As the revenue of the Matrix Concepts Group for the FPE 30 September 2020 is solely derived from its operating activities in Malaysia, geographical segmentation is not prepared.

A8. Industry outlook

(i) Malaysian property sector

The residential subsector is expected to grow at a slower pace, mainly due to the increased property overhang caused by the mismatch between supply and demand. However, various measures undertaken by the Government including the building of 60,000 units per year of affordable homes within 10 years and the reinvigorating of the National Housing Policy are expected to boost the growth of the subsector in 2020. In addition, the enhancement of the Fund for Affordable Homes by Bank Negara Malaysia will enable the first-time home buyers to enjoy lower monthly commitment up to 20%, which in turn will support the subsector.

Bank Negara Malaysia launched a Fund for Affordable Home earlier in January 2019 to help home buyers from the lower-income group to purchase their first homes, for property priced up to RM150,000 at a concessionary interest rate up to 3.5%. The qualifying criteria was expanded on 1 September 2019 to include property priced up to RM300,000 for households with maximum income of RM4,360, being the threshold income for B40. As of September 2019, 2,840 applications amounting to RM472.7 million have been received. The approval rate is 77.9%, with 982 applications amounting to RM156.2 million being approved.

In partnership with the private sector, the Government had reinstated the Home Ownership Campaign in June 2020 where developers providing at least a 10% discount for properties within the RM300,000 – RM2,500,000 price range will be matched with stamp duty exemptions. This move is to support homebuyers looking to purchase property in Malaysia.

To address those who are unable to afford the initial 10% deposit and access to financing in purchasing their homes, the Government will collaborate with financial institution in introducing Rent To Own (RTO) financing scheme. Through this scheme, financing of up to RM10 billion will be provided by the financial institutions with the support from the Government via a 30% or RM3 billion guarantee. This RTO scheme is for purchase of first home up to RM500,000 property price. Under this scheme, the applicant will rent the property for up to 5 years and after the first year, the tenant will have the option to purchase the house based on the price fixed at the time the tenancy agreement is signed. The government will provide stamp duty exemptions on the instruments of transfer between the developer and financial institution, and between the financial institutions and the buyer in this scheme.

To reduce supply overhang of condominiums and apartments amounting to RM8.3 billion in the second quarter of 2019, the Government will lower the foreign ownership threshold on high rise property prices in urban areas from RM1 million to RM600,000 in 2020.

To assist the youth in purchasing their first home, the Government will extend the Youth Housing Scheme administered by Bank Simpanan Nasional from 1 January 2020 until 31 December 2021. The scheme also offers a 10 percent loan guarantee through Cagamas to enable borrowers of full financing and RM200 monthly instalment assistance for the first two years limited to 10,000 home units.

In response to the public view regarding the Real Property Gain Tax (RPGT) imposed on disposal of properties after 5 years onwards, the Government will enhance RPGT treatment by revising the base year for asset acquisition at 1 January 2013 for asset acquired before 1 January 2013 as compared to the previous base year of 1 January 2000. Furthermore, from June 2020 till December 2021, the Government had announced RPGT exemptions for Malaysians disposing of up to three properties in Malaysia.

QUARTERLY REPORT ON CONSOLIDATED RESULTS FOR THE FINANCIAL PERIOD ENDED ("FPE") 30 SEPTEMBER 2020

Malaysian real estate industry expects a strong market rebound in 2022 after prolonged sluggish growth in 2020 and 2021, according to Juwai IQI's research. According to its "Property Survey and Index Q3 2020" research report which was released in September 2020, the research company sees the National Price Expectations Index remains its downwards trend with a 4.8% fall over the next 12 months, before climbing again to post a cumulative growth rate of 10.6% over the next two years.

The states with the strongest forecast growth over the next two years are Penang and Perak, with price growth of 15.9% and 14.3% respectively. Kuala Lumpur and Selangor have the lowest forecast price growth over the next two years with a lower but still impressive rate of 8.5%. Meanwhile, the industry outlook is for rental rates to follow a similar trajectory as residential prices, by first falling substantially before recovering strongly. However, in the case of rental rates, the swings look less extreme.

