A2 Auditors' report on preceding annual financial statements

The auditors has included a paragraph on material uncertainty related to going concern ('MUGC') in the Auditors' Report for the financial statements of the Company for the financial period from 1 October 2018 to 31 March 2020.

The details of the unmodified opinion as disclosed in the Independent Auditors' Report is reproduced below:-

NOTES TO THE FINANCIAL STATEMENTS

A2 Auditors' report on preceding annual financial statements (cont'd)

"Material Uncertainty Related to Going Concern

We draw attention to Note 2 to the financial statements, which indicates that the Group and the Company had incurred a net loss attributable to owners of the Company of RM87,607,000 and RM222,000 respectively. As at 31 March 2020, the Group's and the Company's total current liabilities exceeded its total current assets by RM282,725,000 and RM14,514,000 respectively. Further, the Company and certain subsidiaries have been engaging with its existing lenders since the beginning of 2020 to restructure and reschedule its financing facilities to strengthen the financial position as disclosed in Note 22 to the financial statements.

As stated in Note 2 to the financial statements, the ability of the Group and the Company to continue as going concern are highly dependent on successful implementation of restructuring measures which include operational recovery from the Covid-19 pandemic for leisure and property development division, favourable outcome of the ongoing discussions with the existing lenders and also trade payables on restructuring and rescheduling the payment for remaining outstanding debts, successful in restoring its financial position and achieving sustainable and viable operations and proper planning and monitoring of its working capital management. The above events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Group's and the Company's ability to continue as a going concern.

Our opinion is not modified in respect of this matter."

None of the Key Audit Matters disclosed in the Independent Auditors' Report relates to the MUGC paragraph above.

A3 Seasonality or cyclicality of operations

The operations of the property development segment were not subjected to seasonal or cyclical factors. As for the leisure and hospitality segment, its operations normally peak during major festivities, and public and school holiday seasons.

A4 Unusual items due to their nature, size or incidence

Saved as disclosed, there were no unusual items affecting assets, liabilities, equity, net income or cash flows for the current financial quarter.

A5 Changes in estimates

Saved as disclosed, there were no changes in estimates of amounts reported in a prior financial quarter of the current financial year or a prior financial year, which have a material impact on the current financial period.

(a) COVID-19 Pandemic

The recent outbreak of COVID-19 since the end of 2019 has seen significant cases increased worldwide which prompted the World Health Organisation to declare it as a pandemic on 11 March 2020. A series of precautionary and control measures have been and continued to be implemented by the Malaysia Government. Consequently, these restrictions are expected to have material adverse effects on the Malaysia's economy for 2020 and 2021. The deterioration of world economy has also prompted additional uncertainties to the business of the Group for the financial year ended 31 March 2021.

As at the date of this report, the management of the Group has assessed the overall impact of the situation on the Group's operations and financial position. Based on the assessment, there is a financial impact for current financial period, particularly on the leisure and hospitality businesses under leisure and hospitality segment of the Group. Some businesses of the Group have resumed operations under property development segment. Nevertheless, the Group is focusing on its efforts in the best possible way to mitigate its impact while protecting the business potential and branding from the medium to long term perspective.

However, the management is unable to reliably estimate the financial impact of COVID-19 on the Group's financial results for the financial year ending 31 March 2022 as the pandemic has yet to run its full course hence the current situation is still fluid. The Directors shall continuously assess the impact of COVID-19 on its operations as well as the financial position for the financial year ending 31 March 2022.

B3 Commentary on prospects

The global and domestic economy remains challenging with the current COVID-19 pandemic which is impacting all industries.

The Group's leisure and hospitality business is expected to continue to remain challenging in the near term. The LHD is greatly affected by MCO imposed to curb the COVID-19 pandamic and it is envisaged that it would require more time before the operation normalises.

In mitigating the impact of the COVID-19 disruption to LHD's operation, the Group is undertaking a review to streamline its financial obligation in response to the adverse operating environment to better position the Group moving forward.

NOTES TO THE FINANCIAL STATEMENTS

B3 Commentary on prospects (cont'd)

The PDD will continue to be the Group's main focus, which is currently backed with a total outstanding order book and unbilled sales of approximately RM297 million as of 31 March 2021 from its on-going projects in Kuantan, Morib and Kuching. These ongoing projects together with the planned launches are anticipated to continue to contribute positively to the Group in the foreseeable future.

During this challenging time, the Group will focus on liquidity and capital adequacy. We are currently in discussion with our bankers, creditors and various stakeholders to restructure and reschedule the Group's financial obligations to restore itself to a stronger financial footing.

The Group is determined to overcome its present performance set-back with the mutual cooperation and kind understanding of its various bankers and stakeholders.

The Group's development of affordable homes is in line with the Malaysian Government's thrust to encourage ownership of affordable houses by the B40 and M40 households. The Group will continue to focus on residential products priced below RM300,000 and at the same time, collaborate with strategic partners to enhance and expand its design and build projects.
