and yet struggling to see a recovery in sales growth.

International sportswear brands are aggressively expanding their business efforts in the lower tier cities, causing domestic sportswear brands to lose market share due to weaker brand recognition and lack of product differentiation. With rising disposable income and increasing participation in sports, consumers in lower tier cities are seeking more value in brand identity and product quality.

The Group remains cautious on the uncertainty of the economic recovery and perceived that the competition within China's sporting goods industry will continue to intensify. The Board of Directors of K-Star ("Board") envisages that the Group's prospects for the financial year ending 31 December 2018 would be favourable. Given the overall backdrop in consumer sentiment and intense competition both from foreign and domestic brands as discussed, the Group sees limited upside momentum on the sales growth and remains optimistic on the long term sustainability and potential opportunity given the Group's continuous effort and investment in brand recognition as well as product innovation.

B4. Profit forecast and profit guarantee

The Group has not provided any profit forecast or profit guarantee in any public document for the current financial quarter.
