## A. EXPLAINATORY NOTES TO THE UNAUDITED FINANCIAL REPORT FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2013

## 1(a). Basis of preparation

i) The interim financial statements are unaudited and have been prepared in accordance with the International Accounting Standard ("IAS"), IAS 34 Interim Financial Reporting and paragraph 9.22(2) and Part A of Appendix 9B of the Bursa Malaysia Securities Berhad Main Market Listing Requirements, and should be read in conjunction with the Audited Financial Statement for the year ended 31 December 2012 and the accompanying explanatory notes attached to this unaudited financial report.
ii) Changes in accounting policies

There are no changes in accounting policies for the quarter ended 30 September 2013.
iii) Basic of consolidation

A business combination involving entities under common controls is a business combination in which all the combining entities or business are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. The consolidated financial statements of the Group have been prepared using the historical cost method similar to the pooling of interest as it is a common control business combination. Under the historical cost method, the acquired assets and liabilities are recorded at their existing carrying amounts. Consistent accounting policies are applied for like transactions and events in similar circumstances. All intra-Group transactions, balances, income and expenses are eliminated on consolidation. In the Company's financial statements, investments in subsidiary are carried at cost less any impairment in net recoverable value that has been recognized in profit or loss.
iv) Functional currency and translation to presentation currency

Items included in the financial statements of each entity of the Group are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The financial statements are presented in Renminbi, which is the functional currency of the Group.

## Significant accounting estimates and judgements

The preparation of the financial statements in conformity with IFRS requires the use of judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the financial year. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates.

The critical accounting estimates and assumptions used and area involving a high degree of judgements are described below:

## Critical assumption used and accounting estimates in applying accounting policies

Depreciation of property, plant and equipment
Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives. Management estimates the useful lives of property, plant and equipment according to the common life expectancies applied in the industry. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

# QUARTERLY REPORT ON CONSOLIDATED RESULTS FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2013 

## Impairment loss on other investment

Other investment is financial assets categorised as fair value through profit or loss. The fair value of other investment traded in active markets is based on quoted market prices at the end of the reporting period. The management deemed the quoted market price as the fair value of the other investment. The surplus or shortfall between the fair value with the carrying amount is recognised in profit or loss.

## Income tax

The Group has exposure to income taxes in the PRC. Significant judgement is involved in determining the groupwide provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Allowance for inventory obsolescence
The Group reviews the ageing analysis of inventories at each reporting date, and makes provision for obsolete and slow moving inventory items identified that are no longer suitable for sale. The net realizable value for such inventories are estimated based primarily on the latest invoice prices and current market conditions. Possible changes in these estimates could result in revisions to the valuation of inventories.

## Allowance for bad and doubtful debts

Allowances for bad and doubtful debts are based on an assessment of the recoverability of trade and other receivables. Allowances are applied to trade and other receivables where events or changes in circumstances indicate that the balances may not be collectible. The identification of bad and doubtful debts requires the use of judgment and estimates. Where the expected outcome is different from the original estimate, such difference will impact carrying value of trade and other receivables and doubtful debt expenses in the period in which such estimate has been changed.

The accounting policies used by the Group have been applied consistently to all periods presented in these financial statements.

## 1(b). Interpretations and amendments to published standards effective in 2012

On 1 January 2012, the Group adopted the new or amended IFRS and IFRS Interpretations Committee ("IFRSC") that are mandatory for application from that date. This includes the following IFRS and IFRSC, which are relevant to the Group:

## Reference

IAS 1
IAS 24
IAS 32

## Description

Presentation of Financial Statements - Amendments to review the way other comprehensive income is presented
Related Party Disclosure - Revised definition of related party
Financial Instruments: Presentation - Amendments relating to classification of rights issues

Improvements to IFRSs 2010
The adoption of these new/revised IFRS and IFRSC did not result in substantial changes to the Group's accounting policies nor any significant impact on these financial statements.

## B. INFORMATION REQUIRED BY BURSA MALAYSIA SECURITIES BERHAD UNDER LISTING REQUIREMENTS

## 1. Review of the performance of the Group

Our revenue decreased by approximately RMB 104.2 million or approximately $6.86 \%$ from approximately RMB $1,518.70$ million in preceding period ended 30 September 2012 ("3Q2012") to approximately RMB 1,414.5 million in current period ended 30 September 2013 ("3Q2013") mainly due to decrease in sales of our Non-Patented products.

Sales of Patented Products increased by approximately RMB 43.6 million or approximately $9.5 \%$ from approximately RMB 459.6 million in 3Q 2012 to approximately RMB 503.2 million in 3Q 2013 mainly attributed by increase in sales volume for plastic tape printers in 3Q 2013 by approximately $41 \%$ as compared to 3Q 2012.

