A8. Industry outlook

(i) Malaysian property sector

The residential subsector is expected to grow at a slower pace, mainly due to the increased property overhang caused by the mismatch between supply and demand. However, various measures undertaken by the Government including the building of 60,000 units per year of affordable homes within 10 years and the reinvigorating of the National Housing Policy are expected to boost the growth of the subsector in 2020. In addition, the enhancement of the Fund for Affordable Homes by Bank Negara Malaysia will enable the first-time home buyers to enjoy lower monthly commitment up to 20%, which in turn will support the subsector.

Bank Negara Malaysia launched a Fund for Affordable Home earlier in January 2019 to help home buyers from the lower-income group to purchase their first homes, for property priced up to RM150,000 at a concessionary interest rate up to 3.5%. The qualifying criteria was expanded on 1 September 2019 to include property priced up to RM300,000 for households with maximum income of RM4,360, being the threshold income for B40. As of September 2019, 2,840 applications amounting to RM472.7 million have been received. The approval rate is 77.9%, with 982 applications amounting to RM156.2 million being approved.

In partnership with the private sector, the Government has launched the Home Ownership Campaign where developers providing at least a 10% discount for qualified properties will be matched with stamp duty exemptions. As many as 21,000 property units valued at RM13.44 billion under the Home Ownership Campaign have been successfully sold, exceeding the RM3 billion initial sales target. The Campaign deadline has been extended by 6 months from 30 June to 31 December 2019.

To address those who are unable to afford the initial 10% deposit and access to financing in purchasing their homes, the Government will collaborate with financial institution in introducing Rent To Own (RTO) financing scheme. Through this scheme, financing of up to RM10 billion will be provided by the financial institutions with the support from the Government via a 30% or RM3 billion guarantee. This RTO scheme is for purchase of first home up to RM500,000 property price. Under this scheme, the applicant will rent the property for up to 5 years and after the first year, the tenant will have the option to purchase the house based on the price fixed at the time the tenancy agreement is signed. The government will provide stamp duty exemptions on the instruments of transfer between the developer and financial institution, and between the financial institutions and the buyer in this scheme.

To reduce supply overhang of condominiums and apartments amounting to RM8.3 billion in the second quarter of 2019, the Government will lower the threshold on high rise property prices in urban areas for foreign ownership from RM1 million to RM600,000 in 2020.

To assist the youth in purchasing their first home, the Government will extend the Youth Housing Scheme administered by Bank Simpanan Nasional from 1 January 2020 until 31 December 2021. The scheme also offers a 10 percent loan guarantee through Cagamas to enable borrowers of full financing and RM200 monthly instalment assistance for the first two years limited to 10,000 home units.

In response to the public view regarding the Real Property Gain Tax (RPGT) imposed on disposal of properties after 5 years onwards, the Government will enhance RPGT treatment by revising the base year for asset acquisition at 1 January 2013 for asset acquired before 1 January 2013 as compared to the previous base year of 1 January 2000.

(ii) Australian residential property sector

In 2018, Australia's largest residential markets, Sydney and Melbourne, moved from an unprecedented growth cycle into a period of correction. Most other capital cities have begun to follow suit, exceptions being Brisbane and Adelaide houses and Melbourne units, all of which are at historically high prices and have upward momentum. In Brisbane, Perth and Adelaide price corrections will be most severe in unit markets on account of high levels of supply. House prices have proven more resilient in Brisbane and Adelaide and are still trending upwards. Queensland is receiving high levels of interstate migration and this will continue to support Brisbane house values.

There are significant uncertainties this year that could profoundly impact the residential sector:

- 1. The findings of the Royal Commission into Misconduct in the Banking, Superannuation and Financial Services Industry and, more importantly, how banks and other lenders react to these findings in terms of lending policy and therefore credit availability. Credit availability has emerged as the biggest headwind impacting Australia's residential markets. Banks are responding to preliminary findings in the Royal Commission and are imposing more stringent lending standards. The scale of price correction now underway in the Sydney and Melbourne markets has been largely driven by tightening credit availability and the impact on market confidence.
- 2. The looming federal election, and with a change of government appearing possible, how proposed changes to negative gearing and capital gains tax concessions will impact. Depending on the outcome of the elections, it could result in significant changes to negative gearing and capital gains tax discounts on investment property.
- 3. Changes in Australia's overseas migration intake and related policy. Recent years have seen Australia's net migration intake at record levels, topping 263,000 in 2016-17 before pulling back to 237,000 in 2017-18. A majority of the net intake settle in New South Wales (38%) and Victoria (36%). It is expected that the 2019-20 financial year migrant intake will be reduced from 190,000 to 160,000. If this occurs and proves permanent, 10,000 to 15,000 less new dwellings (predominantly inner-city units) would be required every year. Significant changes in immigration policy would likely be an added drag on markets already facing a period of price correction.

