B. Explanatory Notes As Per Bursa Malaysia - Listing Requirements Chapter 9.22 of Part K

B.1 Review of Performance

a. Comparison Between Current Financial Year And Preceding Financial Year's Results

For the current financial period ended 30 June 2022, the Group posted revenue of RM11.4 million which was 141.1% higher than the revenue of RM4.7 million for the corresponding period in the preceding year. The higher revenue was mainly due to revenue from projects such as outright sale of Solar PV Systems and trading of solar panels obtained in the current financial period under review.

The Group posted a pre-tax loss of RM7.2 million for the current financial period as compared against the pre-tax loss for the corresponding period in the preceding year of RM0.6 million. Based on the comparison, the increase in pre-tax loss of RM6.6 million was mainly due to the impairment loss on interest of RM4.7 million and increased in loss of RM1.5 million from share of results of an associate listed on Singapore Exchange (SGX) and the realised loss on foreign exchange of RM1.8 million upon repatriation of fund from a dissolved subsidiary, Integrated Logistics (China) Co. Limited ("ILCN"), offsetted against the profit generated from increase in revenue of RM1.4 million from the Group business operations.

b. Comparison Between Current Quarter And Corresponding Period In The Preceding Year's Results

For the current quarter under review, the Group posted revenue of RM2.5 million which was 12.9% higher than the revenue of RM2.2 million for the corresponding quarter in the preceding year. The higher revenue was mainly due to revenue from projects such as outright sale of Solar PV Systems obtained in the current quarter under review.

The Group posted a pre-tax loss of RM6.6 million for the current quarter as compared to the pre-tax loss for the corresponding quarter in the preceding year of RM1.3 million. The increase in pre-tax loss of RM5.3 million for the current quarter was mainly due to the impairment loss on interest of RM4.7 million in an associate listed on Singapore Exchange (SGX), the realised loss on foreign exchange of RM1.8 million upon repatriation of fund from a dissolved subsidiary, ILCN, offsetted against the increase in other income of RM0.4 million, decrease in loss of RM0.3 million from share of results of an associate listed on Singapore Exchange (SGX) and lower operating costs of RM0.3 million from the Group business operations.

B.2 Comparison With Immediate Preceding Quarter's Results

		Immediate
	Current	preceding
	quarter	quarter
	ended	ended
	31.03.2022	31.03.2022
	RM'000	RM'000
Revenue	2,494	8,927
Loss before tax	(6,635)	(522)

For the current quarter, the Group recorded revenue of RM2.5 million which was 72.1% lower than the RM8.9 million in the preceding quarter. The lower revenue was mainly due to the revenue decrease from the solar energy & related business segment of the Group's operations in Malaysia.

The current quarter pre-tax loss of RM6.6 million when compared against the immediate preceding quarter pre-tax loss of RM0.5 million resulted in an incremental loss of RM6.1 million. This was mainly due to the impairment loss on interest of RM4.7 million in an associate listed on Singapore Exchange (SGX), the realised loss on foreign exchange of RM1.8 million upon repatriation of fund from a dissolved subsidiary, ILCN, the reduce in profit resulted from decrease in revenue of RM0.6 million from the Group business operations and increase in other operating costs of RM0.6 million, offsetted by the decrease in loss of RM1.3 million from share of results of an associate listed on Singapore Exchange (SGX).

B.3 Prospects

The market conditions remain challenging, however the solar photovoltaics industry in Malaysia is on the rise as a result of strengthening government support and growing investor confidence through positive measures and incentives from the Malaysian Government. Solar photovoltaics industry in Malaysia is well poised for more growth given favourable conditions that are developing.

With the experience gained in the solar power plant installations, the Group will actively pursue renewable energy projects from both public and private sectors where companies are focusing on Environmental, Social and Governance ("ESG") goals to reduce the carbon footprint.