Sales of Non-Patented Products decreased by approximately RMB 147.77 million or approximately $13.95 \%$ from approximately RMB $1,059.12$ million in 3Q 2012 to approximately RMB 911.35 million in 3Q 2013 was mainly attributed by decrease in sales volume from our filing and storage products and expandable files products of approximately $14.72 \%$ in 3 Q 2013 . The decrease mainly due to economic slowdown in of Europe and America market.

On Overall, our gross profit ("GP") decrease by approximately RMB 36.90 million or approximately $5.52 \%$ from approximately RMB 668.60 million in 3Q 2012 to approximately RMB 631.70 million in 3Q 2013 with an average GP margin of $44.66 \%$ and $44.04 \%$ for 3Q 2013 and 3Q 2012 respectively.

Our profit after tax ("PAT") decrease by approximately RMB 68.73 million or approximately $17.3 \%$ from approximately RMB 397.24 million in 3Q 2012 to approximately RMB 328.51 million in 3Q 2013 with an average PAT margin of $23.22 \%$ and $26.16 \%$ respectively for 3Q 2013 and 3Q 2012. The lower PAT margin in 3Q 2013 was mainly due to loss on disposed the quoted share (Pelikan share) of RMB 40.03 m and lower sale revenue.

The Group recorded revenue of approximately RMB 462.45 million in the current quarter, which lower than second quarter by $7.84 \%$ mainly due to economic slowdown in of Europe and America market.

The GP margin for current quarter is $44.95 \%$ as compare to $44.73 \%$ in preceding quarter remain fairly constant.
The PBT margin for current quarter is $29.4 \%$ as compare to $33.01 \%$ in preceding quarter. The decrease in PBT margin for current quarter was mainly due to increase in advertisement cost of RMB 36.6 million, loss on disposed the quoted shares (Pelikan Shares) of 10.14 million and lower sale revenue caused gross profit decrease RMB 14.6 million.

The PAT margin for the current quarter is $20.95 \%$ as compare to $23.48 \%$ in preceding quarter. The decrease in PAT was mainly due to cost increased as stated above.

## 1. Prospects for FY 2013

In FY2013, the Group expects its growth to continue to be underpinned by our innovative Patented and Non-Patented.

The Group is optimistic about the growth prospects of its innovative Patented Products segment. Industry studies have shown that the global plastic stationery market is expected to achieve a compounded annual growth rate of approximately $5.3 \%$ from 2011 to 2014 . The Group expects that as consumers become more affluent and the increase level of literacy, demand for high quality plastic stationery market will increase over time.

To further enhance its position as the largest manufacturer of plastic filing and storage products in Fujian Province, our Group have entered into contract to purchase new machineries for our new plant, and this will increase our production capacity that will lead to greater market share.

## QUARTERLY REPORT ON CONSOLIDATED RESULTS FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2013

## 3. Prospects for FY 2013 (continue)

The factors that are likely to influence the Group performance for FY2013 are as follows:-
(a) Currency Exchange Risk

The value of the RMB against foreign currencies is subject to changes in the PRC Government's policies and international economic and political developments.

An appreciation of the RMB may adversely affect our revenue as most of our revenue is derived from export to overseas markets and most of our overseas customers make payment in USD. However, our Executive Directors are of the opinion that a gradual appreciation of the RMB will have minimal impact on our Group's export revenue and profit margins as our Group is not operating on a price war strategy but differentiate our products by quality and innovativeness. Our Executive Directors are of the view that our Group will be able to increase our product prices should the RMB appreciate in value as we are constantly developing new products to address our customers' requirements.

Devaluation or depreciation of the RMB may affect our costs of sale as we make payment to our suppliers of PP materials in USD. Devaluation or depreciation of the RMB will also affect the amount of dividends or other distributions received by our Shareholders as well as any foreign currency obligations we may have. A revaluation or an appreciation of the RMB on the other hand may affect the amount of funds that we receive in RMB from fund raising activities outside the PRC as well as increased competition from imported/international stationery producers.
(b) Slow down of Europe Country Economy

Currently Europe market contributed approximately $15 \%$ of our total revenue. But due to the unforeseen Europe country economic crisis, to the certain extent it will also affect our group revenue.
(c) Supply and Price of PP Materials

PP materials are major components of our cost of sales. As PP materials are by-products of crude oil, the prices of PP materials are also affected to a certain extent by the movement of crude oil prices.

As a result, should there be any significant increase in the price of PP materials due to demand and supply conditions or increases in crude oil prices, and if we are unable to pass on such increase in costs to our customers, our profitability and thus our financial performance would be adversely affected.

Should there be a shortage of PP materials and our suppliers are unable to fulfil our requirements as contracted, our production, sales and financial performance would be adversely affected.
(d) Supply of production equipments from our supplier

Supplier unable to supply the equipment on time due to technical issue so affect our production schedule and launching time.

Barring unforeseen circumstances, the Group is optimistic about its performance in FY2013
