a) The Group has seen the start of the impact from the global economic slowdown in the last quarter of 2008. The Board views that the impact will continue into the next financial year ending 31 December 2009, but the extent of the impact will depend highly on the reaction of the Malaysian economy to the unfolding uncertainties in the region and the world.

The port operating subsidiary has the capacity and the fundamentals to sustain its performance over the next financial year in tandem with the performance of the country's economy.

The haulage division of the haulage/logistics company, Kontena Nasional, is in stiff competition in a very competitive market. Performance of its logistics division has shown improvement and is expected to be a strong driving force in the company's efforts of sustaining its business.

Both the subsidiaries are continuously scrutinizing their cost of operation to ensure efficient running of the business.

NCB Group is conscious and aware that the operating environment are affected to the extent of the changes in the trade and economies of the region and the world.

b) The Group has continuously throughout the year taken all necessary steps to achieve the internal management targets for the financial year 2008. The targets announced for the year 2008 have been achieved.
