## INTERIM FINANCIAL STATEMENTS FOR THE QUARTER ENDED 31 DECEMBER 2022

### PART B – EXPLANATORY NOTES PURSUANT TO PART A OF APPENDIX 9B OF THE MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BHD

#### B1. Performance review

##### Quarterly Results

For the current quarter under review, the Group recorded revenue of RM258.1 million (Q4 2021: RM270.1 million) which was RM12.0 million or 4.4% lower when compared to the corresponding quarter in the preceding year. The Group recorded a loss before tax (“LBT”) of RM308.9 million as compared to a profit before tax (“PBT”) of RM19.6 million in the corresponding quarter in the preceding year.

The decrease in revenue and PBT in the current quarter is mainly contributed by lower progress billings across key projects in the Klang Valley and Southern Region as compared to the corresponding quarter in the preceding year. Besides that, the proposed disposals of two parcels of development lands for RM244.4 million in the current quarter also caused this quarter’s result to be weaker than the corresponding quarter in the preceding year as the proposed disposals have given rise to provisions for foreseeable losses of RM298.6 million. These provisions for foreseeable losses which arose mainly due to the Group’s basis of allocation of land and infrastructure costs have been recognised in the current quarter according to the Malaysian Financial Reporting Standards. Excluding these provisions arising from the proposed lands disposals, the LBT in the current quarter would have been RM10.3 million.

However, the improvement in the Group’s property investment, recreation and resort operations on the back of reopening of borders accelerated the return of international travellers which contributed to higher revenue and profit in the current quarter for this segment.

##### Year to date Results

For the financial period ended 31 December 2022, the Group recorded revenue of RM1,014.5 million, which was RM138.5 million or 15.8% higher when compared to the preceding year. The increase in the revenue was mainly attributed by higher progress billings across key projects in the Klang Valley and Southern Region as well as higher sales achieved during the financial period ended 31 December 2022.

The Group’s LBT was recorded at RM400.9 million as compared to LBT of RM36.0 million in the preceding year mainly due to losses incurred on the proposed disposals of two parcels of development lands as mentioned above. Excluding these provisions arising from the proposed lands disposals, the LBT in the current year would have been RM102.3 million.

Despite the loss for the period, the Group’s property investment, recreation and resort operations have shown a significant improvement in their performance as a result of the reopening of borders for travellers from all countries effective 1 April 2022.

### PART B – EXPLANATORY NOTES PURSUANT TO PART A OF APPENDIX 9B OF THE MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BHD

#### **B2. Variation of results against preceding quarter**

The Group's revenue of RM258.1 million in the current quarter was RM63.5 million or 19.7% lower when compared to the preceding quarter ended 30 September 2022. Lower revenue in the current quarter was mainly due to lower progress billings across some of the Group's key on-going projects.

The Group recorded a LBT of RM308.9 million in the current quarter as compared to a PBT of RM5.0 million in the preceding quarter ended 30 September 2022 which was mainly attributed to the losses incurred on the proposed disposals of two parcels of development lands in the current quarter. Excluding these provisions arising from the proposed lands disposals, the Group will be recording a LBT of RM10.3 million.

Despite a higher loss for the current quarter, the Group's property investment, recreation and resort operations have shown a better performance compared to the preceding quarter ended 30 September 2022.

#### **B3. Prospects**

Malaysia's economic growth will be supported by continued expansion in domestic demand, benefitting mainly from the realisation of multi-year projects and higher inbound tourism activity due to the expected increase in Chinese tourists. Despite these factors, the domestic economy is projected to moderate in 2023 due to inflationary pressures, tightening of financial conditions and spillover effects of the continued military tension between Russia and Ukraine.

With the continued price hikes of building materials and labour shortages, productivity in the property sector is severely affected. Amidst the current challenging economic environment, the Group believes that the demand for properties in prime locations in Tropicana's established, mature and developing townships will persist, with attractive pricing and various promotional packages. Premised on the expected demand, the Group will continue to launch its properties at strategic locations across the Klang Valley, Genting Highlands, Northern Regions and Southern Regions. Moving forward, the Group will also continue to launch new phases in its established development sites, namely Tropicana Aman, Tropicana Metropark and Tropicana Alam.

The Group will continue to leverage on its various sales initiatives and marketing campaigns to secure more sales and therefore remaining positive and confident on the long-term prospects of its property development business. In addition, the Group will continue to develop and market its properties located at various strategic locations, which will in turn, translates to higher sales and positive contributions to the future earnings of the Group.

#### **B4. Profit forecast or profit guarantee**

No profit forecast or profit guarantee was issued for the financial period.
