INTERIM FINANCIAL REPORT FOR THE PERIOD ENDED 31 DECEMBER 2017

PART A: EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARD ("MFRS") 134, INTERIM FINANCIAL REPORTING

A1 Basis of Preparation

This interim financial report has been prepared in accordance with MFRS 134: *Interim Financial Reporting* and Paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the financial year ended 30 June 2017 and the accompanying explanatory notes attached to this interim financial report.

The significant accounting policies and method of computation adopted in the interim financial report are consistent with those adopted as disclosed in the audited financial statements of the Group for the financial year ended 30 June 2017 except for the following:

Basis of Consolidation

A subsidiary is an entity that is controlled by another entity. An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries made up to the end of the reporting period using the following methods:-

Method
Merger
Merger
Acquisition
Acquisition

Merger Method

The merger method is used for business combination involving entities under common control which is a business combination in which all of the combining entities are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. In applying merger accounting:-

- the financial statement items of the combining entities or businesses for the reporting period in which the combination occurs, and for any comparative periods disclosed, are included in the consolidated financial statements as if the combination had occurred from the date when the combining entities or businesses first came under the control of the controlling parties;
- (ii) the assets and liabilities of the combining entities or businesses are consolidated using the existing book values from the controlling parties' perspective;
- (iii) no amount is recognised as consideration for goodwill or bargain purchase gain at the time of combination, to the extent of the continuation of the controlling parties' interests; and
- (iv) the effects of all transactions between the combining entities or businesses, whether occurring before or after the combination, are eliminated in preparing the consolidated financial statements.

INTERIM FINANCIAL REPORT FOR THE PERIOD ENDED 31 DECEMBER 2017

PART A: EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARD ("MFRS") 134, INTERIM FINANCIAL REPORTING (cont'd)

A1 Basis of Preparation (cont'd)

Acquisition Method

Under the acquisition method, the consideration transferred, the identifiable assets acquired and the liabilities assumed are measured at their acquisition-date fair values. The components of non-controlling interests that are present ownership interests are measured at the present ownership instruments' proportionate share in the recognised amounts of the identifiable net assets acquired. All other components of non-controlling interests are measured at their acquisition-date fair values. In a business combination achieved in stages, the previously held equity interest in the acquiree is remeasured at its acquisition-date fair value and any resulting gain or loss is recognised in profit or loss. All acquisition-related costs, other than the costs to issue debt or equity securities, are recognised in profit or loss as incurred.

Goodwill at the acquisition date is measured as the excess of (a) over (b) below:-

- (a) the aggregate of:-
 - (i) the acquisition-date fair value of the consideration transferred;
 - (ii) the amount of any non-controlling interests; and
 - (iii) in a business combination achieved in stages, the acquisition-date fair value of the previously held equity interest in the acquiree.
- (b) the net of the acquisition-date fair values of the identifiable assets acquired and the liabilities assumed.

Goodwill is recognised as an asset at the aforementioned amount less accumulated impairment losses, if any. When the above (b) exceeds (a), the excess represents a bargain purchase gain and, after reassessment, is recognised in profit or loss.

A subsidiary is consolidated from the acquisition date, being the date on which control is obtained, and continues to be consolidated until the date when control is lost. Intragroup balances, transactions, income and expenses are eliminated in full on consolidation. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. All changes in the parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

Upon loss of control of a subsidiary, the assets (including any goodwill) and liabilities of, and any noncontrolling interests in the subsidiary are derecognised. All amounts recognised in other comprehensive income in relation to the subsidiary are accounted for on the same basis as would be required if the related assets or liabilities had been directly disposed of. Any consideration received and any investment retained in the former subsidiary are recognised at their fair values. The resulting difference is then recognised as a gain or loss in profit or loss.

A2 Seasonality or Cyclicality of Operations

The business operations of the Group were not materially affected by any seasonal or cyclical factor.

A3 Unusual Items Due to Their Nature, Size or Incidence

A13 Financial Instruments

Fair Value Changes of Financial Liabilities

The Group does not remeasure its financial liabilities at fair value after the initial recognition.

Fair Value

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:-

- (i) Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (iii) Level 3 unobservable inputs for the asset or liability.

As at end of the current quarter under review, the carrying amounts of receivables, cash and cash equivalents and payables which are short-term in nature or repayable on demand are reasonable approximations of fair values.

There were no transfers between levels of fair value hierarchy during the current quarter under review.

of the Company	1,722	2,210	(488)	(22.08)	4,052	4,453	(401)	(9.01)

Current Period vs Corresponding Preceding Period

For the current quarter, the Group recorded revenue of RM7.749 million and profit before tax ("PBT") of RM2.466 million respectively.

