### 33. Commentary on prospects

Based on the current forward booking trend, forward loads and average fares are trending better than the previous year.

However, the depreciation of the Malaysian Ringgit remains a key concern as a large portion of the Company's borrowings and operating costs are denominated in US Dollars.

Barring any unforeseen circumstances, including but not limited to terrorist attacks, natural disasters, epidemics, economic downturn, fuel price hike and fluctuation in foreign currencies against the Malaysian Ringgit, the Company expects its prospects to remain positive.

### 34. Profit forecast

The disclosure requirements for explanatory notes for the variance of actual profit attributable to equity holders of the Company as compared to profit forecasts are not applicable.
