#### NOTES TO THE INTERIM FINANCIAL REPORT

### PART A - EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARDS 134 ("MFRS 134")

#### A1. BASIS OF PREPARATION

These condensed consolidated interim financial statements have been prepared in accordance with the requirement of Malaysian Financial Reporting Standards ("MFRSs") 134, Interim Financial Reporting and paragraph 9.22 of the Main Market Listing Requirement of Bursa Malaysia Securities Berhad. They do not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of the Group for the period ended 30 June 2019.

The accounting policies and methods of computation by the Group in this interim financial statement are consistent with those adopted in the financial statements for the period ended 30 June 2019 excepts for those standards, amendments and interpretations which are effective from the annual period beginning on or after 1 January 2019.

At the beginning of the current financial period, the Group adopted new MFRSs, Amendments to MFRSs and an IC Interpretation (collectively referred to as "pronouncements") that have been issued by the MASB and are applicable as listed below:-

- Amendments to MFRS 9: Prepayment Features with Negative Compensation
- MFRS 16 Leases
- Amendments to MFRS 128: Long-term Interests in Associates and Joint Ventures
- Annual Improvements to MFRS Standards 2015 2017 Cycles
- Amendments to MFRS 119: Plan Amendment, Curtailment or Settlement
- IC Interpretation 23 Uncertainty Over Income Tax Treatments

#### A1. BASIS OF PREPARATION (Cont'd)

The Group expect that the adoption of the above standards and interpretations will have no material impact on the financial statements in the period of initial application except as discussed below:

#### **MFRS 16 Leases**

MFRS 16 replaces MFRS 117 Leases, IC Interpretation 4 Determining whether and Arrangement contains a Lease, IC Interpretation 115 Operating Lease-Incentives and IC Interpretation 127 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single onbalance sheet model similar to the accounting for finance leases under MFRS 117.

At the commencement date of a lease, a lessee will recognise a liability to make lease payments and an asset representing the right to use the underlying asset during the lease term. The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions), less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at present value of the lease payments that are not paid at the date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications.

Classification of cash flows will also be affected as operating lease payments under MFRS 117 are presented as operating cash flows, whereas under MFRS 16, the lease payments will be split into a principal (which will be presented as financing cash flows) and an interest portion (which will be presented as operating cash flows).

Lessor accounting under MFRS 16 is substantially the same as the accounting under MFRS 117. Lessor will continue to classify all leases using the same classification principle as in MFRS 117 and distinguish between two types of leases: operating and finance leases. MFRS 16 also requires lessees and lessors to make more extensive disclosures than under MFRS 117. MFRS 16 is effective for annual periods beginning on or after 1 January 2019. The Group is currently assessing the financial impact that may arise from the adoption of this standard.

#### A2. CHANGES IN ACCOUNTING POLICIES

At the date of authorisation of these interim financial statements, the following MFRSs, Amendments to MFRSs and Issues Committee ("IC") Interpretations were issued but not yet effective and have not been applied by the Group:-

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2019:-

| MFRSs and/or IC Interpretations (Including The Consequential Amendments)  | Effective Date |
|---|----------------|
| MFRS 17 Insurance Contracts   | 1 January 2021 |
| <ul> <li>Amendments to MFRS 3: Definition of a Business</li> </ul>  | 1 January 2020 |
| <ul> <li>Amendments to MFRS 9, MFRS 139 and MFRS 7:<br/>Interest Rate Benchmark Reform</li> </ul>   | 1 January 2020 |
| <ul> <li>Amendments to MFRS 10 and MFRS 128: Sale or<br/>Contribution of Assets between an Investor and<br/>its Associate or Joint Venture</li> </ul> | Deferred       |
| <ul> <li>Amendments to MFRS 101 and MFRS 108:<br/>Definition of Material</li> </ul>   | 1 January 2020 |
| <ul> <li>Amendments to References to the Conceptual<br/>Framework in MFRS Standards</li> </ul>  | 1 January 2020 |

The adoption of the above standards and amendments are not expected to have any material financial impact to the Group upon their first adoption.

The Group's revenue for the current quarter is RM38.1 million, RM83.8 million or 69% lower than the preceding quarter of RM121.9 million. The reinstatement of SKIN's revenue in preceding quarter following the adoption of MFRS 15 was the main reason for lower revenue in the current quarter. The Education and Employment Services segments also recorded lower revenue in comparison to the preceding quarter.

The Group recorded LBT of RM2.9 million or 45% higher than preceding quarter due to the net effect of lower revenue following the termination of SKIN. Software and Services revenue actually grew from RM21.5 million in the previous quarter to RM33.6 million in the current quarter.

#### **B3.** PROSPECTS FOR THE FINANCIAL YEAR ENDING 30 JUNE 2020

The Software & Services business continue to grow and is operationally profitable to the Group with on-going sustainable key projects at hand including MLA 3.0, Autodesk and Adobe.