Profit after tax	65,332	48,605	16,727	34.4

For the quarter ended 31 December 2019, the Group recorded revenue of RM279.0 million, a decrease of RM6.7 million or 2.3% from RM285.7 million in the previous year's corresponding quarter. The slight decrease in revenue was largely attributed to lower revenue recognition from residential properties in the Group's property development segment, offset by an increase in revenue recognized from commercial and industrial properties during the period under review.

Meanwhile, revenue recognition from the Group's investment properties, comprising Matrix Global Schools, d'Tempat Country Club, and d'Sora Business Boutique Hotel, improved further to RM9.5 million in the quarter under review from RM9.1 million in the previous corresponding quarter.

Notwithstanding the decline in revenue, the Group achieved higher profit before tax of RM91.4 million in the quarter under review, an increase of RM19.6 million or 27.3% from RM71.8 million previously. The improved profitability was mainly attributable to the Group reduced selling and marketing expenses as well as administrative and general expenses in line with the lower revenue recognition from residential properties and one-off expenses incurred in the previous corresponding quarter.

Backed by healthy number of new launches and commendable sales performance, the Group's unbilled sales stood at RM1.2 billion as at 31 December 2019, to be recognized over the next 15 month

B2. Comparison with preceding quarter's results

	Current quarter ended 31.12.2019	Preceding quarter ended 30.09.2019	Change	s
	RM'000	RM'000	RM'000	%
Revenue	278,962	282,728	(3,766)	(1.3)
Gross profit	155,776	138,938	16,838	12.1
Profit before tax	91,359	79,460	11,899	15.0
Profit after tax	65,332	58,740	6,592	11.2

For the third quarter ended 31 December 2019, the Group recorded revenue of RM279.0 million, a slight decrease of RM3.8 million or 1.3% from the preceding quarter ended 30 September 2019. The minor decline was due to lower revenue recognition from the Group's residential properties, which was offset by the increased revenue recognition from its commercial and industrial properties.

The Group's profit before tax stood at RM91.4 million compared to RM79.5 million in the preceding quarter, an increase of RM11.9 million or 15.0%, attributed to higher sales of industrial properties.

B3. Prospects

The Group's core objective remains on enhancing its township developments of Bandar Sri Sendayan, Ara Sendayan and Tiara Sendayan (Sendayan Development) in Negeri Sembilan and Bandar Seri Impian (BSI) in Kluang, Johor. This includes improving available facilities and infrastructure as well as enriching the living experience at the townships towards supporting a vibrant and bustling community. This is coupled with the Group's continuous efforts to expand our landbank in the vicinity of these townships.

To strengthen our long term sustainability in the property development segment, the Group has also expanded its project profile to include more developments in Seremban, Kuala Lumpur and Australia, effectively widening our geographical footprint to capture more growth opportunities. Total ongoing developments stands at RM2.6 billion in gross development value as at 31 December 2019.

In terms of our foreign projects, the Group continues to make strides in Australia, following the success and commendable sales performance of its M.Carnegie boutique apartment project in Melbourne launched in 2016. In this regard, the Group has soft launched, in April, 2019, its second development in Melbourne, M.Greenvale, featuring 70 residential lots situated on a 9.7-acre land with GDV of RM79.0 million.

Underpinned by the successful expansions, we continue to reinforce our international reach towards strengthening our brand as a premier developer of choice. The Group also announced the ground breaking of the Islamic Financial Towers development in the up-and-coming suburb of Pantai Indah Kapuk 2 in Jakarta, Indonesia, undertaken together with Indonesian conglomerates Agung Sedayu Group and Salim Group, and investment banking firm PT Nikko Securitas Indonesia.

During the nine months ended 31 December 2019, the Group launched RM867.4 million worth of projects, comprising mainly of 2-storey terrace residences in Sendayan Development, in response to the strong market demand for our properties in Seremban.

For the remaining three months of the financial year ending 31 March 2020, the Group has lined-up close to RM255.7 million worth of new property launches, comprising mainly affordable and affordable-premium residential properties in Sendayan Development. Total launches for FY2020 is targeted at RM1.1 billion.

The Group looks forward to charting a stronger performance in FY2020, to be supported by our healthy lineup of launches and encouraging demand recorded for our ongoing developments as well as recent launches. Furthermore, with Bank Negara Malaysia reducing the overnight policy rate by 25 basis points in January 2020, the Group is expecting demand for residential properties to remain resilient going forward.

Despite the cautious sentiment of the property industry, the Group is optimistic of positive uptake of its properties due to the carefully tailored property launches aligned to the requirements of our target market.
