#### B. Explanatory Notes pursuant to Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Bhd

#### B1. Review of performance

The Group revenue for the 12 months cumulative period had increased by 6.18% from RM92.83 million as reported in the corresponding preceding period in the prior financial year to RM98.58 million. The increase in our revenue was principally attributable to completion of the fabrication and installation of Double Former glove dipping lines, and increase in purchase orders from the Engineering Works segment, contributed to a significant increase in revenue of approximately RM9.10 million, representing an increase of 41.59% as compared to corresponding preceding period in the prior financial year.

The Group profit before tax for the 12 months cumulative period had decreased from RM14.04 million achieved in the corresponding preceding period in prior financial year to RM6.4 million, represents a decrease of 54.41% in profit before tax. This was attributed primarily to gain on the disposal of a piece of freehold industrial land held under Geran 129558, Lot 11431, Mukim Setul, Daerah Seremban, Negeri Sembilan amounting to approximately RM11.01 million in the corresponding preceding period in the prior financial year.

#### B2. Comparison with immediate preceding quarter's results

The Group profit before tax of RM0.69 million for the current quarter under review was 77.35% lower compared with the profit before tax amounting to RM3.03 million of the immediate preceding quarter. This was mainly due to completion of the manufacturing and installation hand glove dipping lines as explained in Note B1.

#### **B3.** Commentary on prospects

The Board will continue to enhance the Group marketing strategy through expansion of the Engineering Segment and increase the Group products offering to increase revenue. Barring the economic uncertainty, we expect the Group performance to remain satisfactory.