On the Originating Summons ("OS") against the Government of Malaysia ("GOM") as Defendant for the claim amounting to RM733 million in relation to the termination of the Sistem Kawalan Imigresen Nasional (SKIN) by expropriation, the detail explanation **is in B9**.

Group remains positive on the compensation amount which is based on the formula stipulated under the Concession Agreement. The management is confident that there will be no impairment to the period under review.

The Group revenue for the current quarter is RM38.1 million, higher by RM7.0 million (23%) as compared to RM31.1 million in the preceding quarter excluding SKIN. The Loss After Tax (LAT) of RM3.0 million in the current quarter is 72% lower than the preceding quarter excluding SKIN of LAT RM10.5 million.

Since the Group has stopped its investment in the SKIN project the operating cashflow has returned to being positive. With this and the continued focus to grow the existing businesses and further cost rationalisation the Group is on track in its recovery journey.

#### **B4.** VARIANCE ON PROFIT FORECAST/PROFIT GUARANTEE

The Group did not issue any profit forecast or profit estimate previously in any public document.

#### **B9. MATERIAL LITIGATION**

The Group has filed and served its Originating Summons ("OS") dated 15 April 2019 against the Government of Malaysia ("GOM") as Defendant claiming the amount of RM733 million in relation to the termination of the Sistem Kawalan Imigresen Nasional (SKIN) by expropriation. The Group remains positive on the compensation amount based on the formula stipulated under the Concession Agreement. The management is confident that there will be no impairment to the period under review.

Separately, PSKIN and GOM have also agreed to refer the dispute in respect of PSKIN's Originating Summons to court-annexed mediation conducted by the Kuala Lumpur Court Mediation Centre ("Mediation Centre"). The parties agreed that the mediation process shall proceed concurrently with the court proceedings. On 30 October 2019, representatives from PSKIN and GOM (with parties' respective Counsel) attended the first mediation session. A further mediation session between the parties will be fixed in due course.

#### **B10. FAIR VALUE HIERARCHY**

There were no transfers between any levels of the fair value hierarchy took place during the current quarter and the comparative period. There was also no change in the purpose of any financial asset that subsequently resulted in a different classification of that asset.

#### **B11. PROPOSED DIVIDEND**

No interim dividend has been declared for the current quarter ended 30 September 2019.

#### B13. MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

The material uncertainty disclosed in the Independent Auditor's Report in the Annual Audited Financial Report for the period ended 30 June 2019 are as follows:-

- (a) The termination of Sistem Kawalan Imigresen Nasional ("SKIN") project by the Government of Malaysia ("GOM"), resulting in the Group undertaking a legal suit against the GOM to recover the sums under the SKIN project. Further details on the amount due for SKIN project and legal suit are disclosed in Notes 14(b) and 52, respectively.
- (b) During the financial period ended 30 June 2019, the Group and the Company recorded:-
  - (i) negative operating cash flows of RM72,253,000 and RM12,365,000 respectively; and
  - (ii) loss after taxation of RM8,957,000 and RM53,312,000 respectively.
- (c) The group has accepted advances of RM1,500,000 and RM5,000,000 from a director and a former director of the Company respectively for working capital purpose.

These indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern and whether the Group and the Company have sufficient cash flows to meet their obligations as and when they fall due.

In the preparation of the Group financial statements, the management has made an assessment on its working capital sufficiency and with the support of a cash flow projection incorporating the agreed action plan for the turnaround of the Group the Board and management have concluded that the Group and the Company have sufficient working capital to finance their operations and to meet their financial obligations as and when they fall due.

As at the end of the reporting period and as at the date these financial statements were authorised for issue, the directors are of the opinion that based on the strategy and action plans that the Management have presented and approved by the Board there is sufficient working capital to meet the financial obligations of the company as they fall due and therefore no material uncertainty exists over the ability of the Group and the Company to continue as a going concern. Accordingly, the financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that may be necessary if the Group and the Company are unable to continue as a going concern.

In relation to the above, the Board wishes to advise on the following:-

1. The Material Uncertainty to Going Concern highlighted in the Independent Auditors' Report was due primarily to the termination of Sistem Kawalan Imigresen Nasional ("SKIN") project by the Government of Malaysia ("GOM"). Prestariang SKIN Sdn. Bhd. ("PSKIN"), a wholly owned subsidiary of Prestariang Services Sdn. Bhd., filed and served an Originating Summons ("OS") dated 15 April 2019 against the Government of Malaysia ("GOM") claiming the amount of RM733 million in relation to the termination of SKIN by expropriation.

