# PART B – EXPLANATORY NOTES PURSUANT TO PART A OF APPENDIX 9B OF THE LISTING REQUIREMENTS

#### **B1.** Performance Review

#### Current quarter against corresponding quarter in prior year

The Group achieved revenue of RM23.31 million and recorded a loss before tax of RM1.96 million for the current quarter as compared to revenue of RM21.78 million and loss before tax of RM0.42 million for the corresponding quarter in prior year.

#### B2. Comment on Material Change in Loss/Profit before Tax Against Immediate Preceding Quarter

The Group achieved revenue of RM23.31 million and recorded a loss before tax of RM1.96 million for the current quarter as compared to revenue of RM28.78 million and profit before tax of RM4.15 million for immediate preceding quarter.

The loss before tax in the current quarter is mainly due to lower sales volume, higher commodity prices and fluctuations in foreign exchange as compared to the immediate preceding quarter.

#### **B3.** Commentary on Prospects

With the gradual relaxation of movement control measures, the intensified vaccination efforts for children and the slow transition into endemic phase, the growth prospects are expected to rebound. The Group expects to continue to face the challenging economic and business environment in the coming quarters due to unprecedented uncertainty in the global economy as borders open. The Russia's invasion of Ukraine has disrupted economic activities and dampened economic growth. The economy outlook is heavily dependent on how the world and our country successfully move into post-pandemic recovery and how long the Russia-Ukraine conflict lasts.

The global economy remains to be influenced by the effect of the global trade tensions, the major slowdown of the economic momentum and relatively higher commodity prices. The ongoing logistic issues arising from port congestion, shortage of vessels and containers leading to higher freight rates and supply chain disruptions continue to be a source of concern. However, the Group will remain vigilant and is confident that through continuous improvement in the products and services, efficiency in production, expansion of customer base, both locally and internationally, the Group will be able to weather the challenges ahead.

#### **B4.** Profit Forecast or Profit Guarantee

The Group did not issue any profit forecast or profit guarantee for the current quarter.
