QUARTERLY REPORT FOR THE FIRST QUARTER ENDED 31 MARCH 2017

PART A – EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARD 134

1. BASIS OF PREPARATION

The unaudited quarterly report has been prepared in accordance with the requirements of MFRS 134, "Interim Financial Reporting", paragraph 9.22 and Appendix 9B of the Bursa Malaysia Securities Berhad Main Market Listing Requirement ("Bursa Securities Listing Requirements") and should be read in conjunction with the audited financial statements for the financial year ended 31 December 2016.

The significant accounting policies and methods adopted for the unaudited condensed financial statements are consistent with those adopted for the audited financial statements for the financial year ended 31 December 2016; with an additional accounting policy and methods for non-current assets held for sale under MFRS 5: An non-current assets held for sale and discontinued operation.

Non-current assets (or disposal groups of assets) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction and a sale is considered highly probable. They are stated at the lower of carrying and fair value less costs to sell.

As at 31 March 2017, the Group's current liabilities exceeded their current assets by RM155,747,614.

The Group has taken steps to review the existing loan repayment schedule and the capital commitment for vessels under construction. As at the date of this report 31 May 2017, the Group has completed all of three restructuring and rescheduling of the loan repayments with the banks to allow the Group to defer certain amount of the current loan obligations. For the period ended 31 March 2017, we have reflected the impact of the reduction in borrowings due in the next twelve months for all of the loans. The Group has also deferred the delivery and payment for vessels under construction. In addition, the Group has obtained a credit facility for its working capital requirements and will also be able to obtain the required financial support from its immediate holding company, if necessary.

With the steps taken above, the Directors are of the view that the Group will be able to generate sufficient cash inflows from the charter hire contracts within the next twelve months from the reporting date to meet working capital requirements and repayment of existing loan obligations, and to carry on their business without significant curtailment of operations. The Directors believe that the Group are able to realise their assets and discharge their liabilities in the normal course of business and that the financial position will be improved through future operating profits and cash flows. Thus, the Directors believe no material uncertainty exists that may cast significant doubt on the Group's ability to continue as going concerns.

As such, the Directors believe that it is appropriate to prepare this report on a going concern basis.

The adoption of the following MFRSs and Amendments to MFRSs that came into effect on 1 January 2017 did not have any significant impact on the unaudited condensed consolidated financial statements upon their initial application.

- Amendments to MFRS 107 'Statement of Cash Flows Disclosure Initiative' (effective from 1 January 2017)
 introduce an additional disclosure on changes in liabilities arising from financing activities.
- Amendments to MFRS 112 'Income Taxes Recognition of Deferred Tax Assets for Unrealised Losses' (effective from 1 January 2017) clarify the requirements for recognising deferred tax assets on unrealised losses arising from deductible temporary difference on asset carried at fair value.
- In addition, in evaluating whether an entity will have sufficient taxable profits in future periods against which
 deductible temporary differences can be utilised, the amendments require an entity to compare the deductible
 temporary differences with future taxable profits that excludes tax deductions resulting from the reversal of
 those temporary differences.

The amendments shall be applied retrospectively.

Annual Improvements to MFRS 12 "Disclosures of Interests in Other Entities" clarify that when an entity's
interest in a subsidiary, a joint venture or an associate classified as held for sale in accordance with MFRS 5,
the entity is not required to disclose summarised financial information of these interests. Other disclosure
requirements in MFRS 12 remain applicable.

QUARTERLY REPORT FOR THE FIRST QUARTER ENDED 31 MARCH 2017

PART A – EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARD 134 (continued)

1. BASIS OF PREPARATION (continued)

MFRSs and amendments to MFRSs that are applicable to the Group but not yet effective

Malaysian Accounting Standards Board had issued the following new standards and amendments to standards which are effective for the financial year beginning on or after 1 January 2017. The Group did not early adopt these new standards, amendments and improvements to published standards.

- MFRS 9 Financial Instruments (effective from 1 January 2018)
- MFRS 15 Revenue from Contracts with Customers (effective from 1 January 2018)
- MFRS 16 Leases (effective from 1 January 2019)

The initial application of the abovementioned accounting standards and amendments to published standards are not expected to have any material impacts to the financial statements of the Group and of the Company except as mentioned below:

• MFRS 9 'Financial Instruments' (effective from 1 January 2018) will replace MFRS 139 "Financial Instruments: Recognition and Measurement". The complete version of MFRS 9 was issued in November 2014.

MFRS 9 retains but simplifies the mixed measurement model in MFRS 139 and establishes three primary measurement categories for financial assets: amortised cost, fair value through profit or loss and fair value through other comprehensive income ("OCI"). The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are always measured at fair value through profit or loss with a irrevocable option at inception to present changes in fair value in OCI (provided the instrument is not held for trading). A debt instrument is measured at amortised cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest.

