The revenue recorded for the current quarter and the preceding year corresponding quarter was RM250.93 million and RM184.78 million respectively, increased by 35.8% or RM66.14 million.

The increase in revenue was mainly attributable to increase in revenue for trading and processing of steel products by 30.5% or RM22.51 million from RM73.88 million to RM96.39 million and by 39.3% or RM43.53 million from RM110.85 million to RM154.38 million respectively.

The increase in revenue for trading of steel products was mainly due to:

- higher revenue from trading of flat carbon steel products by 50.5% attributable to higher tonnage sales by 37.8% as well as higher average selling price by 9.2%; and
- higher revenue from trading of other flat steel products by 100.4% attributable to higher tonnage sales by 32.7% as well as higher average selling price by 50.9%.

The increase in revenue for processing of steel products was mainly due to:

- higher revenue from processing of flat carbon steel products by 7.4% attributable to higher average selling price by 12.8%, despite lower tonnage sales by 4.7%;
- higher revenue from processing of other flat steel products by 154.4% attributable to higher tonnage sales by 68.3% as well as higher average selling price by 51.2%; and

B1. Review of Performance (Cont'd)

Current Quarter Compared To Preceding Year Corresponding Quarter (Cont'd)

Despite higher revenue by 35.8% or RM66.14 million, from RM184.78 million for the preceding year corresponding quarter to RM250.93 million for the current quarter, our gross profit decreased by 40.3% or RM21.53 million, from RM53.46 million for the preceding year corresponding quarter to RM31.93 million for the current quarter, mainly due to lower overall gross profit margin by approximately 10.6 percentage points, from 28.9% for the preceding year corresponding quarter to 18.3% for the current quarter as well as inventories written down of RM13.88 million in the current quarter as certain inventories were measured at its estimated net realisable value.

The other income for the current quarter was RM0.44 million as compared to RM1.22 million for the preceding year corresponding quarter, decreased by approximately RM0.78 million, mainly due to:

- absence of rental income of RM0.74 million as a result of expiration of tenancies for part of our warehouse space in Port Klang Free Zone ("PKFZ"); and
- decrease in interest income by RM0.32 million; offset by
- higher unrealised gain on foreign exchange recorded for the current quarter by RM0.11 million as compared to preceding year corresponding quarter; and
- higher insurance claims by RM0.15 million.

Our operating costs increased by approximately RM1.17 million from RM8.92 million for the preceding year corresponding quarter to RM10.09 million for the current quarter, as the result of the following:

- 1. Increase in distribution costs by RM0.23 million mainly due to:

Current Quarter Compared To Preceding Year Corresponding Quarter (Cont'd)

Total finance costs for the current quarter was RM4.23 million, increased by RM1.04 million as compared to RM3.19 million for the preceding year corresponding quarter. - decrease in interest income by RM0.42 million; offset by
- higher insurance claims by RM0.27 million, and
- wage subsidy of RM0.11 million received from Government under the Wage Subsidy Programme in the current financial year-to-date.

Our operating costs increased by RM1.96 million from RM17.94 million for the preceding financial year-to-date to RM19.90 million for the current financial year-to-date, as the result of the following:

 - higher stamp duty paid by RM0.08 million.

Total finance costs increased by RM1.98 million as compared to the preceding financial year-to-date. This was mainly due to higher interest expense for overdraft facilities, bankers' acceptances, islamic financing and term loans by RM0.12 million, RM1.11 million, RM0.28 million and RM0.32 million respectively, mainly due to higher utilisation of the aforementioned facilities.

Based on the foregoing factors, our profit before tax for the current financial year-to-date decreased by 41.4% or RM35.25 million as compared to preceding financial year-to-date, from RM85.10 million for the preceding financial year-to-date to RM49.85 million for the current financial year-to-date.

