A8. Malaysian property sector

Activities in the housing market have shown some signs of a pick-up, with total housing transaction value recording a positive annual growth of 0.9% (4Q 2016: -11.6%), the first time since 2015. Housing transaction volume has also showed improvement, recording a smaller contraction of 5.4% (4Q 2016: -12.7%) in the first quarter of 2017. This was mainly contributed by transactions for the purchase of houses priced above RM500,000 in both the primary and secondary markets. Based on preliminary data, the average house price registered an annual growth of 5.3% in the first quarter of 2017 (4Q 2016: +7%). Financing by banks for the purchase of affordable houses remains available as reflected by the loan approval rate of about 72% for houses priced below RM500,000. New launches of houses in this price segment, however, remains lagged, a trend observed since 2015. Consequently, housing affordability remains challenging, particularly for first-time house buyers.

Risks to financial stability arising from speculative activity in the housing market remains muted. The annual growth in the number of borrowers with three or more outstanding housing loans (a proxy for speculative buyers) stood at 1.4% (4Q 2016: +1.4%). The number of housing loans settled within three years (the typical duration required to complete construction after a property is acquired) – another indication of speculative purchases – eased to 9.2% (4Q 2016: 11.9%) of total settled housing loans.

Vacancy and rental rates in the office space and shopping complex segments remained depressed in the first quarter of 2017, reflecting sanguine tenant demand on the ground. The continued excess supply in the commercial property segment, if left unaddressed, could become a long-term structural issue with wide implications to the economy. Direct risks to banks from lending to property developers, including end-financing, in the office space and shopping complex segments remained small at 5.1% of total bank loans. This is supported by sound lending and valuation practices. The delinquency and impairment ratios for these exposures remained low at 0.7% and 1%, respectively (1Q 2017: 0.8% and 1.1%, respectively).

For the quarter ended 30 September 2017, the Group recorded revenue of RM202.9 million, a decrease of RM21.9 million or 9.8% from RM224.8 million in the previous year, attributed to slower revenue recognition from the Group's industrial developments. Revenue recognition during the quarter originated primarily from the Group's residential and commercial property developments.

Additionally, the Group's investment properties of Matrix Global Schools and d'Tempat Country Club reported aggregate revenue of RM7.4 million, an increase of RM1.3 million or 21.3% higher from RM6.1 million in the previous year, attributed to higher student enrolments and increased spending by club members.

Despite the lower revenue for the quarter, the Group recorded higher profit before tax of RM71.0 million, an increase of RM8.2 million or 13.0% from RM62.8 million in the previous year. The higher profitability was attributed to enhanced gross profit margin, resulting from increased sales of higher-premium residential properties as the Group's townships continue to grow in vibrancy and appeal to home purchasers.

As at 30 September 2017, the Group's total undeveloped land bank is approximately 1,600 acres, while unbilled sales grew to a new height of RM1.1 billion compared to RM765.3 million a year ago and RM933.3 million as at the preceding quarter's end.

B3. Prospects

The Group is also engaged in other development projects in the vicinity of Seremban, Negeri Sembilan, such as the Residensi SIGC project.

The Group maintains an optimistic outlook on demand for its properties, backed by its strong track record and sales performance despite ongoing challenges in the broader property market. The Group also closely monitors market requirements, and plans its launches accordingly to comprise a strategic mix of both affordably-priced and higher-premium homes in line with market demand. The Group continuously invests into improving township facilities to enhance their appeal to potential buyers and commercial property investors, as well as enhance the value of its townships and secure its spot as a leading developer of integrated townships.

The Group's ongoing developments as at 30 September 2017 grew to a new watermark of RM2.4 billion in GDV, significantly higher than RM1.9 billion in the previous year. Additionally, the Group has lined up new launches worth approximately RM 2.0 billion in GDV over the next two years. The Group is confident that its profitability will be sustained with the significant amount of new launches and sales progress of ongoing developments.

Additionally, the Group's investment properties comprising Matrix Global Schools and d'Tempat Country Club have attracted increasing patronage, as reflected in its revenue uptrend since the previous financial year ended 31 March 2017 (FY2017). Particularly for Matrix Global Schools, the Group entered into strategic tieups with prominent foreign education institutions such as China's Shanghai Zhangjiang Specialized College and Hengshui No. 1 High School, with potential to see approximately 1.000 new student enrollments over the next three years. The Group continuously explores similar opportunities that would benefit Matrix Global Schools.

Together with other investments such as the 34-acre X Park, d'Sora Boutique Business Hotel, and potential future investments, these properties would not only position Bandar Sri Sendayan as a leading community-focused township that aims to provide a wholesome living experience for everyone, but also create a rising and recurring revenue stream from investment properties.
