Fair Value (cont'd)

The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:-

- (i) Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (iii) Level 3 unobservable inputs for the asset or liability.

As at end of the current quarter under review, the carrying amounts of receivables, cash and cash equivalents and payables which are short-term in nature or repayable on demand are reasonable approximations of fair values.

There were no transfers between levels of fair value hierarchy during the current quarter under review.

For the current quarter, the Group recorded revenue of RM9.395 million and profit before tax ("PBT") of RM3.026 million respectively.

The higher revenue for the current quarter, which representing an increase of RM1.236 million or 15.15% as compared to revenue of RM8.159 million recorded in the corresponding preceding quarter ended 30 September 2016 ("Corresponding Preceding Quarter"), was mainly attributable to the increase in sales in Asia Region.

The export sales remained the main contributor to our Group's total revenue for the current quarter, which accounted for RM6.415 million or 68.28% of our Group's total revenue for the current quarter. The decrease in export sales by RM1.366 million or 17.56% as compared to the Corresponding Preceding Quarter's export sales of RM7.781 million was mainly due to lower revenue generated from our customer in US.

The Group recorded PBT of RM3.026 million for the current quarter, representing an increase of RM0.278 million or 10.12% as compared to PBT of RM2.748 million recorded in the Corresponding Preceding Quarter. The increase in PBT was mainly due to increase in revenue, coupled with higher interest income, offset by higher selling and distribution expenses and higher foreign exchange loss for the current quarter.

There was no unusual or material one-off gain/loss affecting the revenue or profit for the current quarter.

B2 Review of Performance

Comparison between Current Quarter and Immediate Preceding Quarter (cont'd)

The Group's revenue of RM9.395 million in the current quarter was RM1.066 million or 10.19% lower than the revenue of RM10.461 million recorded in the immediate preceding quarter. The decrease in sales was mainly attributed to the decrease in sales in Europe market of RM1.377 million which was mainly contributed by UK market. Sales in US market has dropped by RM0.961 million compared to immediate preceding quarter due to lower demand from customers. However, the impact was cushioned by increase in sales in Asia Region by RM1.272 million.

Our Group current quarter's PBT of RM3.026 million was RM0.500 million or 14.18% lower as compared to the immediate preceding quarter's PBT of RM3.526 million. It was mainly attributed to decrease in revenue, coupled with lower other income for the quarter under review as there was a gain on disposal of property, plant and equipment in immediate preceding guarter.