- 1. Increase in revenue for trading of steel products by 7.1% or RM6.39 million from RM90.00 million to RM96.39 million mainly due to higher revenue from trading of other flat steel products by 39.7% attributable to higher tonnage sales by 37.5% as well as slightly higher average selling price by 1.5%.
- 2. Decrease in revenue for processing of steel products by 15.6% or RM28.55 million, from RM182.93 million to RM154.38 million mainly due to:

For the current quarter, our gross profit decreased by 28.7% or RM12.85 million, from RM44.78 million for the immediate preceding quarter to RM31.93 million for the current quarter mainly due to the decrease in revenue by 8.1% or RM22.09 million, from RM273.02 million for the immediate preceding quarter to RM250.93 million for the current quarter as well as inventories written down of RM13.88 million in the current quarter as certain inventories were measured at its estimated net realisable value, which were partly compensated by higher gross profit margin for processing of steel products by 3.2 percentage points, from 15.7% for the immediate preceding quarter to 18.9% for the current quarter.

The other income of RM0.44 million for the current quarter as compared to RM0.67 million for the immediate preceding quarter, was lower by approximately RM0.23 million mainly due to:

- absence of rental income of RM0.35 million as a result of expiration of a tenancy for part of our warehouse space in PKFZ;
- absence of wage subsidy of RM0.11 million from Government under the Wage Subsidy Programme;
 and
- decrease in interest income by RM0.04 million; offset by
- unrealised gain on foreign exchange of RM0.11 million recorded for the current quarter; and

B3. Commentary on Prospects

Our business operations mainly comprise trading and processing of a diverse range of flat and long steel products. Our processing facilities which include an extensive range of cutting, levelling, shearing profiling, bending and finishing are catered for specific product requirements of our large customer base from diverse industries and to provide a one-stop solution to potential customers. The cutting and profiling facilities include a fiber laser cutting machine complete with automated loading and unloading facilities for inputs and outputs with overall processing speed of up to 5 times more than conventional laser cutting machines. In addition, our Group also has downstream manufacturing facilities for production of welded steel pipes with existing Phase 1 of the facilities currently having 4 production lines. We have also embarked on Phase 2 of the facilities which is only expected to be fully commissioned in the second half of 2023.

The profitability of our business is very much dependent on prices of our steel products besides demand from customers. In this respect, global factors such as volatility in commodities and crude oil prices as well as significant fluctuation in exchange rate of foreign currencies against Ringgit Malaysia will affect our suppliers pricing and hence the profitability of our steel products as some of our merchandise and raw materials are sourced from overseas. With regards to the demand from our customers, our Group is leveraging on its large and diverse customer base which in turn dependent on the condition of economies they thrived in, their resilience towards crisis as well as policy measures of the government.

Globally, risks to the global economic outlook are overwhelmingly tilted to the downside after taking into consideration risks arising from the Russia-Ukraine war, inflation globally, the tight labour market and monetary policies, potential debt distress in emerging markets, the property sector crisis in China and geopolitical fragmentation, which could impede global trade and cooperation.

Locally, our trade performance has so far remained resilient, maintaining its growth momentum for the past few quarters. Following the systematic reopening of the economy, continued expansion of internal and external demand, and the reduction in unemployment, foreign investors appear to be more confident in Malaysia's prospects. However, Malaysia is also facing risks and challenges to recovery such as the rising inflation and supply chains disruption due to the ongoing Russia-Ukraine conflict. A potential slowdown in China's economy and the spillover impact from the Russian-Ukraine conflict are also adding to the uncertainty.

Mindful of the uncertain economic outlook and risks involved as well as the current softening of steel prices and Ringgit Malaysia, our Group has increased vigilant on the movement of steel prices and related foreign currencies and will take proactive measures including negotiating forward contracts, where necessary, as well as prudent inventory management, to reduce any negative impact which may arise therefrom. Our Group will also continue to enhance the operating capabilities and efficiencies in meeting customers' requirements and to ensure timely satisfaction of customer orders while keeping our operating costs at a manageable level. The risk of COVID-19 infection, although various Standard Operating Procedures had been removed by the relevant authorities upon entering into the endemic phase, will continue to be addressed by maintaining certain crucial preventive measures including work place hygiene and face masking in enclosed workplace. The Group has also retained its emergency response team in major subsidiaries to deal with emergencies arising from the endemic as well as other health and workplace related emergencies.

In view of the abovementioned global and local uncertainties and adverse factors, our Board remains cautious on the performance of the Group for the remaining quarters of 2022.
