Explanatory Notes to the Interim Financial Report for the Second Quarter ended 30 June 2024

# A. Explanatory Notes Pursuant to Malaysian Financial Reporting Standard (MFRS) 134, Interim Financial Reporting (Cont'd)

#### 11. Property, Plant and Equipment

As at the end of the current quarter under review, the Group does not have any material commitment for the acquisition or disposal of property, plant and equipment.

#### 12. Goodwill

Goodwill is tested for impairment annually (31 December) and when circumstances indicate that the carrying value may be impaired.

The Group prepares cash flow forecasts derived from the most recent financial budgets approved by directors for the next five years. The key assumptions for the value-in-use calculations are as follows:

|                                  | Growth<br>Rate | Discount Rate<br>Applied | Growth<br>Rate | Discount Rate<br>Applied |
|----------------------------------|----------------|--------------------------|----------------|--------------------------|
| Cash-generating units ("CGUs")   | 2024           | 2024                     | 2023           | 2023                     |
| Eversendai Engineering LLC Dubai | 1%             | 10%                      | 1%             | 10%                      |
| Eversendai Engineering Sdn Bhd   | 1%             | 10%                      | 1%             | 10%                      |

#### a) Budgeted gross margin

The basis used to determine the budgeted gross margin is the average gross margin achieved in the year immediately before the budgeted year increase for expected efficiency improvements and after considering current economic conditions.

#### b) Discount rate

The discount rates used are pre-tax and reflect the weighted average cost of capital of the respective CGUs.

#### c) Growth rate

The growth rates are based on projects tendered and awarded and do not exceed the long-term average growth rate for the industries relevant to the CGUs.

The Group considers the relationship between its budgeted gross margins, discount rate, growth rate and the carrying value of the goodwill, amongst other factors when reviewing indicators of impairment.

As at 30 June 2024, the Group believes that any reasonably possible change in the above key assumptions applied are not likely to materially cause the recoverable amounts to be lower than their carrying amounts.

#### 13. Inventories

Based on the nature of the Group's businesses, its procurement policies and rate of inventories turnover, the Group is not exposed to the risk of old or obsolete inventories.
