B. Explanatory Notes pursuant to Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Bhd

B1. Review of performance

The Group revenue for the 3 months cumulative period had increased by 32.82% from RM15.81 million reported in the corresponding preceding period in the prior financial year to RM21 million. The increase in our revenue was principally attributable to the following:

- (a) our sales and marketing team secured more orders from existing customers both locally and overseas OEM market for our Stainless Steel Products segment, particularly the stainless steel tubes and pipes accounting for approximately 18.51% of our total revenue of Stainless Steel Products segment;
- (b) the increase in purchase orders from our customers, particularly domestic hand gloves manufacturing companies for Engineering Works segment, representing a significant increase of approximately 126.6% as compared to corresponding preceding period in the prior financial year; and
- (c) the additional revenue derived from new subsidiary, Koseng Sdn Bhd, which contributed to an increase of 25.29% of our total revenue for Marine hardware & consumable segment.

The Group profit before tax for the 3 months cumulative period had increased from RM0.1 million achieved in the previous financial year to RM0.61 million, represents a growth of 509% in profit before tax, mainly due to increase in our overall gross profit margin which was attributable to the following:-

- (a) gross profit margin for our Stainless steel products segment improved marginally from 7.04% recorded in the previous financial year to 9.86%. This was primarily due to lower cost of raw materials (such as stainless steel). In addition, the increase in gross profit margin was contributed by the abovementioned Note B1 (a) growth in sales volume, and hence lowered the unit cost of production as a result of higher production volume; and
- (b) the increase in our gross profit margin for Marine hardware & consumable segment from 16.42% to 22.13%. This was mainly attributable to the Company had purchased the inventories at lower price.

B2. Comparison with immediate preceding quarter's results

The Group profit before tax of RM0.61 million for the current quarter under review was 51.82% lower compared with the profit before tax amounting to RM1.26 million of the immediate preceding quarter. This was mainly due to lower demand for our products as disclosed in Note A2 particularly Marine Hardware & Consumables segment and Engineering Works segment which was recorded 36.81% and 37.98% respectively lower compared with immediate preceding quarter.

B3. Commentary on prospects for the remaining period of the current Financial Year
