Performance of our retailing operations in each location were as follows:

- Malaysia

For the September 2021 quarter, our local retailing operations reported a revenue of RM42 million due to the temporary business closures following the spike of daily COVID-19 new cases. While retailing stores were allowed to operate from 16 August 2021, worries over the pandemic continued to affect consumer sentiments. The operations reported an operating loss of RM28 million for the current quarter.

For the 15-month financial period ended 30 September 2021, our Malaysia retailing operations reported a revenue of RM541 million with an operating loss of RM3.7 million as the operations grappled with the pandemic.

Parkson China registered a revenue of RM3,350 million for the 15-month financial period ended 30 September 2021. Overall, the retailing stores have shown improvement in tandem with reduced impact from COVID-19, tactical promotional activities and continuous efforts in expanding its income sources. The operations reported an operating profit of RM350 million on the back of continuous efforts in optimising operating efficiencies and cost control measures.

As at 30 September 2021, the Group has a network coverage of 44 stores in 29 cities across China.

11. <u>Performance review</u> (Cont'd.)

Vietnam

For the current quarter under review, following the resurgence of COVID-19 cases in Vietnam, stricter social distancing measures were imposed with closure of various activities including department stores' operations. While only minimal essential services such as groceries and perishables were operating during the quarter, a reversal of income from subleasing was recorded upon the granting of rent rebates by Parkson Vietnam to its tenants. An operating loss of RM8 million was reported for the current quarter.

For the 15-month financial period ended 30 September 2021, amid the weak footfall due to the impact of the COVID-19 pandemic, the Group's retailing stores in Vietnam reported a revenue of RM32 million with an operating loss of RM15 million.

The Group has 2 stores in Vietnam as at 30 September 2021.

- Indonesia

The retailing operations in Indonesia were carried out by PT Tozy. The Group had ceased to have control over PT Tozy as disclosed in Note 23.

Results of the **Others** division were mainly derived from the consumer financing business, operation of food and beverage ("F&B") business and investment holding. For the current quarter and 15-month financial period ended 30 September 2021, the Group's consumer financing business continued to post encouraging revenue and operating profit; whilst the F&B operations had closed certain loss-making outlets.

Accordingly, the Group reported a decline in revenue by 17% to RM647 million as compared with RM781 million in the immediate preceding quarter. An operating profit of RM3 million was reported for the current quarter under review.