For liabilities, the standard retains most of the MFRS 139 requirements. These include amortised cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch.

MFRS 9 introduces an expected credit losses model on impairment that replaces the incurred loss impairment model used in MFRS 139. The expected credit losses model is forward-looking and eliminates the need for a trigger event to have occurred before credit losses are recognised.

 MFRS 15 'Revenue from contracts with customers' (effective from 1 Jan 2018) replaces MFRS 118 'Revenue' and MFRS 111 'Construction contracts' and related interpretations.

The core principle in MFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to the customer in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Revenue is recognised when a customer obtains control of goods or services, i.e. when the customer has the ability to direct the use of and obtain the benefits from the goods or services.

A new five-step process is applied before revenue can be recognised:

- Identify contracts with customers;
- Identify the separate performance obligations;
- Determine the transaction price of the contract;
- Allocate the transaction price to each of the separate performance obligations; and
- Recognise the revenue as each performance obligation is satisfied.

QUARTERLY REPORT FOR THE FIRST QUARTER ENDED 31 MARCH 2017

PART A – EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARD 134 (continued)

1. BASIS OF PREPARATION (continued)

MFRSs and amendments to MFRSs that are applicable to the Group but not yet effective (continued)

• MFRS 15 'Revenue from contracts with customers' (effective from 1 Jan 2018) MFRS 118 'Revenue' and MFRS 111 'Construction contracts' and related interpretations. (continued)

Key provisions of the new standard are as follows:

- Any bundled goods or services that are distinct must be separately recognised, and any discounts or rebates on the contract price must generally be allocated to the separate elements.
- If the consideration varies (such as for incentives, rebates, performance fees, royalties, success of an outcome etc), minimum amounts of revenue must be recognised if they are not at significant risk of reversal.
- The point at which revenue is able to be recognised may shift: some revenue which is currently recognised at a point in time at the end of a contract may have to be recognised over the contract term and vice versa.
- There are new specific rules on licenses, warranties, non-refundable upfront fees, and consignment arrangements, to name a few.
- As with any new standard, there are also increased disclosures.
- MFRS 16 'Leases' (effective from 1 January 2019) supersedes MFRS 117 'Leases' and the related interpretations.

Under MFRS 16, a lease is a contract (or part of a contract) that conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

MFRS 16 eliminates the classification of leases by the lessee as either finance leases (on balance sheet) or operating leases (off balance sheet). MFRS 16 requires a lessee to recognise a "right-of-use" of the underlying asset and a lease liability reflecting future lease payments for most leases.

The right-of-use asset is depreciated in accordance with the principle in MFRS 116 'Property, Plant and Equipment' and the lease liability is accreted over time with interest expense recognised in the income statement.

For lessors, MFRS 16 retains most of the requirements in MFRS 117. Lessors continue to classify all leases as either operating leases or finance leases and account for them differently.

2. SEASONAL/CYCLICAL FACTORS

The principal activities of the Group are vessel owning/leasing and provision of vessel chartering and ship management services to oil and gas related industries.

The Group services are generally dependent on the level of activity of oil and gas companies, which may be affected by volatile oil and natural gas prices as well as the cyclicality in the offshore drilling and oilfield services industries.

3. UNUSUAL ITEMS

No unusual items affecting the assets, liabilities, equity, net income or cash flows of the Group in the quarter and period ended 31 March 2017.

4. MATERIAL CHANGES IN ESTIMATES

There was no material changes in estimate of amounts reported in the prior financial year that have a material effect in the guarter and period ended 31 March 2017.

5. DEBT AND EQUITY SECURITIES

There were no other issuance, repurchase and repayment of debt and equity securities by the Group during the quarter and period ended 31 March 2017.

6. DIVIDEND PAID

There was no dividend paid by the Group during the quarter and period ended 31 March 2017.

7. SEGMENT RESULTS AND REPORTING

7.1 Reportable Segment

No segmental analysis is prepared as the Group is organised as a single integrated business operations comprising the vessel owning/leasing activities and provision of vessel chartering and ship management services to oil and gas and related industries. These integrated activities are known as the offshore support vessel ("OSV") operations. The Group as a whole is regarded as an operating segment. In making decisions about resource allocation and performance assessment, key management regularly reviews the financial results of the Group as a whole. Hence, the information that is regularly provided to the key management is consistent with that presented in the financial statements.

11. FAIR VALUE MEASUREMENTS

The table below shows the carrying amounts and fair value of the borrowings, by valuation method. The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability,

either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable

inputs).

The fair value of the borrowings are estimated using the income approach, by discounting the cash flows based on the market interest rates of a comparable instrument. This is a Level 2 fair value measurement.

