B1. Review of performance of the Group

(a) Comparison of the current quarter against the corresponding quarter

	Current year quarter 31/12/2019	Preceding year corresponding quarter 31/12/2018	Changes
	RM'000	RM'000	%
Revenue	38,080	54,643	-30.3
Operating (loss)/ profit	(4,412)	9,717	-145.4
Non-operating income	425	510	-16.7
(Loss)/ Profit before tax	(3,987)	10,227	-139.0
(Loss)/ Profit after tax	(3,040)	7,403	-141.1
(Loss)/ Profit attributable to owners of the parent	(3,040)	7,403	-141.1

The Group recorded revenue of RM38.08 million (which consist of RM37.94 million from the manufacturing segment and RM0.14 million from the electricity segment respectively) in current quarter under review, a decrease of RM16.56 million as compared to previous year's corresponding quarter. Lower revenue in current quarter was mainly due to lower sales volume as well as decrease in average selling price.

The Group had recorded an operating loss of RM4.41 million in current quarter as compared to profit of RM9.72 million in corresponding quarter of previous year. This was mainly due to the weak plywood demand in global market and our average selling price in current quarter had dropped by approximately 23% as compared to corresponding quarter of previous year. Losses in current quarter also attributable to the major overhaul carried out on subsidiary's turbine and generator at the end of the year. Non-operating income decreased by 17% as a result of lower distribution income from money market fund.

As a result, the Group recorded loss before tax of approximately RM3.99 million as compared to RM10.23 million profits recorded in the corresponding quarter of previous year. Loss after tax had reduced to RM3.04 million due to the recognition of deferred taxation on current year loss and unabsorbed capital allowances.

B1. Review of performance of the Group (continued)

(b) Comparison of current year to-date against the corresponding period

	Current year to-date 31/12/2019	Preceding year corresponding period 31/12/2018	Changes
	RM'000	RM'000	%
Revenue	142,381	203,427	-30.0
Operating (loss)/profit	(11,839)	35,252	-133.6
Non-operating income	1,790	2,498	-28.3
(Loss)/ Profit before tax	(10,049)	37,750	-126.6
(Loss)/ Profit after tax	(6,983)	28,416	-124.6
(Loss)/ Profit attributable to owners of the parent	(6,983)	28,416	-124.6

The Group recorded revenue of RM142.38 million (which consist of RM141.91 million from the manufacturing segment and RM0.47 million from the electricity segment respectively) in current year to-date, a decrease of 30% as compared to RM203.43 million recorded in preceding year corresponding period. The decrease was mainly due to lower sales volume and lower average selling price in current year to-date.

Performance of the Group in current year was affected by dropping average selling price and higher production unit cost. The slowdown in plywood market had reduced the demand for plywood, thus reducing the selling price while lower production volume and higher logs price at the first half of the year caused the production unit cost soaring. Besides, management had written off its inventory by RM2.68 million and made allowance for doubtful debts of RM2.30 million on the advances to log suppliers in current year to-date. As a result, the Group recorded operating loss of RM11.84 million in current year to-date as compared to operating profit of RM35.25 million in previous year. On the other hand, non-operating income had decreased by approximately 28% in current period which was mainly due to lower income recognised from money market fund.

As a result of the aforementioned, the Group recorded loss before tax of RM10.05 million as compared to profit before tax of RM37.75 million in previous year. Loss after tax of the Group in current year to-date amounted to RM6.98 million as compared to profit after tax of RM28.42 million in previous year.

B2. Comparison with immediate preceding quarter's results

	Current year guarter	Immediate preceding quarter	
	31/12/2019	30/09/2019	Changes
	RM'000	RM'000	%
	20.000	27.045	0.6
Revenue	38,080	37,845	0.6
Operating loss	(4,412)	(4,406)	0.1
Non-operating income	425	436	-2.5
Loss before tax	(3,987)	(3,970)	0.4
Loss after tax	(3,040)	(2,030)	49.8
Loss attributable to owners of the parent	(3,040)	(2,030)	49.8

Revenue in current quarter had no significant variance as compared to immediate preceding quarter. Impact of higher sales volume in current quarter had been offset by the lower average selling price. The Group recorded a slightly higher operating loss as compared to immediate preceding quarter. Current quarter's loss before/after tax of the Group amounted to RM3.99 million and RM3.04 million respectively. The Group's performance in current quarter had no significant variance as compared to immediate preceding quarter, except that the immediate preceding quarter had recognised an over provision of taxation in prior year amounted to RM0.94 million.

B3. Prospects for the next financial year

Lumber price at United States did pop up despite of housing supply at United States shrinks further. Although our plywood sold to United States are mainly for use in recreational vehicle sector, a slump in housing market at United States might drive the price of the commodity downwards. On the other hand, management is monitoring the price of logs especially during the first half of the year which is normally the raining season. Production might be curtailed if there is lack of supply of logs during this period. Management remains cautious in the prospects of the Group for the next financial year as the operating environment of plywood industry is still very challenging.

B4. Profit forecast or profit guarantee

The Group did not issue any profit forecast or profit guarantee in the current quarter or in the prior financial year.
