# **B3.** Prospects for the financial year ending 31 December 2021

Looking forward, the sportswear market will be sustaining its growth potential driven by the consumption upgrading trend and stable demand among domestic consumers with improved living standard and higher income growth. The propelling growth in the sector is also driven by rising level of health and well-being awareness and increasing sports participation. In addition, the Chinese Government supports the development of sports industry vigorously with the introduction of numerous favorable policies, programmes and sport events. The advancement of e-commerce also plays a significant part to drive growth and to cushion the deteriorating growth of the retail stores.

Market competition will continue to intensify with international sportswear brands are constantly accelerating their presence in the mainland causing domestic sportswear brands to lose market share due to weaker brand recognition and innovation. The increasing cost of labour also raises concern over the challenges from Southeast Asia countries offering considerably labour cost advantages over China. However, China has its competitive advantages over its well-established and centralised hub of raw and auxiliary material supplies serves to strengthen cohesion and sustainability of the local market.

Given the overall backdrop in consumer sentiment, uncertainty economic impact arising from the on-going US-China trade dispute, coronavirus outbreak and intense market competition, the Group remains cautious and sees challenges on the business growth but remains optimistic on the long term sustainability of the business.

# **B3.** Prospects for the financial year ending 31 December 2021 (cont'd)

Following the diversification of the Group business into construction and involvement into healthcare sector with the intention to provide additional stream of revenue to the Group. The Group believes that the construction sector, being the backbone of the nation's economy growth would continue to be the key priority of the government's focus to promote continuous economy growth and recovery from the Covid-19 pandemic. The Board believe the stimulus measure introduced by the Malaysian government would give rise to increase construction activities in Malaysia, which will in turn, present the Group with more business opportunities (i.e. subcontracting work from main contractor). The Board of Directors of SAG ("Board") envisages that the Group's prospects for the financial year ending 31 December 2021 would be challenging.
