## Explanatory Notes to Condensed Consolidated Financial Statements - 30 September 2021

#### Part A: Explanatory Notes Pursuant to MFRS 134, Interim Financial Reporting (cont'd)

#### A13 Financial Instruments

#### Derivatives

There were no outstanding derivatives as at 30 September 2021.

#### Fair Value Changes of Financial Liabilities

The Group does not remeasure its financial liabilities at fair value after the initial recognition.

#### **Fair Value**

The Group uses use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. The valuation techniques used include the following or a combination thereof:-

- (i) Market approach which uses prices and other relevant information generated by market transactions involving identical or comparable (i.e. similar) assets, liabilities or a group of assets and liabilities.
- (ii) Cost approach which reflects the amount that would be required currently to replace the service capacity of an asset.
- (iii) Income approach which converts future amounts (e.g. cash flows or income and expenses) to a single current (i.e. discounted) amount.

The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:-

- (i) Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (iii) Level 3 unobservable inputs for the asset or liability.

## **Non-financial Assets**

The fair values of buildings are measured using the market comparison approach. Under this approach, the fair values are derived from observable market data such as prices per square foot for comparable properties in similar locations (i.e. Level 2).

# **Financial Assets and Financial Liabilities**

The carrying amounts of receivables, cash and cash equivalents and payables which are short-term in nature or repayable on demand are reasonable approximations of fair values.

There were no transfers between levels of fair value hierarchy during the current quarter under review.

#### Current Period vs Corresponding Preceding Period

For the current quarter, the Group recorded revenue of RM12.448 million and profit before tax ("PBT") of RM3.237 million respectively.

The group recorded revenue RM12.440 million in the corresponding preceding quarter ended 30 September 2020 ("Corresponding Preceding Quarter") is flat as compared to RM12.448 million recorded in the current quarter.

The export sales remained the main contributor to our Group's total revenue, which accounted for RM9.991 million or 80.26% of our Group's total revenue for the current quarter and RM9.861 million or 79.27% of our Group's total revenue for the corresponding preceding quarter.

Our Group recorded lower PBT at RM3.237 million for the current quarter, representing a decrease by RM0.902 million or 21.79% as compared to PBT of RM4.139 million recorded in the Corresponding Preceding Quarter. The decrease in PBT was mainly due to an increase in the cost of goods sold as the raw material price surged since the year 2021 which shows a direct impact on the Gross Profit and PBT of the Group.
