# PART B: EXPLANATORY NOTES PURSUANT TO LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

### 16. Review of Performance

Fourth (4th) quarter 2009 revenue of RM42.3 million was marginally higher than fourth (4th) quarter 2008, however for the financial year 2009 it was 18.2% lower than prior year on softer global demand for process equipment resulting from lower capital expenditure particularly in the oil and gas sector. Gross margin was maintained for financial year 2009 despite the more difficult operating condition but the gross profit dropped 18.7% to RM33.9 million from RM41.7 million for financial year 2008 on lower turnover.

Notwithstanding the lower gross profit, the Group maintained profit before taxation at RM27.9 million (financial year 2008 was RM27.2 million) mainly due to a RM4.2 million write-back and foreign exchange gain of RM4.3 million. The write-back was on provision for rework due to technical problems for an equipment which the client has managed to claim on the insurance cover and has subsequently compensated a subsidiary of the Company. The foreign exchange gain was largely due to the weakening Malaysian Ringgit vis-à-vis United States Dollar. Higher tax allowances from the acquisition of a parcel of leasehold industrial land with existing buildings have reduced the effective tax rate resulting in profit after taxation of RM23.5 million, a 16.3% increase from RM20.2 million for financial year 2008.

The Group's NDTS division has performed in line with the sector with a 11.1% decline in profit after taxation to RM0.8 million from RM0.9 million for financial year 2008.

## 17. Review of Current Quarter's Results against Preceding Quarter's Results

Fourth (4th) quarter 2009 revenue declined by 6.5% quarter-on-quarter to RM42.3 million while gross profit dropped by 28.7% from RM12.9 million to RM9.2 million. The dropped in gross profit is principally due to lower revenue, RM2.6 million write-back of provision in third (3rd) quarter 2009 and more favourable product mix in the previous quarter. However, the tax allowances taken up in fourth (4th) quarter 2009 has resulted in a tax credit of RM2.1 million vis-à-vis RM4.1 million tax charge for third (3rd) quarter 2009 and this has resulted in higher profit after taxation of RM10.6 million for fourth (4th) quarter 2009 against RM6.3 million for third (3rd) quarter 2009.

Mr. Yap Kau @ Yap Yeow Ho is a substantial shareholder and Director of TTS Resources Sdn Bhd.

### 18. Prospects for Next Financial Year

Although current global financial crisis and commodities prices have stabilised, these have not translated into increase capital expenditure for process equipment. The Directors expect next year to be a challenging year.

### 19. Variance of Actual and Forecast Profit

There was no profit forecast or profit guarantee announced during the current guarter and financial year-to-date.

# Diluted Earnings Per Ordinary Share

The effect of dilution on the earnings per ordinary share arises from the assumption of full conversion of the Irredeemable Convertible Preference Shares ("ICPS") and the saving of the 5.5% dividend thereon.