(ii) Australian residential property sector

A year on from the clouds of uncertainty which welcomed 2019, the start of 2020 presents a much more positive outlook for Australia's residential markets. Strong price growth has returned to Sydney and Melbourne and is expected to spread to more affordable markets, Brisbane in particular.

Apartment supply cycles in the major capitals are past their peak and vacancy levels are well controlled. With cost of debt low and lending volumes starting to turn, investors should gradually return. This should encourage well placed developers to begin marketing larger projects again so they are at the forefront of the next development cycle post 2021.

B. ADDITIONAL INFORMATION REQUIRED UNDER THE LISTING REQUIREMENTS

B1. Review of Performance

	Current quarter ended 30.09.2020	Corresponding quarter ended 30.09.2019	Changes	
	RM'000	RM'000	RM'000	%
Revenue	262,012	282,728	(20,716)	(7.3)
Gross profit	143,520	138,938	4,582	3.3
Profit before tax	102,604	79,460	23,144	29.1
Profit after tax	73,478	58,740	14,738	25.1

For the second quarter ended 30 September 2020, the Group recorded revenue of RM262.0 million, a decrease of 7.3% from RM282.7 million reported in the previous year's corresponding quarter. The decrease in revenue was mainly attributed to slower revenue recognition from our property development segment during the Recovery Movement Control Order ("RMCO") period implemented since 10th June 2020, as businesses enter a recovery phase subsequent to the previously imposed Movement Control Order ("MCO") and Conditional Movement Control Order ("CMCO"). The Government mandated restrictions resulted in temporary disruptions to construction activity at our development projects, and delays to new product launches.

Following the introduction of the RMCO, the Group had focused on expediting construction activity to regain lost productivity on our development schedule. This allowed the Group to record robust revenue contribution of RM254.3 million from the property development segment, a decline of 6.9% from RM273.2 million in the previous quarter, as it restores performance close to pre-pandemic levels.

Sales and marketing activities remained active as the Group recorded new property sales of RM251.8 million during the quarter, aided by virtual communication tools as well as online sales and marketing channels, effectively overcoming numerous restrictions on physical sales and marketing activities.

Revenue contribution from the Group's investment properties, comprising Matrix Global Schools, d'Tempat Country Club and d'Sora Business Boutique Hotel declined by RM1.8 million in the quarter under review to RM7.8 million from RM9.5 million in the previous corresponding quarter.

Notwithstanding the decreased revenue, the Group's profit after tax increased to RM73.5 million for the quarter under review, up 25.1% from RM58.7 million previously. The enhanced performance was largely contributed by the property development segment which saw favourable product mix. Profit after tax was further boosted by lower selling and marketing expenses as the Group enjoyed cost savings from moving the majority of the selling and marketing activities online, and the absence of physical marketing events in compliance with RMCO Standard Operating Procedures (SOPs), as well as reduced direct selling and distribution expenses

Driven by the commendable sales performance of above RM1.0 billion in the financial year ended 31 March 2020, the Group launched 3 new development projects with a combined GDV of RM353.2 million during the six months ended 30 September 2020 with 80.7% take-up rate so far. In addition, the Group's unbilled sales of RM1.1 billion as at 30 September 2020, will provide earnings visibility over the next 15 months.

B2. Comparison with preceding quarter's results

	Current quarter ended 30.09.2020	Preceding quarter ended 30.06.2020	Change	es
	RM'000	RM'000	RM'000	%
Revenue	262,012	162,024	99,988	61.7
Gross profit	143,520	85,038	58,482	68.8
Profit before tax	102,604	42,728	59,876	140.1
Profit after tax	73,478	29,901	43,577	145.7

The Group recorded revenue of RM262.0 million for the second quarter ended 30 September 2020, increasing 61.7% from RM162.0 million in the preceding quarter ended 30 June 2020. The revenue growth was attributable to the recovery of the Group's operations during the RMCO after the upliftment of the MCO and CMCO, as construction schedule gradually return to normalcy, while sales and marketing activities shifted its focus towards greater online presence and engagement.