The lower revenue for the current quarter, which representing a decrease of RM0.220 million or 2.76% as compared to revenue of RM7.969 million recorded in the corresponding preceding quarter ended 31 December 2016 ("Corresponding Preceding Quarter"), was mainly attributable to the decrease in export sales of RM1.328 million, offset by the increase in local sales of RM1.108 million.

The export sales remained the main contributor to our Group's total revenue for the current quarter, which accounted for RM6.106 million or 78.80% of our Group's total revenue for the current quarter. The decrease in export sales by RM1.328 million or 17.86% as compared to the Corresponding Preceding Quarter's export sales of RM7.434 million was mainly due to lower revenue generated from our customers in US and Europe.

Our Group recorded PBT of RM2.466 million for the current quarter, representing a decrease of RM0.449 million or 15.40% as compared to PBT of RM2.915 million recorded in the Corresponding Preceding Quarter. The decrease in PBT was mainly due to the lower other income and higher administrative and general expenses for the current quarter, which was mainly attributed to the foreign exchange loss of RM0.244 million in the current quarter compared to foreign exchange gain of RM0.481 million in the Corresponding Preceding Quarter as a result of strengthening of RM against USD. However, the decrease was partially offset by increase in interest income of RM0.158 million and gain on disposal of property, plant and equipment of RM0.046 million for the current quarter.

Current Cumulative Period vs Corresponding Preceding Cumulative Period

For the current financial period-to-date, the Group recorded total revenue of RM17.144 million and profit before tax of RM5.492 million respectively.

The higher revenue for the current financial period-to-date, which representing an increase of RM1.016 million or 6.30% as compared to revenue of RM16.128 million recorded in the corresponding preceding cumulative period ended 31 December 2016 ("Corresponding Preceding Cumulative Period"), was mainly attributable to the higher revenue recorded in the first quarter of the current financial year due to the increase in sales at Asia Region.

INTERIM FINANCIAL REPORT FOR THE PERIOD ENDED 31 DECEMBER 2017

PART B:EXPLANATORY NOTES PURSUANT TO MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD (cont'd)

B1 Review of Performance - Comparison with Corresponding Period and Cumulative Period of Preceding Year (cont'd)

Current Cumulative Period vs Corresponding Preceding Cumulative Period (cont'd)

Our Group recorded PBT of RM5.492 million for the current financial period-to-date, representing a decrease of RM0.171 million or 3.02% as compared to PBT of RM5.663 million recorded in the Corresponding Preceding Cumulative Quarter. The decrease in PBT was mainly due to the lower other income and higher administrative and general expenses for the current financial period-to-date, which was mainly attributed to foreign exchange loss of RM0.320 million in the current financial period-to-date compared to foreign exchange gain of RM0.747 million in the Corresponding Preceding Cumulative Quarter as a result of strengthening of RM against USD. However, the decrease was partially offset by increase in interest income of RM0.315 million and gain on disposal of property, plant and equipment of RM0.046 million.

Except for the gain on disposal of property, plant and equipment, there was no other unusual or material one-off gain/loss affecting the revenue or profit for the current quarter and the current financial period-to-date.

B2 Review of Performance

- Comparison between Current Quarter and Immediate Preceding Quarter

		Immediate		
	Current	Preceding		
	Quarter	Quarter		
	Ended	Ended		
	31.12.2017	30.09.2017	Variano	ce
	RM'000	RM'000	RM'000	%
Revenue	7,749	9,395	(1,646)	(17.52)
Profit before tax	2,466	3,026	(560)	(18.51)
Profit for the financial period	1,831	2,330	(499)	(21.42)
Profit attributable to owners of the Company	1,722	2,330	(608)	(26.09)

The Group's revenue of RM7.749 million in the current quarter was RM1.646 million or 17.52% lower than the revenue of RM9.395 million recorded in the immediate preceding quarter. The decrease in revenue was mainly attributed to the decrease in sales to US market of RM0.875 million and lower local sales of RM1.337 million respectively due to lower demand from customers. However, the impact was cushioned by increase in sales to Europe market of RM0.446 million.

Our Group current quarter's PBT of RM2.466 million was RM0.560 million or 18.51% lower as compared to the immediate preceding quarter's PBT of RM3.026 million. It was mainly attributed to the decrease in revenue, coupled with higher foreign exchange loss for the quarter under review as a result of strengthening of RM against USD.
