Germany

The German segment's revenue represents 63.2% of the Group's revenue. In the current quarter, departmental stores and other stationaries stores benefited from lifted restrictions, with sales soaring 16.5%. In addition, the increase was also due to the improved sales from logistic services and favourable Euro exchange rate against Ringgit Malaysia.

In the current quarter, certain cost such as the staff costs normalised to pre pandemic as there were no major salary assistance benefits and other government assistance as compared to previous year's corresponding quarter.

A9. Segment Information (cont'd)

Rest of Europe

The contribution in revenue from all other European countries, except Germany, represents 20.8% of the Group's total revenue. The improving health situation and ensuing continued easing of virus containment measures had resulted in the positive development to the economic activities in this region. Higher sales were achieved as compared to the previous year's corresponding quarter. In addition, the increase was also due to the favourable Euro exchange rate against Ringgit Malaysia.

In the previous year's corresponding quarter, certain countries in the region had received government assistance due to the pandemic. With the improving health situation, the said government assistance was minimal in the current quarter. Nevertheless, the region achieved a segment result of RM2.9 million in the current quarter from better margin contribution from the higher sales.

Americas

Americas, which comprise 12.0% of the Group's revenue are represented by Mexico, Colombia and Argentina. In the previous year's corresponding quarter, the COVID-19 outbreak which resulted in lockdown and containment measures affected the sales in the region during that period. As of to date, new infection waves continued to negatively affect the economic activities in this region. Although higher sales were achieved as compared to the previous year's corresponding quarter with the government's intention for school to reopen soon, overall, the market sentiment is still weak in this region.

The segment profit was higher than the previous year's corresponding quarter due to better sales being achieved.

Rest of the World

Rest of the World which comprise 4.0% of the Group's revenue consist mainly countries such as Japan, Taiwan/China, South East Asia and Middle East. As of to date, new infection waves continued to negatively affect the economic activities in this region. The market sentiment is still weak in this region.

The region achieved a segment result of RM1.3 million in the current quarter.
