20. Performance review

(a) Current Quarter vs Corresponding Quarter of Previous Period (1Q2021 vs 1Q2020)

The Group registered a revenue of RM12.32 million in the current quarter ended 31 March 2021 ("1Q2021"), improved by 112% from RM5.83 million reported in the previous year's corresponding quarter ("1Q2020"). Consequently, the Group recorded a lower loss before tax of RM1.36 million as compared with loss before tax of RM3.74 million in 1Q2020.

The improved result was primarily driven by the favourable performance of both harvesting and manufacturing segments of the Group.

Harvesting, sawmilling and kiln drying segment

During the quarter under review, the financial performance of harvesting, sawmilling and kiln drying segment improved notably with the increase in revenue by 277% to RM6.79 million as compared to RM1.80 million reported in the previous corresponding quarter as compared to RM1.80 million reported in the previous corresponding quarter.

Accordingly, the segment's heavy loss incurred in 1Q2020 reduced substantially from RM2.40 million to a loss before tax of RM0.79 million in 1Q2021.

The main factor contributing to this favourable performance was due to better logs extraction during the current quarter. Logs extraction improved to 5,523 hoppus tonne from 3,448 hoppus tonne logs extracted during 1Q2020. As a result, sawn timber output and sales improved dramatically from the disrupted operations during the same period in the previous year.

Manufacturing segment

Similarly, the manufacturing segment of the Group showed a remarkable improvements in performance during the current quarter, whereby it reported profit before tax of RM0.37 million as compared to loss before tax of RM0.64 million in 1Q2020 as a result of revenue increase by 38%.

This favourable performance was due to the factory can operate as usual, unlike in the same period last year where the operations had disrupted due to Movement Control Order ("MCO") enforced by the government.

Other segment

Other segment which refers to the investment holding and rental activity of the Group, has recorded a slight increase in revenue as a result of additional rental from newly acquired office lot by the Group. However, due to the increase in segment's administrative expenses, the loss before tax for the segment has increased by 34% during the period under review.

21. Material change in performance of operating segments of current quarter compared with immediate preceding quarter

	Current quarter	Immediate preceding quarter
	31.03.2021	31.12.2020

21. Material change in performance of operating segments of current quarter compared with immediate preceding quarter (continued)

Despite the reduction in the Group's revenue by 22% in 1Q2021, the Group's loss before tax has reduced to RM1.36 million in 1Q2021 from RM3.29 million loss before tax reported in the immediate preceding quarter ("4Q2020"). The reduction in loss was primarily contributed by the major reduction in the Group's operating expenses.

During the quarter under review, the harvesting, sawmilling and kiln drying segment posted a loss before tax of RM0.79 million with a revenue of RM6.76 million. As compared against the preceding quarter's loss before tax of RM0.53 million, there was a slight increase in loss as a result of revenue reduction by 35% in the current quarter.

Meanwhile, the manufacturing segment's loss position in 4Q2020 has turned into profit before tax of RM0.37 million in the current quarter. The major reduction in segment's operating expenses has contributed to this favourable result.

Other segment also reported better results in the current quarter whereby the segment's loss before tax has slightly reduced from RM1.00 million reported in 4Q2020.

22. Commentary on prospect

The imposition of total lockdown by the Government for 2 weeks effective 1 June 2021 to 14 June 2021, which allows only essential businesses to operate will adversely impact the Group's financial performance in next quarter as a result of non-operating during the lockdown period.

In addition, the management foresee the delay in new licenses issuance as result of MCO and lockdown. This situation will certainly affect the Group's ability to harvest and distribute logs to the factories as planned.

Going forward, the Group will stay vigilant and take appropriate, timely measures to minimise the financial impact whilst remaining committed to its medium to longer-term strategies and action plans.

23. Changes in material litigation

There was no material litigation against the Group.

24. Dividend payable

There was no dividend paid by the Company during the financial period ended 31 March 2021 (31 March 2020: RMNil).

25. Risks and policies of derivatives
