The Company hereby sets out below the full details of the qualified opinion:-

(a) Key Audit Matter Disclosed In The External Auditors' Report

The key audit matter disclosed is as follows: -

Basis for Qualified Opinion

Included in trade and other receivables are deposits of RMB 118,800,000 representing 90% of the total cash consideration price, which were made to Huangwu Subdistrict Office, Zhifu District, Yantai City, People's Republic of China. As disclosed in Note 5 to the financial statements, on 17 December 2013, the Group entered into a contract to purchase land, buildings and ancillary facilities including 320KVA power distribution equipment, water supply system, roads surrounding the factory and enclosing wall (collectively known as "Assets") for a cash consideration of RMB 132,000,000.

The External Auditors have not been able to obtain sufficient appropriate audit evidence to satisfy themselves of the extent of recoverability of the deposits of RMB 118,800,000 in the event that the transaction is not completed. Consequently, the External Auditors were unable to determine whether any adjustments to the carrying amount of deposits as at 31 December 2019 were necessary.

Material Uncertainty Related to Going Concern

The Group made full impairments to amount due to subsidiary and investment in subsidiary amounting to RMB76,568,000 and RMB60,135,000 respectively. The impairments were made due to the subsidiary continuous business losses due to loss of major market. In addition the discounted cash flow shows negative losses. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Group's and Company's ability to continue as a going concern. The ability of the Group and Company to continue as a going concern is dependent upon the continuing financial support from a director and shareholder of the Company. The External Auditors' opinion is not further qualified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in the External Auditors' professional judgement, were of most significance in their audit of the financial statements of the current period. These matters were addressed in the context of the External Auditors' audit of the financial statements as a whole, and in forming their opinion thereon, and they do not provide a separate opinion on these matters. In addition to the matters described in the Basis for Qualified Opinion section and Material Uncertainty Related to Going Concern section, the External Auditors had determined the matters described below to be the key audit matters to be communicated in their report.

i. Valuation of trade receivables (RMB 18.072million) (Refer to Note 5 to the financial statements)

The Group has significant trade receivables amounting to the RMB18.072 million. In accordance with SFRS(I) 9 Financial Instruments, the Group is required to recognise loss allowances on expected credit losses on trade receivables. The determination of the loss allowances requires significant judgement and estimates to determine whether the receivable is credit impaired, and the best estimate of the ultimate realisation of the amounts receivable from customers.

Inappropriate judgements and estimates made in the impairment assessment would result in a significant impact on the carrying amount of the trade receivables.

Disclosure on the above significant management's judgement is provided in Note 3.2(a) to the financial statements and further information related to the aged trade receivables is in Note 21(a) to the financial statements.

Audit Response

The External Auditors have reviewed the Group's estimation process used in determining the amounts of loss allowance recognised on expected credit losses on trade receivables.

The Group has a process to assess credit risk and to determine the amounts of loss allowance to recognise on expected credit losses on trade receivables.

The External Auditors have also reviewed significant inputs to management's assessment of the amounts of loss allowance recognised on expected credit losses, and considered the reasonableness of the inputs by reference to the recent credit review assessments prepared by management. The judgements applied by management around the recovery of receivables were relevant under the facts and circumstances currently made available to the Group. Lastly, They assessed the adequacy of disclosures in describing the areas of judgement and estimation uncertainties involving recoverability of the trade receivables.

ii. Valuation of inventories (RMB 86.398 million) (Refer to Note 6 to the financial statements)

The Group's work-in-progress inventories amounting to RMB84.721 million represents 95% of the total inventories. These inventories relate mainly to the direct costs incurred for wine production.

Management has estimated the net realisable value of the work-in-progress inventories based on certain assumptions relating to spoilage and obsolescence. Obsolescence considerations include inventory aging profile, as well as different market factors impacting the sale of these product lines.

Inappropriate judgement and estimate made in estimating the conditions and estimated selling price would result in a significant impact on the net realisable value of the work-in-progress inventories. Disclosure on the above significant judgement is made in Note 3.2(b) to the financial statements and further information related to the write-down of the inventories to its net realisable values is disclosed under Note 6 to the financial statements.

The External Auditors' audit procedures to validate the valuation of the inventories included the performance of test of details on actual margins and valuation of obsolete inventories. They assessed whether there are inventories which were sold with negative margin by evaluating sales invoices issued subsequent to year end to validate management's assessment and decision as to whether inventories need to be adjusted to their net realisable values.

Based on the work performed, they found management's estimates to be reasonable.

They also found the disclosures in the financial statements to be adequate.

iii. Impairment of property, plant and equipment and deposit for purchase of land buildings, and ancillary facilities (RMB 118.800 million) Refer to Note 5 and 8 to the financial statements

As at 31 December 2019, property, plant and equipment and deposit for purchase of land, buildings and ancillary facilities with carrying amounts of RMB35.052 million and RMB118.800 million constituted approximately 16% and 56% of the total assets of the Group respectively.

During the current financial year, the Group carried out a review of the recoverable amount of its property, plant and equipment and deposit for purchase of land, buildings and ancillary facilities.

The review process involves significant judgement in determining the appropriate valuation methods to be used, and in estimating the key underlying assumptions to be applied.

These critical judgement and significant estimation are disclosed in Note 3.1(b) and 3.1(c) to the financial statements.

Audit Response

The External Auditors' audit procedures focused on evaluating the appropriateness and adequacy of the impairment loss recognised for property, plant and equipment.

Based on their work performed, They assessed management's key assumptions and review process to be reasonable.

They also found the disclosures in the financial statements to be adequate.

iv. Allowance for impairment for non-trade amount due from subsidiary (RMB 76.568 million) and impairment of investment in subsidiary (RMB 60.135 million) Refer to Notes 5 and 7 to the financial statements

As at 31 December 2019, the Company has investment in subsidiary with carrying amount of RMB 60.135 million. During the current financial year, there are impairment indicators which require the Group to perform an assessment on the recoverable amount of the investment in subsidiary using a discounted cash flow model for the next five years.

Based on the result of the assessment, the Company has fully impaired the investment in subsidiary. Furthermore, the Company has amount owing from its subsidiary amounting to RMB 76.568 million. The management has assessed the future operating and financial performance of the subsidiary to be unfavourable. As a result, the management has fully impaired on the amount due from subsidiary.

Audit Response

Based on their work performed, they found the significant estimates and key assumption within the discounted cash flow model to be reasonable.
