#### **B3** Commentary on Prospects

The new financial year ahead (FY2024) is anticipated to remain challenging owing to heightened market ambiguities arising from ongoing macroeconomic issues and the global economic growth which is forecasted to be moderate. Bank Negara Malaysia ("BNM") is projecting the gross domestic product ("GDP") growth to slow down to 4.5% in 2023 as compared to the high growth base of 8.7% in 2022.

Despite the headwinds, we remain steadfast in the execution of our strategic plans with prudent management. We have identified several pockets of growth that we can leverage on to further grow our business.

The demand for passports is anticipated to remain on an upwards trajectory for the FY2024. We have enhanced our capacity and capabilities to ensure uninterrupted, timely and quality delivery to our client to support the pent up demand from the public. Meanwhile, the demand for MyKad has also continued to gain traction in this financial year and we have prepared ourselves to accommodate the upcoming surge in orders.

Having secured the i-Kad project in FY2023, we have made preparations to deploy and implement this project which has commenced in early August 2023. This project has also opened up more opportunities for us to market various other solutions and e-services.

Premised upon our strategic plans, a healthy order book and our prudent management, the outlook continues to be bright as we charge forward towards a new chapter of growth.