15. ANALYSIS OF PERFORMANCE

15.1 Review of performance for the current quarter (Quarter ended 31 March 2017) against the corresponding quarter (Quarter ended 31 March 2016):

(i) Revenue

Revenue decreased by RM10.4 million or 20.1%, from RM51.8 million for the quarter ended 31 March 2016 to RM41.4 million for the quarter ended 31 March 2017. The decrease was primarily due to lower fleet utilisation rate of 42.8% for the quarter ended 31 March 2017 as compared to 45.0% for the quarter ended 31 March 2016. The completion of the AWB long-term contract affected the utilisation rate in the quarter as well as continuous low activities in oil and gas industry. Lower daily charter rates ("DCR") for several existing and new contracts also affected the revenue.

(ii) Gross profit

The cost of sales increased by RM1.0 million or 2.8%, from RM35.8 million for the quarter ended 31 March 2016 to RM36.8 million for the quarter ended 31 March 2017. This is due to increase in consumables and spares parts costs mainly to fulfil requirements by the charterers and also for vessel certifications compliances as part of vessel improvement initiatives. This is offset by the cost saving from vessels laid-up and initiatives in relation to domestic safe manning during the current quarter.

Consequently, the Group's gross profit decreased by RM11.4 million or 71.3%, from RM16.0 million for the quarter ended 31 March 2016 to RM4.6 million for the quarter ended 31 March 2017.

(iii) Administrative expenses

The administrative expenses decreased by RM3.3 million or 35.1%, from RM9.4 million for the quarter ended 31 March 2016 to RM6.1 million for the quarter ended 31 March 2017 primarily due to higher unrealised foreign exchange gain during the quarter ended 31 March 2017 as a result of stronger Ringgit during the quarter, writeback of doubtful debt provision and lower payroll cost. Included in 31 March 2016 was an one-off expenses relating the Mutual Separation Scheme amounted to RM0.9 million.

(iv) Reversal of impairment loss

Other expenses includes RM3.2 million credited during the quarter ended 31 March 2017, due to reversal of overaccrual of impairment in prior years.

15. ANALYSIS OF PERFORMANCE (continued)

15.1. Review of performance for the current quarter (Quarter ended 31 March 2017) against the corresponding quarter (Quarter ended 31 March 2016) (continued):

(v) Taxation

financial year	(1,482,251)	585,044	(1,482,251)	585,044
Effective tax rate	20%	22%	20%	22%

The effective tax rate for the current quarter and period ended 31 March 2017 is lower than the statutory tax rate of 24% mainly due to the lower tax rate applicable to income from our vessel leasing subsidiaries being Malaysia tax residents incorporated in Labuan.

(vi) Loss after taxation

As a result of the foregoing, loss after taxation inreased by RM2.7 million or 81.8% to a loss of RM6.0 million for the quarter ended 31 March 2017.

15.2. Review of performance for the current quarter (Quarter ended 31 March 2017) against the preceding quarter (Quarter ended 31 December 2016):

The Group's revenue decreased by RM11.8 million from RM53.2 million for the quarter ended 31 December 2016 to RM41.4 million for the quarter ended 31 March 2017, mainly due to lower utilisation during the quarter ended 31 March 2017 of 42.8% as compared to 48.1% in the quarter ended 31 December 2016 and reduction of DCR for several existing long term contracts.

The Group's loss after tax decreased by RM142.2 million from a loss after tax of RM148.2 million for the quarter ended 31 December 2016 to loss of RM6.0 million for the quarter ended 31 March 2017, mainly due to impairment of vessels of RM135.5 million in 2016. The loss reduction was offset by lower revenue during the quarter ended 31 March 2017.

16. PROSPECTS FOR THE FINANCIAL YEAR ENDING 31 DECEMBER 2017

The upstream exploration and production activities in Malaysia is expected to continue to underpin the demand for OSV. The global political concerns and volatility of the oil price during the period under review contributed to highly challenging market condition for OSV which has largely impacted the OSV operators, including the Company. In addition, OSV operators are also impacted by increasing pressure to conserve cash and secure contracts to drive utilisation rates upwards to sustain the business. However, during the quarter subsequent to period under review, the oil price has slightly increased.

As the cost optimisation and cash conservation initiatives are largely completed, the Group continue to focus on securing new contracts and maximisation of utilisation rates through competitive tendering for domestic and regional contracts, as well as leveraging on its expanded presence in Brunei.

In view of this, the Board of Directors remain cautious on the Group's financial results for the financial year ending 31 December 2017.

17. PROFIT FORECAST

Not applicable as the Group did not publish any profit forecast.

18. QUALIFICATION OF PRECEDING AUDITED ANNUAL FINANCIAL STATEMENTS

There was no qualification to the preceding audited annual financial statements for the financial year ended 31 December 2017.
