### Interim Financial Report for the Third Quarter Ended 30 September 2023

# Part B: Explanatory notes pursuant to Part A, Appendix 9B of the Listing Requirements (Cont'd)

#### B3. Prospect of the Group for the financial year ending 31 December 2023

The Board expects the Group's performance in 2023 to remain profitable despite the outbreak of animal diseases in Malaysia affecting our customers in the sectors they operate, and volatile in foreign exchange rates affecting our average materials cost.

The Group will closely monitor the construction progress of the new GMP plant as part of its business expansion strategy. As of the date of this interim report, the construction work is under way and is estimated to complete by June 2025 as planned. The Group will tap on our core strengths as one of the major integrated one stop solution providers in ASEAN region's livestock industry by developing new products or improving existing products and enhancing our advisory services to remain relevant in the industry.

In 2024, poultry sector is expected to improve in market demand and supply, and our Group will put more efforts to increase the contribution from this sector. However, the swine sector is still facing ongoing challenges because the Malaysia Government has not given approval for the use of ASF vaccine. Potential opportunity for the group will be the importation of live breeder pig and frozen semen to help in the repopulation of the affected farms.

## B4. Variance of actual profit from profit forecast or profit guarantee

The Group has not issued any profit forecast or profit guarantee in any form of public documentation and announcement.
