The Group's revenue for Q3-2022 decreased by 3.96% to RM98.20 million from RM102.25 million recorded in Q2-2022. The decrease-was mainly contributed by the decrease in revenue from the manufacturing activity.

The Group's gross profit margin dropped by 0.15% from 14.58% in Q2-2022 to 14.43% in Q3-2022. The drop was primarily due to the higher cost of sales arising from higher overall material costs.

The Group's profit before taxation decreased by 8.96% to RM7.29 million from RM8.01 million recorded in Q2-2022 as a result of decrease in revenue in the current quarter.

B3. Prospect of the Group for the financial year ending 31 December 2022

The Board expects the Group's performance in 2022 to remain profitable despite uncertain economic environment, volatile commodity prices and foreign exchange rates. Barring any unforeseen circumstances, the Group is cautiously optimistic that it will continue to perform well in the remaining part of the year, while continuously assessing if adjustments need to be made.

The Group continues to focus on expanding its business into new markets and to improve the Group's product portfolio by increasing its research and development efforts. The business expansion plan is also supported by the construction of the Group's new manufacturing plant. As mentioned in the previous quarter, the construction of this plant was expected to be completed by the fourth quarter of 2023. However, in view of the current economic conditions and the raising costs of construction, the management has revised the expected date of completion to the fourth quarter of 2024. Nevertheless, the management will continuously monitor the situation and will commence the construction of the plant as soon as the management considered that the construction costs are reasonable in order to avoid over spending.

B4. Variance of actual profit from profit forecast or profit guarantee

The Group has not issued any profit forecast or profit guarantee in any form of public documentation and announcement.
