13. Valuation of property, plant and equipment and investment properties

There were no valuation of property, plant and equipment and investment properties in the current quarter and financial period under review as the Group has not adopted a revaluation model on its property, plant and equipment and investment properties.

14. Property, plant and equipment

During the nine-month period ended 30 September 2023, the Group has acquired property, plant and equipment at a cost of RM1,844,000 (30 September 2022: RM2,310,000). As at 30 September 2023, the total depreciation charged for the property, plant and equipment was RM1,443,000 (30 September 2022: RM1,406,000). Property, plant and equipment with a carrying amount of RM8,000 were written off by the Group during nine-month period ended 30 September 2023 (30 September 2022: RMNil)

The Group has also disposed assets with carrying amount of RM8,000 during nine-month period ended 30 September 2023 (30 September 2022:RM10,000), resulting in a gain of disposal of RM110,000 (30 September 2022:RM43,000) recognised and included in other income in the statement of profit and loss and other comprehensive income.

16. Fair value hierarchy

The Group uses the following hierarchy for determining the fair value of all financial instruments carried at fair value:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

As at the reporting date, the Group held the following financial assets that are measured at fair value:

30 September 2023 Fair value through other comprehensive income financial assets Quoted investment securities:	Total RM'000	Level 1 RM'000	Level 2 RM'000	Level 3 RM'000

24. Performance review

(a) Current Quarter vs Corresponding Quarter of Previous Period (3Q2023 vs 3Q2022)

The Group registered a much-improved result in the current quarter ended 30 September 2023 ("3Q2023") compared to the previous year's corresponding quarter ("3Q2022), with revenue increased by 25% to RM13.36 million from RM10.71 million reported previously. Consequently, the Group achieved a higher gross profit of RM3.31 million, 71% increase from RM1.94 million reported in 3Q2022. Gross profit margin improved notably from 18% to 25%.

The Group's loss before tax for the quarter stood at RM0.71million, reduced 51% from RM1.46 million loss before tax in 3Q2022.

The improved performance of the Group was contributed by the encouraging performance of the Group's harvesting, forest plantation, sawmilling, sales of logs and logging compartment segment during the quarter under review.

Harvesting, forest plantation, sawmilling, sales of logs and logging compartment

In 3Q2023, the harvesting, forest plantation, sawmilling, sales of logs and logging compartment segment reported a profit before tax of RM0.62 million, a turnaround result from the loss before tax of RM0.43 million reported in 3Q2022. The significant increase in revenue in 3Q2023 was in line with higher logs production during the quarter. Logs production was reported at 6,473 hoppus tonne as compared to 3,239 hoppus tonne reported in the previous year's corresponding quarter.

Manufacturing segment

Meanwhile, the manufacturing segment which is the manufacturing activities of glass, veneer and woodchip of the Group, reported an adverse performance with a loss before tax of RM0.27 million in the quarter under review as compared to a loss before tax of RM0.09 million reported in 3Q2022.

This unfavourable performance was in line with the decline in the segment's revenue, mainly due to the stiff competition in retaining the glass supply, resulted in the price pressure despite the increase in production volume.

Other segment

Other segment which refers to the investment holding and rental activity of the Group, recorded a slight decrease in revenue due to the discontinuation of tenancy for 1 unit of the Group's premise. There was an increase in loss, primarily contributed by the decrease in the segments' other operating income.

(b) Current Period-to-date vs Previous Period-to-date (9M2023 vs 9M2022)

During the nine-month period ended 30 September 2023 ("9M2023"), the Group recorded a revenue of RM36.81 million, an increase of 11% from RM33.28 million recorded in the previous year's corresponding period ("9M2022"). As a result, the Group's loss before tax reduced to RM2.63 million in 9M2023 as compared to loss before tax of RM3.64 million reported in 9M2022.

24. Performance review (continued)

(b) Current Period-to-date vs Previous Period-to-date (9M2023 vs 9M2022) (continued)

Harvesting, forest plantation, sawmilling, sales of logs and logging compartments

The harvesting, forest plantation, sawmilling, sales of logs and logging compartment recorded a substantial increase in profit before tax to RM1.71 million, a turnaround result from loss before tax of RM0.45 million reported in 9M2022. The major factor contributed to this encouraging performance was due to higher price secured from forward sales of standing trees in its logging concession. In addition, sales of logs to external parties also contributed to the increase in revenue and profitability.

