The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:-

- (i) Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

B2 Review of Performance - Current Quarter and Immediate Preceding Quarter (cont'd)

The Group's revenue of RM10.46 million in the current quarter was 11.63% higher than the RM9.37 million recorded in the immediate preceding quarter. The improvement was mainly attributed to the increase in sales in Europe market by RM1.04 million which was mainly contributed by UK market. Sales in US market has dropped by RM1.55 million compared to immediate preceding quarter due to lower demand from customers. However, the impact was cushioned by increase in sales in Asia Region by RM1.60 million.

Despite improved performance in sales, the Group current quarter's profit before tax ("PBT") of RM3.53 million was RM0.27 million or 7.16% lower as compared to the immediate preceding quarter's PBT of RM3.80 million. It was mainly attributed to decrease in other income by RM0.42 million of which was in respect of gain on disposal of unquoted investment in immediate preceding quarter, coupled with increase in loss on foreign exchange of RM0.20 million as a result of strengthening of RM against US Dollars during the quarter under review.

B3 Commentary on Prospects

In light of the current challenging business environment, the Group is cautious to conserve its resources to continuously stay focused in expanding its profitable business and at the same time, to explore new business opportunities to grow its business.

Barring any unforeseen circumstances, the Board is optimistic about the Group's performance in the next financial year.
