B1. Performance review

Quarterly Results

For the current quarter under review, the Group recorded a revenue of RM402.8 million (Q3 2022: RM321.6 million) which was RM81.1 million or 25.2% higher when compared to the corresponding quarter in the preceding year. The increase in revenue in the current quarter reflected the completion of the disposals of two parcels of freehold development land in Kajang and Genting Highlands for a total consideration of RM71.1 million.

The Group recorded a profit before tax (“PBT”) of RM24.0 million as compared to RM5.0 million in the corresponding quarter in the preceding year. This was primarily a result of the Group completing the divestment of equity interests held in two subsidiaries. Besides that, the Group has continued with the cost rationalisation measures resulting in a reduction in general and administrative expenses during the current quarter.

Year to date Results

For the financial period ended 30 September 2023, the Group recorded a revenue of RM1,124.0 million, which was RM367.6 million or 48.6% higher when compared to the preceding year. The significant increase in revenue was attributed by higher progress billings across key projects in the Klang Valley, Southern and Northern Regions coupled with the completion of the disposals of land in Kota Kemuning, Kajang and Genting Highlands for a total consideration of RM205.6 million.

The Group’s PBT was recorded at RM26.6 million as compared to a loss before tax of RM92.0 million which was mainly due to the completion of the divestment of equity interests held in two subsidiaries. The Group’s property investment, recreation and resort segment has also seen a significant improvement which is evidenced by the increase in the occupancy rates of the hotels owned by the Group.

B2. Variation of results against preceding quarter

The Group recorded a revenue of RM402.8 million for the current quarter, showing a decrease of RM61.8 million or 13.3% compared to the preceding quarter ended 30 June 2023. This decline in revenue was primarily attributed to a lower sale consideration related to the disposal of development land as compared to the preceding quarter.

The Group recorded a higher PBT of RM24.0 million in the current quarter as compared to RM1.8 million in the preceding quarter ended 30 June 2023 mainly due to the completion of the divestment of equity interests held in two subsidiaries as mentioned above.

B3. Prospects

Malaysia's economic growth will be supported by continued expansion in domestic demand, benefitting mainly from the realisation of multi-year projects, implementation of catalytic initiatives under the recently announced national master plans and higher inbound tourism activity due to the expected increase in Chinese tourists, which in turn are expected to increase spending and support local businesses. Further, in September 2023, Bank Negara Malaysia announced that the Overnight Policy Rate ("OPR") will be maintained at 3% and at this current OPR level, the monetary policy stance is expected to be accommodative and remains supportive of the economy.

With the continued price hikes of building materials and labour shortage, productivity in the property sector is severely affected. Amidst the current challenging economic environment, a number of factors will have a direct and favourable impact on the real estate market in the second half of this year. The country's overhang numbers, which have decreased since the beginning of this year, show that the housing market is strengthening. The residential overhang in second quarter of 2023 was lower than three-year average of 31,000 units, owing to renewed buyer interest in property following the reopening of Malaysia's international borders. Further, the overall real estate market activity increased dramatically in terms of transaction volume and value, indicating high demand for houses, as Malaysia's total property transaction value increased 1.1% in value for the first half of 2023, compared to the same period last year. The Group believes that the demand for properties in prime locations in Tropicana's established, mature and developing townships will persist, with attractive pricing and various promotional packages. Further, the Group expects improved sales especially for its properties in Johor, as a result of the Johor Bahru-Singapore Rapid Transit System Link project, as well as the implementation of higher stamp duty amounting to 60% by Singapore government on foreigners buying residential properties in Singapore. The higher stamp duty imposed by Singapore government has caused residential properties in Singapore to become more expensive to foreigners, and consequently they have shift their preference to more affordable properties in Johor. Premised on the expected demand, the Group will continue to launch its properties at strategic locations across the Klang Valley, Genting Highlands, Northern Regions and Southern Regions. Moving forward, the Group will also continue to launch new phases in its established development sites, namely Tropicana Aman, Tropicana Metropark and Tropicana Alam.

The Group will continue to leverage on its various sales initiatives and marketing campaigns to secure more sales and therefore remaining positive and confident on the long-term prospects of its property development business. In addition, the Group will continue to develop and market its properties located at various strategic locations, which will in turn, translates to higher sales and positive contributions to the future earnings of the Group.

B4. Profit forecast or profit guarantee

No profit forecast or profit guarantee was issued for the financial period.