In the preceding quarter, the Group's operations were impacted as construction activities were halted during the MCO period, and subsequent challenges to comply with Covid-19 SOPs before the eventual return to full operations.

The Group's profit before tax stood at RM102.6 million, up 140.1% compared to RM42.7 million in the preceding quarter, while profit after tax also rose 145.7% to RM73.5 million from RM29.9 million in the preceding quarter. The enhanced performance was a result of higher revenue recognition and favourable product mix mainly from Sendayan Developments, as well as reduction in selling and marketing expenses.

B3. Prospects

As the Covid-19 pandemic continues to pose uncertainties and disruptions across many sectors, Matrix Concepts implemented comprehensive measures to adapt to the 'new normal' in the operating environment since the initial MCO period in early-2020. Our efforts included the use of more virtual solutions across our operations to ensure business continuity and operational uptime amidst an uncertain external environment. We also broadened our sales channels through the use of digital solutions including social media platforms to reach more potential customers, offering convenience in the entire process of purchasing a property.

The initiatives undertaken had led to positive achievements as the Group attained healthy financial performance for the first half ended 30 September 2020, and recorded significant number of new property sales. The Group would continue to assess our sales and marketing strategies to maintain consistent sales performance, in addition to targeting to achieve higher efficiency in our construction operations.

Going forward, our core objective remains focused on improving our township developments of Sendayan Development, comprising Bandar Sri Sendayan, Ara Sendayan and Tiara Sendayan in Negeri Sembilan, and Bandar Seri Impian (BSI) in Kluang, Johor. This includes improvement to amenities and infrastructure to support better and more vibrant community living, as well as landbanking efforts to cater to the greater demand for our properties.

To continuously enhance our long-term sustainability and brand visibility in the property development segment, the Group has embarked on a steady diversification of its revenue stream beyond Negeri Sembilan and Johor by expanding its domestic project portfolio to include developments in Klang Valley as well as internationally, in Melbourne, Australia and Jakarta, Indonesia. These efforts have widened the Group's geographical footprint to capture more growth opportunities. Total gross development value (GDV) for ongoing developments in Malaysia stood at RM2.35 billion while international projects amounted to RM1.08 billion as at 30 September 2020.

Following the successful expansions outside Seremban, the Group continues to reinforce its international reach and further strengthen its brand as a premier developer. The Group's second development in Australia - M. Greenvale in Melbourne, featuring residential lots situated on a 9.7-acre land with GDV of RM79.0 million, has recorded take up of 62.0% as at 30 September 2020.

In the international markets, the Group had also, on 8 December 2019 announced the groundbreaking of the Islamic Financial Towers development in Pantai Indah Kapuk 2 in Jakarta, Indonesia, undertaken together with Indonesian conglomerates Agung Sedayu Group and Salim Group. Due to the Covid-19 situation in Jakarta, the completion of Menara Syariah is expected to take longer than expected. The joint venture company undertaking the development, PT Fin Centerindo Satu, has a healthy financial position with no borrowings.

In response to the positive market demand for our properties in Sendayan Developments, Seremban, the Group launched RM353.2 million worth of projects during the six months ended 30 September 2020, which have garnered a take-up rate of 80.7% for the same period. For the remaining six months of the financial year ending 31 March 2021, the Group has lined-up an additional RM750 million worth of new property launches, comprising mainly affordable and affordable-premium residential properties in Sendayan Developments.

Despite the cautious sentiment of the property industry, the Group's commendable 1H21 performance represents a positive signal towards a return to pre-pandemic operations level and drives the optimism towards sustaining positive uptake of our products in FY2021. We adopt a cautiously optimistic outlook, backed by encouraging demand recorded for our ongoing developments, the reimplementation of Home Ownership Campaign by the Housing and Local Government Ministry, and Bank Negara Malaysia's announcement on reducing the overnight policy rate by 125 basis points to date since January 2020.
