During the current quarter, the Group recorded revenue of RM84.4 million, a 29.0% decrease compared to the 3Q19 of RM118.8 million. The decrease in Group revenue is mainly due to the lower progress of work undertaken. As a result of the abovementioned, our reported PAT declined by 53.6% to RM5.3 million or 1.01 sen per share in 3Q20, compared to RM11.3 million or 2.31 sen per share in 3Q19.

#### Construction segment:

The construction division reported a revenue and profit after tax of RM50.9 million and RM2.4 million in 3Q20, compared to RM128.7 million and RM19.3million in 3Q19 respectively. The decline in revenue and profit after tax is mainly due to the lower progress of work undertaken. Upon the lifting of the MCO, the Group began construction site work activities in mid-June 2020, and progress has been on an uptrend, and we have in 3Q20, achieved a normalised speed of activity.

## Property development segment:

The property development division reported the revenue and profit after tax of RM33.5 million and RM3.9 million in 3Q20 compared to the negligible revenue and loss after tax of RM2.0 million in 3Q19. The increase in revenue and profit after tax is due to contributions from its ongoing projects, E'island Lake Haven and The Peak.

# B2. Material Changes in the Result for the Current Quarter Compared with the Results for the Preceding Quarter

	Current Quarter 30/09/2020 RM'000	Immediate Preceding Quarter 30/06/2020 RM'000	Changes (%)
Revenue	84,405	(53,267)	258.46
Profit After Taxation ('PAT')	5,265	(74,046)	107.11

The Group's revenue for the current quarter of RM84.4 million is 258.5% higher compared to the immediate preceding quarter of negative RM53.3 million. The increase in revenue due to 2Q20 has recognition of impairment loss and repricing of completed inventories. The Group reported profit after tax of RM5.3 million in 3Q20, compared to a loss after tax of RM74.0 million in the immediate preceding quarter, as a result of the abovementioned reasons.

#### **B3.** Prospects

Based on its current businesses, the Group has a total of RM2.3 billion in future gross revenue to be recognised, which will provide earnings and cashflow visibility up to FYE 2024, on total borrowings of RM259.7 million (Long-term: RM16.5 million, Short-term: RM243.2 million) and cash of RM131.2 million. As such, over the following quarters leading up to FYE 2024, we anticipate that revenue, earnings and cashflow generation is expected to improve. Presently, the construction and property development divisions' balance cash collection to be received stands at RM1.4 billion and RM0.9 billion respectively.

The Group's construction division has achieved its rate of activities at pre-MCO levels. Our construction sites observe strict precautionary measures, abiding to the SOP requirements by the authorities to prevent the spread of Covid-19.

Our property development division has been receiving encouraging response, proven by the value of SPA that has been signed. In 2Q19, we had a total of 1,645 property units for sale worth RM1.1 billion. As at 15 November 2020, we have signed 454 units of SPAs worth RM270.6 million, representing 27.6% of total units launched. We anticipate that by the year end, we would be able to cumulatively sign approximately 500 units of SPAs, representing an overall divisional take-up rate of 30.4%. Additionally, we have 148 units of properties worth RM92.3 million that has been booked, and are in the process of sales conversion.

We are on track to reduce our operating cost by 40% this year. In 3Q20, our operating cost stood at RM7.8 million, down by 39.3% year-on-year. For the first 9-months of 2020, our total operating cost stood at RM19.6 million, representing savings of RM13.2 million or 40.2% compared to the 9-months of 2019. Additionally, the Group's total cash reserves stood at RM132.4 million, rising by 2.0% or RM2.6 million compared to 2Q20.

Overall, we would continue to monitor our operating expenses to further improve our profit margins and build up our cash reserves. These two primary measures would ensure that the business remains resilient. Stemming from our existing businesses, we anticipate that our future earnings and dividend payout will progressively increase.

#### B3. Prospects (Cont'd)

#### (a) Construction division

The Group's construction division is armed with a healthy outstanding orderbook of RM1.3 billion, that will sustain earnings and cashflow contribution up to FYE 2023.

In October 2020, we signed the Articles of Agreement with MRCB George Kent (MRCB) in relation to our GS04 Light Rail Transit 3 (LRT3) construction package. Both partners has agreed to omit the provisional contract sum, the prime cost sum and the Temasya Station; reduce the scope of work for the Glenmarie and Stadium stations; and agreed to the lump sum contract of RM709.8 million following our cost optimisation proposal.

Based on our experience, capabilities and resources, we see opportunities from potential projects that have been announced by the Government. We would seek opportunities in infrastructure projects in Peninsula Malaysia, including the KL – Singapore High Speed Rail (HSR) and Mass Rapid Transit 3 (MRT3); and in Sabah, the Pan Borneo Highway Sabah, together with our joint-venture partner. As for building jobs, the planned rollout of new hospital projects would be potential projects that we would be on the lookout for.

#### (b) Property Development Division

Since the revival of our property development division in 2Q19, which is armed with a GDV of RM1.1 billion, we have, up to 17 November 2020, achieved RM270.6 million in property sales, with an additional RM92.3 million worth of bookings that are in the process of being converted into sales. As at 30 September 2020, our unbilled property sales stood at RM213.0 million.

As per to our announcement in 2019, we will allocate a portion of net cash proceeds from the sale of our property developments as dividends to shareholders. As such, the Group had declared 1.0 sen in interim dividend, utilising part of the net cashflow proceeds from the property development sales.

Policies announced by the Government will benefit our property development division. The all-time low OPR rate, leading to lower mortgage financing rates has given rise to interest in our developments. Aside that, the proposal in Budget 2020 for a stamp duty exemption for the memorandum of transfer and loan agreements for homes worth up to RM500,000 is a direct positive for us, as a bulk of our properties that are for sale is below the mark. In Johor Bahru, the announcement of the RTS and HSR will increase the attractiveness of The Peak, given its central-location, freehold and commercial-titled status.

The property development division currently has a total unbilled (sold and unsold properties) GDV of RM845.4 million, which is expected to generate operating cashflows of RM418.1 million, after taking into account the construction costs and repayment of borrowings. From April 2019 to 17 November 2020, we have recorded a divisional take-up rate of 27.6%. While we foresee that the properties may potentially be fully-sold by FYE 2023, we target for the properties to be fully taken-up by FYE 2024; and will be key future earnings and cashflow growth.

#### (c) Recurring Income

The Petronas Basecamp in Sipitang, is part of the Group's strategy to expand its recurring income base. The Group has fully-repaid the borrowings of RM40 million in October 2020.
