#### A EXPLANATORY NOTES AS PER FRS 134

#### A1. Accounting Policies

The interim financial statements are unaudited and have been prepared in accordance with FRS 134: Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad, and should be read in conjunction with the audited financial statements for the year ended 31 December 2009.

The accounting policies and methods of computation applied in the interim financial statements are consistent with those adopted in the most recent annual financial statements except for the adoption of the following accounting standards, amendments and interpretations issued by the Malaysian Accounting Standards Board ("MASB") effective for the Group's financial period beginning on 1 January 2010.

•	FRS 4	Insurance Contracts			
•	FRS 7	Financial Instruments: Disclosures			
•	FRS 8	Operating Segments			
•	Revised FRS 101	Presentation of Financial Statements			
•	Revised FRS 123	Borrowing Cost			
•	Revised FRS 139	Financial Instruments: Recognition and			
		Measurement			
•	Amendments to FRS 1 and FRS 127	Cost of an Investment in a Subsidiary, Jointly			
		Controlled Entity or Associate			
•	Amendments to FRS 132	Financial Instruments: Presentation			
•	Amendments to FRS 7, FRS 139 and				
	IC Interpretation 9				
•	IC Interpretation 9	Reassessment of Embedded Derivatives			
•	IC Interpretation 10	Interim Financial Reporting and Impairment			
•	Amendments to FRS 117	Leases			
•	Annual Improvements to FRSs				

The adoption of the above mentioned accounting standards, amendments and interpretations does not have any significant impact on the Group results for the period under review except as follows:

#### a) FRS 4: Insurance Contracts

The Group considers financial guarantee contracts entered into to be insurance arrangements and accounts for them under FRS 4. In this respect, the Group treats the guarantee contract as a contingent liability until such a time as it becomes probable that the Group will be required to make a payment under the guarantee. The adoption of FRS 4 has no material impact on the financial statements of the Group.

### b) FRS 8: Operating Segments

FRS 8 replaces FRS 114<sub>2004</sub> Segment Reporting and requires a "management approach", under which segment information is presented on the same basis as that used for internal reporting purposes. The Group concluded that the reportable operating segments determined in accordance with FRS 8 are the same as the business segments previously identified under FRS 114. The adoption of this standard only impacts the form and content of disclosures presented in the financial statements of the Group and has no material impact on the financial statements of the Group.

#### c) Revised FRS 101: Presentation of Financial Statements

The revised FRS 101 (2009) introduced changes to terminology, format and content of the financial statements. Components of interim financial statements now consist of a statement of financial position, a statement of comprehensive income, a statement of changes in equity, a statement of cash flows and notes to the financial statements. The revised FRS also requires all changes in equity arising from transactions with owners in their capacity as owners to be presented separately from non-owners changes in equity. All owner changes in equity are presented in a statement of changes in equity while non-owner changes in equity are required to be presented in the statement of comprehensive income. Components of comprehensive income are not permitted to be presented in the statement of changes in equity. The adoption of this revised standard will only impact the form and content of the presentation of the Group's financial statements.

#### d) Revised FRS 139: Financial Instruments: Recognition and Measurement

FRS 139 establishes the principles for the recognition and measurement of financial assets and financial liabilities including circumstances under which hedge accounting is permitted. The Group adopted FRS 139 prospectively on 1 January 2010 and in accordance with the transitional provisions, the effects arising from the adoption of this standard has been accounted for as an adjustment to the opening balance of retained earnings as at 1 January 2010. Retrospective application is not permitted and hence comparatives are not restated. The adoption of FRS 139 has further resulted in the changes to accounting policies as follows;

## (i) Financial assets

Financial assets are classified as either financial assets at fair value through profit or loss, financial assets held-to-maturity, loans and receivables or financial assets available-for-sale. When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs. The Group determines the classification of its financial assets after initial recognition and, where allowed and appropriate, reevaluates this designation at each financial year-end.

Investment in marketable securities. Prior to 1 January 2010, the Group classified its investments in marketable securities as non-current investments which were carried at cost less impairment loss, if any. With the adoption of FRS139, these investments are now classified as financial assets available-for-sale and measured at fair value. The difference between the carrying value of the Group's investment in marketable securities and the fair value, amounting to approximately RM17,000 has been recognised as fair value gain, and adjusted against the opening balance of retained earnings as at 1 January 2010 on adoption of FRS139. The subsequent changes in fair value of these financial assets have been recognised directly in the Consolidated Statement of Comprehensive Income as Available-For-Sale Reserves.

Trade and other receivables. Prior to the adoption of FRS 139, an allowance for doubtful debts was made when a receivable is considered irrecoverable by the management. With the adoption of FRS 139, an impairment loss is recognised for trade and other receivables and is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted using the effective interest method.

#### (ii) Financial liabilities

Financial liabilities are classified as either financial liabilities at fair value through profit or loss or financial liabilities at amortised cost using the effective interest method. Financial liabilities at fair value are held for trading if the financial liabilities are incurred with the intention of repurchasing them in the near term or derivative financial liabilities unless they are designated and effective hedging instrument.

## e) Amendment to FRS 117: Leases

Prior to the adoption of the Amendment to FRS 117, leasehold lands were treated as operating leases and presented as prepaid land lease payments in the statement of financial position. With the adoption of the Amendment to FRS 117, the classification of leasehold land as a finance lease or an operating lease is based on the extent to which risks and rewards incident to ownership of the leased asset lie. A lease is recognised as a finance lease if it transfers substantially to the Group all the risks and rewards incidental to ownership. The Group determined that leasehold land are in substance a finance lease and has reclassified them from prepaid land lease payments to property, plant and equipment in the current financial period and measured as such retrospectively.
