As announced on 10 December 2008, the Company has changed its financial year end from 30 June to 31 December. Pursuant to the change in the financial year end, comparative figures for the current quarter and the cumulative period are not presented.

These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial period ended 31 December 2009.

The accounting policies and methods of computation adopted by the Group in this interim financial report are consistent with those adopted in the annual statutory financial statements for the financial period ended 31 December 2009 except as mentioned in Note 2 below.

IC Interpretation 14

FRS 119 – The Limit on a Defined Benefit Asset,
Minimum Funding Requirements and their interaction

The adoption of the above did not have any significant impacts on the interim financial report upon their initial application, other than as discussed below:-

a) FRS 101 – Presentation of Financial Statements (revised)

The revised FRS 101 separates owner and non-owner changes in equity. Therefore, the consolidated statement of changes in equity only includes details of transactions with owners. All non-owner changes in equity, if any, will be presented as a single line labeled as other comprehensive income. In addition, the consolidated balance sheet was renamed as the consolidated statement of financial position in the interim financial report. This standard did not have any financial impact on the financial position and results of the Group.

b) Amendments to FRSs – Improvements to FRSs (2009) “FRS 117: Leases”

Prior to 1 January 2010, leasehold land that normally had an indefinite economic life and where title was not expected to pass to the lessee by the end of the lease term was treated as an operating lease. The payment made on entering into or acquiring a leasehold land was accounted for as prepaid land lease payments that were amortised over the lease term in accordance with the pattern of benefits provided.

Upon the adoption of the Amendment to FRS 117 in relation to classification of lease of land, the Group reassessed the classification of a leasehold land as a finance lease or an operating lease based on the extent of risks and rewards associated with the land. The Group has determined that all leasehold land of the Group are in substance finance leases and has reclassified its leasehold land from prepaid land lease payments to property, plant and equipment.

The reclassification has been made retrospectively and does not affect the profit or loss.

The effects of the reclassification on the consolidated statement of financial position as at 31 December 2009 are as follows:-

	As previously reported RM'000	Effects RM'000	As restated RM'000
Property, plant and equipment	386,149	16,141	402,290
Prepaid land lease payments	16,141	(16,141)	-

2. Changes in Accounting Policies (contd.)

c) FRS 139 – Financial Instruments: Recognition and Measurement

FRS139 sets out the new requirements for the recognition and measurement of the Group's financial instruments. Financial instruments are recorded initially at fair value. Subsequent measurement of those instruments at reporting date reflects the designation of the financial instrument.

Loan and receivables

Prior to 1 January 2010, loans and receivables were stated at the gross proceeds receivable less allowance for doubtful debts. Under FRS139, loans and receivables are initially measured at fair value and subsequently at amortised cost using the effective interest rate method. Gains or losses are recognised in the consolidated income statement when the loans and receivables are derecognised, impaired or through amortisation process.

Payables

Under FRS139, payables are initially measured at fair value and subsequently at amortised cost using the effective interest rate method. Gains or losses are recognised in the consolidated income statement when the liabilities are derecognised or through amortisation process.

Derivative Financial Instruments

Prior to 1 January 2010, derivatives were not recognised in the financial statements. Under FRS139, derivatives are required to be initially recognised at fair value on the date the derivative contract is entered into and are subsequently re-measured to fair value at each reporting date. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative. Any gains and losses arising from the changes in fair value on derivatives that do not qualify for hedge accounting are recognised in consolidated income statement.

In accordance with the transitional provisions of FRS139, the above changes are applied prospectively and the comparatives as at 31 December 2009 are not restated. Instead, the changes have been accounted for by restating the opening balances in the consolidated statement of financial position as at 1 January 2010.

Foreign currency forward contracts

The Group entered into foreign currency forward contracts to minimise its exposure to foreign currency risks as a result of transactions denominated in currencies other than its functional currency, arising from normal business activities. These are done in accordance with the Group's foreign currency hedging policy and are executed with credit-worthy financial institutions which are governed by appropriate policies and procedures.

The derivatives arising from the foreign currency forward contracts are stated at fair value, using the prevailing market rates. Derivatives with positive market values are included under current assets and derivatives with negative market values are included under current liabilities. Any changes in fair value of derivatives during the period are taken directly to the income statement.

23. Financial Instruments (contd.)

Interest rate swap contracts

The Group entered into interest rate swap contracts to manage its interest rate risk arising primarily from interest-bearing borrowings. Borrowings at floating rate expose the Group to fair value interest rates and the hedging contract minimises the fluctuation of cash flow due to changes in the market interest rates. The above interest rate hedging contracts are executed with credit-worthy financial institutions which are governed by appropriate policies and procedures.

The derivatives arising from the interest rate swap contracts are computed using the present value of the difference between the floating rates and fixed rates applied to the principal amounts over the duration of swap expiring subsequent to period end. Any changes in fair value of derivatives during the period are taken directly to the income statement.

Other derivative

This arise from an option granted to a minority shareholder of a subsidiary. The fair value of the option was estimated using the binomial method and the change in fair value is recognised in the income statement.