#### B13. MATERIAL UNCERTAINTY RELATED TO GOING CONCERN (CONT'D)

On 30 October 2019, the High Court Judge dismissed GOM's application to convert PSKIN's OS to a Writ action and awarded costs to PSKIN. In dismissing GOM's application, the Judge held, among others, that the termination of the Concession Agreement by expropriation is not in dispute. The only issue for the determination of the Court is the amount to be paid by GOM as a consequence of the expropriation. The Concession Agreement provides for a contractual formula to determine the amount to be paid. As such, there are no disputes of fact to warrant a trial. The Judge further directed that the hearing of PSKIN's OS and cross-examination of the deponents of affidavits (if necessary) be fixed for 1 July 2020, 2 July 2020 and 3 July 2020. Based on this development, the Group remains positive on the RM733 million contractual amount claimed against GOM based on the formula stipulated under the Concession Agreement.

Separately, PSKIN and GOM have also agreed to refer the dispute in respect of PSKIN's OS to court-annexed mediation conducted by the Kuala Lumpur Court Mediation Centre. The parties agreed that the mediation process shall proceed concurrently with the court proceedings. On 30 October 2019, representatives from PSKIN and GOM (with parties' respective Counsel) attended the first mediation session. A further mediation session between the parties will be fixed in due course.

- 2. The Group's negative operating cashflow of RM72,253,000 for the financial period ended 30 June 2019 was a result of the SKIN revenue remaining uncollected and therefore recorded as a trade receivable. If we adjust for the investment in the SKIN project, the Group's operating cashflow would have been positive. The Group's operating cashflow for current financial period ended 30 September 2019 has returned to positive and is RM1.61 million.
- 3. In addition, the Group are in the midst of executing some other action plans such as divestment of assets, cost cutting measures and rationalization of the Group's businesses to improve its cash flow and increase working capital available for the business to grow.
- 4. Moving forward, the Group will also play a critical role in bringing together technology and talent for the country's manufacturing sector with the global shift towards Industry 4.0 and Malaysia's version of Industry4WRD. The Group is able to provide end-to-end solutions in terms of talent management encompassing talent acquisition, profiling, training and placement to complement our existing software and services business.

#### **B14.** KEY AUDIT ISSUES

The following are the Key Audit Matters as reported in the Independent Auditors' Report in the Group's Audited Financial Statements for the period ended 30 June 2019. | As at 30 June 2019, trade receivables amounted to approximately RM200.32 million. The details of trade receivables and its credit risks are disclosed in Note 49.1(b) (iii) to the financial statements.  The management applied assumptions in assessing the level of allowance for impairment losses on trade receivables based on the following:  • customers' payment profiles of past sales and corresponding historical credit losses;  • specific known facts or circumstances on customers' ability to pay; or  • by reference to past default experience. | <ul> <li>Our procedures included, amongst others:-</li> <li>Obtained an understanding of:-</li> <li>the Group's control over the receivable collection process;</li> <li>how the Group identifies and assesses the impairment of receivables; and</li> <li>how the Group makes the accounting estimates for impairment.</li> <li>Reviewed the ageing analysis of receivables and testing the reliability thereof;</li> <li>Reviewed subsequent cash collections major receivables and overdue amounts;</li> </ul> |  |  |  |  |

#### **B14.** KEY AUDIT ISSUES (CONT'D)

impairment assessment involves significant judgements and there is inherent uncertainty in the assumptions applied by the management to determine the level of allowance.

This is considered a key audit matter due to the inherent subjectivity that is involved in making judgement in relation to the recoverability of trade receivables.

- Made inquiries of management regarding the action plans to recover overdue amounts;
- Examined other evidence including customers' correspondences, proposed or existing settlement plans, repayment schedules, etc; and
- Evaluating the reasonableness and adequacy of the allowance for impairment loss recognised.

#### **Development costs**

Refer to Note 11 to the financial statements

#### **Key Audit Matter**

Management exercise their judgment in determining the development costs that are qualified for capitalisation with respect to the technical feasibility of the products developed and ability to generate future economic benefits.

This is considered a key audit matter given the materiality of the Group's development costs and the inherent subjectivity in impairment testing.

The aforementioned impairment review gave rise to impairment loss of RM9,644,000 to the Group as disclosed in Note 11 to the financial statements.

### How our audit addressed the key audit matter

Our procedures included, amongst others:

- Made enquiries on the latest development and status of these projects and reviewed management's assessment of impairment by considering both internal and external sources of information;
- Reviewed the management measurement and assessment in the identification of additional development costs capitalised;
- Reviewed management's estimate of the recoverable amounts and tested the cash flow forecasts for their accuracy;
- Evaluated the appropriateness and reasonableness of the key assumptions;
- Performed sensitivity analysis over the key assumptions to understand the impact of changes over the recoverable amounts; and
- Reviewed the adequacy of disclosure in the financial statements.