Manufacturing segment

During the period under review, the manufacturing segment reported lower operating revenue of RM14.21 million in 9M2023 against RM17.64 million reported in 9M2022. As a result, the segment posted higher loss before tax of RM1.33 million as compared to RM0.46 million loss before tax reported in 9M2022.

The segment's performance was affected by the drop in glass sales by 14% from RM15.58 million in 9M2022 to RM13.34 million reported in the previous year corresponding period.

Other segment

Other segment which refers to the investment holding and rental of properties activity of the Group, has recorded a slight decrease in revenue from its rental, due to the discontinuation of tenancy for 1 unit of the Group's premise. Furthermore, the segment recorded a reduction in other operating income due to lower reversal of allowance for impairment of the segment's receivables during the period.

25. Material change in performance of operating segments of current quarter compared with immediate preceding quarter

	Current quarter 30.09.2023 RM'000	Immediate preceding quarter 30.06.2023 RM'000
Revenue	13,358	15,019
(Loss)/profit before taxation	(710)	1,263

The Group's revenue for the quarter under review was RM13.36 million, decreased by 11% from RM15.02 million reported in the Second Quarter ended 30 June 2023 ("2Q2023"). Accordingly, the Group's profit before tax turned into a loss before tax of RM0.71 million in the quarter under review.

During the current quarter, the harvesting, forest plantation, sawmilling, sales of logs and logging compartment's segment posted a profit before tax of RM0.62 million with a revenue of RM8.36 million. There were significant reductions in profit and revenue, by 78% and 21% respectively, as compared with the preceding quarter's profit before tax of RM2.83 million and revenue of RM10.61 million. The major contribution to the lowered revenue and profitability achievement was the absence of revenue from the tender of logging compartment for 3Q2023 compared with RM5.24 million recorded in the preceding quarter.

25. Material change in performance of operating segments of current quarter compared with immediate preceding quarter (continued)

In contrast, the manufacturing segment's loss before tax decreased to RM0.27 million in current quarter as compared to RM0.50 million reported in the immediate preceding quarter. The segment's revenue increased by 14% from RM4.38 million to RM4.97 million in 3Q2023.

Other segment recorded marginal revenue from its rental. With the reduction in the segment's operating expenses, there was a decrease in the segment's loss before tax in the current quarter.

26. Commentary on prospect

To address the challenges faced by the Group's harvesting operation, the Board has taken proactive approach by establishing an Executive Committee ("EXCO") with effect from 5 September 2022. The EXCO was established as an intermediary between the Board, Board Committees and the Management with the primary mandate of ensuring all the Board decisions and instructions to the Management are implemented smoothly and efficiently.

Since its inception, the EXCO has made significant strides towards enhancing the Group's operation and performance, with the logs harvested for the 9M2023 improved by 107% to 14,962 hoppus ton as compared against 7,243 hoppus ton reported for the 9M2022 despite the bad weather.

In order to sustain this positive momentum, the EXCO's functions will be expanded in the upcoming quarters to include the Group's manufacturing operations. This move underscores the Board's commitment to improving our corporate governance and operational efficiency by strengthening our decision-making processes and ensuring effective implementation to achieve sustainable growth and deliver long-term value to the stakeholders.

The Group's growth strategy entails a keen focus on several key drivers. First, the Group is increasing its upstream logging and harvesting activities, with the ultimate aim of securing a steady supply of logs to the timber-based subsidiaries. The Group has engaged and offered new and more attractive terms to logging contractors in order to secure their services in FY2023. The Group is also enhancing the capacity of its midstream sawmilling, downstream timber and also its glass operations, a move that is aimed at improving the results and performance further.

The strengthening of the harvesting activity through enhancing tree marking process, prioritising high value compartments species, improvement of felling technique and initiative in data collection of timber inventory will become the Group's continuous efforts and actions to enhance its logging yield and efficiency.

For the full year in FY2023, the Board is optimistic that the Group will continue to achieve positive results from the prospect and mitigation plans taken in the fourth quarter 2023. This is based on the positive results yielded in the full year FY2022 despite the similar loss position recorded during the first nine-month period ended 30 September 2022.
