B1. Review of Group Performance

	3 MONTHS ENDED		
	31/01/2023 RM'000	31/01/2022 RM'000	CHANGES RM'000
Gross profit	4,336	9,053	(4,717)

Loss for the period attributable to owners of the Company	<u>(30,821)</u>	<u>(14,660)</u>	<u>(16,161)</u>

(a) 1Q 2023 vs. 1Q 2022

The Group's revenue comprises the property sales proceeds from its projects in Australia, namely West Village and Yarra One, and the fees for marketing services rendered by a subsidiary to the Group's joint venture in respect of property sales of its projects in the UK. The Group recorded a lower revenue in 1Q 2023 of RM22.37 million as compared to 1Q 2022 of RM49.24 million mainly due to lower number of units sold and handed over to customers as the Group is only selling the remaining units of both projects in this financial year. This had led to a lower gross profit recorded during the quarter of RM4.34 million.

Revenue recorded by the Group's joint-ventures totalled RM487.75 million (1Q 2022: RM 387.55 million), of which the Group's effective share (unconsolidated) amounted to RM329.15 million (1Q 2022: RM 279.12 million). Higher revenue during the quarter followed the commencement of handover in Kew Capital Court in 4Q 2022.

The Group recorded a loss before tax ("LBT") of RM30.36 million during the quarter as compared to LBT of RM12.74 million reported for 1Q 2022, mainly due to foreign exchange losses of RM25.97 million in the current quarter. This is as opposed to foreign exchange gains of RM2.99 million recorded in 1Q 2022. The foreign exchange losses arose from the weakening of the British Pound ("GBP") against Ringgit Malaysia ("RM") after the repayment of advances totaling £107.86 million from the Group's UK joint venture companies i.e. EW-Ballymore and EW London to EWI. As the cash repaid was still retained in GBP as at 31 January 2023, for reporting purposes, it was translated using the GBP:MYR exchange rate then prevailing which was lower than the historical exchange rate used to record the advances in EWI's books. Subsequent to 1Q 2023, the GBP has appreciated. Should the GBP remain at current level or continue to strengthen against RM, the foreign exchange losses recognized in 1Q 2023 will be fully or partially reversed in later quarters.

This LBT was partly compensated by the following:

- Group's share of profits in joint ventures in current quarter as opposed to share of losses in joint ventures in previous corresponding quarter following the commencement of handover in Kew Capital Court in 4Q 2022;
- Higher other interest income from money market funds and fixed deposits following the repayment of capital contribution from EW Ballymore and EW London; and
- Lower finance costs as a result of progressive repayment of loans.

B2. Material Changes in the Quarterly Results compared to the Results of the Preceding Quarter

	3 MONTHS ENDED		CHANGES
	31/01/2023	31/10/2022	
	RM'000	RM'000	RM'000
Gross profit	4,336	7,223	(2,887)
Share of results in joint ventures	4,034	(40,588)	44,622
Loss before interest and tax	(22,375)	(85,933)	63,558
Loss before tax	(30,357)	(94,645)	64,288
Loss for the period	(30,754)	(95,423)	64,669
Loss for the period attributable to owners of the Company	(30,821)	(95,729)	64,908

The Group's current quarter LBT of RM30.36 million, was RM64.29 million lower than the LBT recorded in preceding quarter ended 31 October 2022 of RM94.65 million.

The lower LBT recorded in the current quarter was mainly due to non-recurring loss on impairment on investment in EW-Ballymore of RM37.95 million in previous quarter and share of losses in joint ventures in previous quarter mainly as a result of fair value loss on commercial properties in EW-Ballymore and revision of profit margin on EW London's Build-to-Rent project following extended construction programme in FY2022.

EcoWorld International achieved RM335 million sales in the first 4 months of FY2023. This, plus reserves of RM189 million, add up to a total of RM524 million. Embassy Gardens, which generated RM125 million sales, was the biggest contributor to sales, followed by Wardian (RM67 million), London City Island (RM63 million) and Oxbow (RM33 million).

Based on the above, the Group is on track to achieve its RM1.4 billion sales target for FY2023 with sales of completed stocks remaining central to achieving the target set. Despite homebuyers becoming more cautious following increases in interest rates, shortage of homes continues to provide support for housing demand. The Group plans to sustain the sales momentum by offering attractive incentive packages to buyers and tapping overseas demand through international marketing events in the coming months.

The focus on selling completed stocks has enabled significant cashflows to be generated for the Group. The Board is pleased to report that since turning into a net cash position in 4Q FY2022, the Group's total cash, deposits and other investments have further increased to RM910 million (excluding cash held at JV entities) as at 31 January 2023. This exceeds borrowings by a substantial sum of RM446 million.

	As at 31 Oct 2022 RM'000	As at 31 Jan 2023 RM'000
Cash, deposits and other investments ¹	655,343	910,015
Total Borrowings	482,816	463,760
Net cash	172,527	446,255

Notes:

- (1) Other investments relate to deposits that must be maintained and restricted for use during the tenure of borrowings

The Group's net cash is expected to improve further in the coming quarters as funds at joint ventures are repatriated. Subject to achieving the sales target and receiving the relevant regulatory approvals, the Board's intention to distribute excess cash to shareholders in the later part of 2023, after setting aside funds required for the Group's working capital, is progressing as planned.

As regards project updates, the Board wishes to share that the development plan for Macquarie Park site has received approval from the relevant authorities in February 2023. The Group is reviewing the options for the site in view of the elevated uncertainties in the current property market. Similarly, the Group will continue to review the feasibility of its existing projects in the UK and proceed with launches only after cost pressures stabilise and expected returns that meet the Group's requirements can be forecast with greater certainty.
