Note ot the Interim Financial Report For The 3 months Ended 31/03/2011

A. Compliance with Financial Reporting Standard (FRS) 134, Interim Financial Reporting and Bursa Listing Requirements

A1. Basis of preparation

The interim financial report has been prepared in accordance with FRS 134, Interim Financial Reporting and paragraph 9.22 of the Bursa Malaysia Securities Berhad Listing Requirement. The figures for the cumulative period 3 months Ended 31/03/2011 have not been audited.

The interim financial statements should be read in conjunction with the Audited Financial Statements of the Group for the financial year ended 31/12/2010. The accounting policies and methods of computation adopted for the interim financial statements are consistent with those adopted for the annual audited financial statements for the year ended 31/12/2010.

A2. Seasonality or cyclicality of interim operations

Other than slowdown in the demand for our products during the festive period particularly in the first quarter of the year, our Group does not experience any material seasonality or cyclicality in our business operations.

A3. Unusual Items affecting assets, liabilities, equity, net income or cash flows

There were no unusual items of nature, size or incidence that affect the assets, liabilities, equity, net income or cash flows of the Group during the current quarter ended 31/03/2011.

A4. Material Changes in estimates

There were no material changes in estimates that had affected the Group during the current quarter ended 31/03/2011.

A5. Capital Management, issuances, repurchases and repayments of debts and equity instruments

The Group's objectives of managing capital are to safeguard the Group's ability to continue in operations as a going concern in order to provide fair returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

For capital management purposes, the Group considers shareholders' equity, non-controlling interests and long term liabilities to be the key components in the Group's capital structure. The Group monitors capital on the basis of the gearing ratio. The ratio is calculated as the total liabilities to total equity. Total equity is the sum of total equity attributable to shareholders and non-controlling interests.

The Group's strategy is to maintain a gearing ratio of 30% to 50%. This has remained unchanged from the prior year. The gearing ratios as at 31/03/2011 and 31/12/2010, which are within the Group's objectives for capital management are as follows:

	31/03/2011 RM'000	31/12/2010 RM'000
Total liabilities	25,087	29,505
Total equity	61,050	49,822
Total capital	86,137	79,327
Gearing ratio	29%	37%

The decrease in the gearing ratio in the current quarter ended 31/03/2011 was primarily due to the increase in issued share capital and comprehensive income. The details of the issuance of equity instrument and repayment of debts in the current quarter are as follows:

	31/03/2011
	RM'000
(a) Insurance of Ordinary Shares of RM0.50 each at an issue price of RM0.57	11,471
(b) Repayment of bank borrowings	(4,418)

A6. Dividends paid (aggregate or per share) separating for ordinary shares and other shares

There were no dividends paid by the Group during the current quarter ended 31/03/2011.

A7. Operating Segment Information

In the prior year's audited consolidated financial statements, the basis of segmentation was on a format of geographical segment. In the current quarter ended 31/03/2011 and for the current financial year ending 31/12/2011, the basis of segmentation has been changed to operating segments based on information reported internally to the Chief Operating Decision Maker and the Board of Directors.

In the prior financial year, the Group's operation is divided into local and export markets. The local market relates to sales to customers within Malaysia, whereas the export market to sales to overseas customers include United Kingdom, Singapore, Indonesia, Papua New Guinea and others countries being the Principal market segment.

The basis of measurement for segment profit or loss in the current quarter are consistent with prior financial year, based on standards prescribed in FRSs and other accounting guidance, which are measured at their fair value and any changes in value recognised as gains or losses in segment profit or loss. In the consolidated financial statements such assets are measured at cost less accumulated amortisation, if any. The segment information for the current quarter is as follows:

	Stainless steel products	Marine hardware & consumable	Other industrial hardware	Total
3 months Ended 31/03/2011	RM'000	RM'000	RM'000	RM'000

B1. Review of performance

The Group's revenue of RM16.61 million for the current quarter and 3 months cumulative period was 6.9% higher than the corresponding preceding period in the prior financial year. The increase is mainly due to new business products in the industrial hardware segment.

The Group's profit before tax of RM0.93 million for the current quarter and 3 months cumulative period was 35.6% lower than the corresponding preceding period in the prior financial year. The decrease were primarily due to increases in administration expenses namely written-off Group's listing expenses, other professional fees and improved employee benefits.

B2. Comparison with immediate preceding quarter's results

The Group's profit before tax of RM0.93 million for the current quarter under review was 66.0% lower compared with the profit before tax amounting to RM2.73 million of the preceding quarter. This was mainly due to slowdown in the demand for our products as disclosed in Note A2 particularly Stainless Steel segment, and Marine Hardware & Consumables segment which was recorded 39.5% and 39.7% respectively lower compared with immediate preceding quarter.

B3. Commentary on prospects for the remaining period of the current Financial Year

In particular, we plan to introduce surface treated stainless steel tubes and pipes in the second half of the year and industrial schedule tubes and pipes by the end of the year. In addition, we also intend to expand our geographical reach to Thailand, Vietnam and Philippines.
