Notes to the interim financial statements

1. Basis of preparation

The condensed consolidated interim financial statements for the financial period ended 30 June 2019 has been prepared in accordance with MFRS 134 "Interim Financial Reporting" and Appendix 9B (Part A) of the Listing Requirements of Bursa Malaysia. The condensed consolidated interim financial statements should be read in conjunction with the audited financial statements for the financial year ended 31 December 2018, which have been prepared in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

2. Changes in Accounting Policies

The significant accounting policies, method of computation and basis of consolidation applied in the condensed consolidated interim financial statements are consistent with those adopted in the audited financial statements for the financial year ended 31 December 2018, except for the following pronouncement due to the adoption of MFRS 16 "Leases".

MFRS 16 "Leases"

MFRS 16 is effective for annual periods beginning on or after 1 January 2019. MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under MFRS 117.

Lessor accounting under MFRS 16 is substantially the same as the accounting under MFRS 117 and did not have an impact for leases where the Group is the lessor.

The Group adopted MFRS 16 using modified retrospective method and comparatives are not restated.

Impact of the adoption of MFRS 16

In summary, the impact of the adoption of MFRS 16 to the opening balance of the statement of financial position as at 1 January 2019 are set out below:

	Carrying amount as at 01.01.19 RM'000	Remeasurements RM'000	MFRS 16 carrying amount as at 01.01.19 RM'000
Right-of-use of lease assets	-	18,144	18,144
Prepaid lease payments	16,026	(16,026)	-
Retained earnings	(384,176)	448	(383,728)
Deferred tax liabilities	(157,322)	142	(157,180)
Lease liabilities:			
- Short term	-	(434)	(434)
- Long term	-	(2,274)	(2,274)

The Group assesses whether a contract is or contains a lease based on the definition of a lease and related guidance set out in MFRS 16.

Leases previously classified as finance leases

For leases previously classified as finance leases, the Group recognised the carrying amount of the lease asset and the lease liability immediately before transition as the carrying amount of the right-of-use ("ROU") of lease asset and the lease liabilities at the date of initial application. The measurement principles of MFRS 16 are only applied after that date. This resulted in reclassifications of prepaid lease payments to ROU of lease assets at the date of initial application.

Leases previously accounted for as operating leases

The Group recognised ROU assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases of less than 1 year and leases of low-value assets. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. On a lease-by-lease basis, the Group measures the associated ROU of lease asset on a retrospective basis either at its carrying amount as if the new rules had always been applied or at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised as at 31 December 2018.

The Group has also applied the available practical expedients wherein it:

a) used a single discount rate to a portfolio of leases with reasonably similar characteristics;
b) relied on its assessment of whether leases are onerous before the date of initial application;
c) excluded the initial direct costs from the measurement of the right-of-use of lease asset at the date of initial application; and

d) used hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

In applying MFRS 16 for all leases, the Group as a lessee:

a) recognises right-of-use of lease assets and lease liabilities in the statement of financial position;
b) recognises amortisation and impairment losses, if any, of ROU of lease assets and finance cost on lease liabilities in profit or loss; and
c) separates the total amount of cash paid into a principal portion (presented within financing activities) and finance cost (presented within operating activities) in the statement of cash flows.

Other than the above, the adoption of the following IC Interpretation, amendments to existing accounting standards and annual improvements that came into effect on 1 January 2019 which are applicable to the Group, did not have any significant financial impact on the condensed consolidated interim financial statements upon their initial application:

- IC Interpretation 23 "Uncertainty over Income Tax Treatments"
- Amendments to MFRS 9 "Prepayment features with negative compensation"
- Amendments to MFRS 119 "Plan amendment, curtailment and settlement"
- Amendments to MFRS 128 "Long-term Interests in Associates and Joint Ventures"
- Annual improvements to MFRSs 2015 – 2017 cycle

The Malaysian Accounting Standards Board had issued the following amendments to existing accounting standards which are relevant to the Group and effective for the following financial years:

(i) Financial year beginning on or after 1 January 2020:

- Amendments to MFRS 3 "Definition of a Business"
- The Conceptual Framework for Financial Reporting (Revised 2018)

(ii) Effective date yet to be determined:

- Amendments to MFRS 10 "Consolidated Financial Statements" and MFRS 128 "Investment in associates and joint ventures - Sale or contribution of assets between an investor and its associates/joint ventures"

The Group did not early adopt the above amendments to the existing accounting standards. The adoption of the amendments to the existing accounting standards is not expected to have a material impact on the Group's financial statements.
