The Group achieved revenue of RM314.6 million in the current quarter as opposed to RM303.3 million in the previous year's corresponding quarter. The German segment continue to achieve real sales growth in Euro currency for the "back to school" season despite the current COVID-19 pandemic. The Group recorded a profit before tax of RM21.2 million in the current quarter as opposed to profit before tax of RM9.8 million in the previous year's corresponding quarter. The profit before tax increased due to higher sales contribution achieved from higher sales in the German region and also implementation of cost measures to mitigate COVID-19 impact coupled with government assistance in certain countries.

The Group's revenue increased to RM314.6 million in the current quarter as compared to RM255.4 million in the preceding quarter. Due to further easing of lockdowns and movement controls around the world in the current quarter as compared to the previous quarter, the Group's revenue continue to be driven by the 'back to school" season for the European region. The stronger Euro also contributed partly to the increase in translated revenue.

The Group recorded a profit before tax of RM21.2 million in the current quarter as compared to profit before tax of RM20.6 million in the preceding quarter.

B7. Prospects

The global economic outlook remains uncertain as the recurrence of pandemic is faced by many countries worldwide and more measures for lockdowns or movement restrictions are being imposed. As such, the Group's operations continued to be affected by the pandemic as certain countries still restrict movements and non-essential business, schools and shops are closed. The prolonged closures may affect the business of the Group and we expect that the economic conditions to be slow for the rest of the year. Nevertheless, the Group experienced positive sales developments for "back to school" season for countries which have eased the movement or store opening restrictions such as Germany and many European countries. The Group has implemented measures to reduce operating costs and budgeted investments while taking on any support from government fiscal policies and assistance where available. Online sales efforts are also stepped up in countries where physical stores are not open or when customer visits to stores becomes lesser.
