B3 Commentary on Prospects

Semiconductor and electronics industries are projected to continue growing in the coming years. Demand for our precision engineering products such as stiffeners and accessories for stiffeners are expected to remain steady. For medium to long term, we will put more effort and concentrate on the products of test sockets, hand lids, and accessories for test sockets to gain more market segment.

The laser stencils business is expected to grow and the management is optimistic in achieving better financial performance in this financial year.

Our Group will continue to uphold its core and long-term strategy to focus on business expansion and diversification, product development, as well as business process optimisation through lean implementation across all operations in the organisation.

Despite the downtrend market outlook of the semiconductor industry and electronics industry, with our Group competitive strengths and strategies, the Board and the management are still positive about our prospects for the financial year ending 30 June 2019.
