11. Review of performance

For the quarter under review, the Group recorded a revenue of RM595.9 million and loss before taxation ("LBT") of RM6.6 million as compared with a revenue of RM675.4 million and a LBT of RM39.1 million respectively for the corresponding quarter of the preceding financial year ended 30 June 2015 ("FY2015").

For the financial year-to-date, the Group recorded a revenue of RM1,809.6 million and LBT of RM116.9 million as compared with a revenue and LBT of RM1,918.9 million and RM136.3 million respectively for the corresponding period of FY2015.

The lower revenue for the quarter under review and financial year-to-date as compared with the corresponding quarter and period of FY2015 was mainly due to lower selling prices.

The LBT for the corresponding quarter and period of FY2015 was inclusive of a one-off impairment of investment in an associated company of RM17.4 million. Despite the lower revenue, LBT was lower as compared with the corresponding quarter and period of FY2015 mainly attributable to the improved margin from lower raw material cost and lower share of loss in associated companies.

12. Material changes in profit before taxation against the immediate preceding quarter

For the quarter under review, the Group incurred a lower LBT of RM6.6 million as compared with a LBT of RM53.7 million in the preceding quarter. The lower loss was mainly contributed by the recovery in margin from lower cost of raw material.

13. **Prospects**

Selling prices in the region have recovered somewhat since the beginning of March 2016 from the previously very depressed level. With this more favorable market environment and the on-going efforts to improve the Group's operational efficiency, the Board expects improved result in this final quarter of the financial year.
