1Q 2024 vs. 1Q 2023

The Group's revenue comprises the property sales proceeds from its projects in Australia, namely West Village and Yarra One. The Group recorded a higher revenue in 1Q 2024 of RM31.67 million as compared to 1Q 2023 of RM22.37 million as there were higher priced commercial units being sold in the current quarter as compared to wholly residential units being sold in 1Q 2023. However, the Group recorded lower gross profit during the current quarter following discounts given to accelerate sales in the current quarter.

Revenue recorded by the Group's joint-ventures totalled RM225.64 million (1Q 2023: RM487.75 million), of which the Group's effective share (unconsolidated) amounted to RM164.96 million (1Q 2023: RM329.15 million), mainly due to lower sales completions. However, the Group recorded higher share of profits in joint ventures during the current quarter as Eco World-Ballymore recorded higher profit in the current quarter as a result of product mix with higher profit margin.

The Group recorded a profit before tax ("PBT") of RM1.53 million during the quarter as compared to loss before tax ("LBT") of RM30.36 million reported for 1Q 2023. The higher profits in 1Q 2024 were mainly due to the following:

- i. foreign exchange gains of RM5.60 million arising from appreciation of British Pound ("GBP") against Ringgit Malaysia ("RM") on GBP denominated bank balances and repayment of shareholder's advances from Eco World-Ballymore as opposed to foreign exchange losses recorded in 1Q 2023 of RM25.97 million; and
- ii. lower finance costs by RM7.98 million as a result of full settlement of all borrowings during 3Q 2023.

Despite the Group having discontinued recognition of share of further losses in Eco World London in the current quarter upon full write-down of its investment in the joint venture as at 31 October 2023, the Group recognised additional impairment of amount owing by Eco World London in the current quarter of RM7.23 million following losses in Eco World London during the current quarter, which partially offset the above improvements in results in the current quarter.

B2. Material Changes in the Quarterly Results compared to the Results of the Preceding Quarter

	3 MONTHS ENDED		
	31/01/2024	31/10/2023	CHANGES
	RM'000	RM'000	RM'000
Gross profit	3,685	4,613	(928)
Share of results in joint ventures	4,306	(25,225)	29,531
Profit/(Loss) before interest and tax	1,527	(36,922)	38,449
Profit/(Loss) before tax	1,527	(36,934)	38,461
Profit/(Loss) for the period	302	(37,598)	37,900
Profit/(Loss) for the period attributable to owners of the Company	182	(37,694)	37,876

The Group recorded PBT of RM1.53 million in the current quarter as opposed to LBT of RM36.93 million in the preceding quarter ended 31 October 2023.

The improvement in results recorded in the current quarter was mainly due to the following:

- i. lower impairment of amount owing by Eco World London with initial recognition of impairment of RM90.96 million in the preceding quarter ended 31 October 2023. Additional impairment of RM7.23 million was recognised in the current quarter arising from losses recorded by Eco World London during the current quarter. Furthermore, Eco World London's losses were lower in the current quarter as compared to the preceding quarter in which the losses included impairment of inventory of planning projects, charge out of additional sales and marketing cost and staff redundancy cost; and
- ii. Eco World-Ballymore recorded profits in the current quarter as compared to losses in 4Q 2023 mainly due to declines in fair value of commercial properties in the previous quarter.

The improvement in results was partially offset by the reversal of impairment on investment in Eco World-Ballymore recognised in the preceding quarter.

(2) Refer to number of units exchanged only.

(3) Effective future revenue based on effective stake in joint ventures and subsidiaries as at Feb 29, 2024

(4) Total may not add up because of rounding

EcoWorld International achieved RM243 million sales in the first 4 months of FY2024. This, plus reserves of RM203 million, add up to a total of RM446 million. Embassy Gardens, which brought in RM105 million sales, was the biggest contributor to sales, followed by Wardian (RM75 million), Yarra One (RM20 million) and Millbrook Park (RM18 million).

Sales of completed stocks continued to generate significant cash for the Group. Following the distribution of RM144 million dividend during the first quarter of FY2024, the Group has a net cash balance of RM211 million as at 31 Jan 2024. The effective future revenue of RM152 million and reserves of RM203 million as at 31 January 2024 are expected to contribute positively to the cash balance in the near term.

	As at 31 Oct 2023 RM'000	As at 31 Jan 2024 RM'000
Cash, deposits and other investments ¹	295,240	210,803
Total Borrowings	-	-
Net cash	295,240	210,803

Notes:

(1) Other investments relate to deposits that must be maintained and for financing facilities

As at 29 February 2024, the Group has approximately RM650 million of completed and nearly-completed stocks that are available for sale, of which the Group's effective share is approximately RM500 million. Sales of completed stocks are estimated to generate excess cash up to RM500 million for the Group over 2024 and 2025. The Group is currently undertaking a second capital reduction exercise with the intention of distributing the excess cash to shareholders.

Recent data from the UK's Office for National Statistics reveals a 3.9% decline in London house prices during the last three months of 2023. The persistent challenges of high living costs and elevated interest rates are dampening the demand from potential homebuyers. In light of the current market conditions, the Board believes it remains uncondusive for the Group to undertake any new launches or acquisitions in the near term.

Accordingly, all launches for the remaining sites continue to be put on hold, pending review of their feasibility in view of the ongoing weak sentiment among homebuyers and significant cost inflation. The decision to proceed with new launches will be contingent upon an improvement in market conditions, stabilisation of cost pressures, and ability to meet the expected returns required.