24. Material Litigation

- (a) A suit was filed by Affin Bank Berhad ("Affin") against, inter alia, Yap Yee Ping and Ng Kam Hung ("Plaintiffs") for payment of an amount of RM27.7 million and/or any other amount to Affin. The Plaintiffs are seeking, inter alia, certain declarations and also an order that SunwayMas Sdn Bhd ("SunwayMas"), a wholly-owned subsidiary of the Group, indemnifies the Plaintiffs for all claims brought against them by Affin in relation to a tripartite agreement executed amongst Cindai Unggul Sdn Bhd ("Employer"), SunwayMas and BSN Commercial Bank Bhd (now vested in Affin) on 2 May 2000. 24. Material Litigation (contd.)

Arising from this suit, the Plaintiffs have filed a counterclaim action against Affin and SunwayMas as the second defendant on 9 May 2008. Thereafter, the Plaintiffs have served a Statement of Defence and Counterclaim ("Counterclaim") on SunwayMas. Sunwaymas intends to defend this Counterclaim and at the advice of their solicitors, an order to strike out the case has been submitted, followed by a statement of defense on 4 December 2008. The hearing for case management which was fixed on 27 July 2009, was adjourned to 30 September 2009. On the said date, the hearing for case management was fixed on 4 February 2010 and it has been struck out with costs. The employer filed an appeal against the decision on 2 March 2010. The hearing date for the appeal is yet to be fixed by the Court.

SunwayMas's solicitors are of the opinion that the chances of success of the Plaintiffs' claim against Sunwaymas are negligible.

The Directors are of the opinion, after taking appropriate legal advice, that no provision for the abovementioned claims is necessary.

- (b) On 4 September 2008, the solicitors of Sunway Construction Sdn Bhd ("SunCon") had been served with a Statement of Claim ("Statement of Claim") by Shristi Infrastructure Development Corporation Ltd ("Claimant"). The Statement of Claim was received by SunCon's office in Malaysia on 8 September 2008.

Pursuant to an agreement signed between SunCon and the National Highway Authority of India for the rehabilitation and upgrading of NH-25 to a four-lane configuration in the state of Uttar Pradesh being a part of the East-West Corridor Project, SunCon had entered into a work order with the Claimant for the upgrading and rehabilitation of the stretch of NH-25 from 143.6 km to 170.0 km, of which the Claimant has provided two bank guarantees ("Bank Guarantees") to SunCon.

The Claimant has failed to carry out its obligations under the work order and SunCon has terminated the work order and cashed the Bank Guarantees. The Claimant had filed an application in the Supreme Court of India for the appointment of an arbitrator to arbitrate upon the disputes between the parties. The Supreme Court had appointed a sole arbitrator and two preliminary sittings have been held to date. The Claimant then filed its Statement of Claim on 4 September 2008.

The Statement of Claim was raised in respect of various claims (including claiming the refund of the amount cashed on the Bank Guarantees) and the total amount claimed is Rs891.5 million (approximately equivalent to RM70 million).

At the hearing on 2 February 2009, the arbitrator recorded SunCon's filing of the Statement of Defence and Counterclaim. In the counterclaim, SunCon is seeking for Rs78,13,94,628.61 (approximately equivalent to RM60 million) for inter alia, additional costs incurred by SunCon to complete the works, recovery of mobilisation advance and interest charges, loss of reputation and loss of profits.

24. Material Litigation (contd.)

On 5 Feb 2010, the hearing was devoted to the Claimant's letter of 2 February 2010. The Arbitrator felt that the controversy raised by the Claimant regarding the proper compliance of the Order dated 23 November 2009 should be brought to an end at the soonest and amicably. After some arguments, the arbitrator dictated an order basically stating that:

- (i) SunCon should put on affidavit the information it has already supplied;
- (ii) SunCon will need to get verifiable status or details in relation to the existing Bank Guarantees.

The first direction was complied on 24 February 2010.

On 1 April 2010, the Claimant's lawyer concluded his arguments on SunCon's Section 16 Application. SunCon's lawyer barely started on its Rejoinder when the hearing concluded for the day. SunCon's solicitors submitted the rejoinder to the reply of the Claimant to the Application of SunCon under Section 17 of the Arbitration & Conciliation Act, 1996.

On 21 April 2010, SunCon's lawyers concluded arguments on the Section 16 Application. Parties have been asked to make a synopsis of written arguments by 3 May 2010. The matter was listed on 12 May 2010 for orders and other procedural matters. The Arbitrator has indicated that he would like to give a decision on the Section 16 Application first, before proceeding with other matters.

On 12 May 2010, the Arbitrator had rejected the Claimant's objections to SunCon's Section 16 application which order is not appealable. SunCon's Section 17 Application was heard on 24 and 25 May 2010. The arguments stood concluded and the Arbitrator has reserved the matter for orders. The next hearing would be fixed at a later date.

The Directors are of the opinion, after taking appropriate legal advice, that no provision for the abovementioned claims is necessary.

Except for the abovementioned claims, there was no pending material litigation as at 17 August 2010 being the latest practicable date, which is not earlier than 7 days from the date of this report.
