## **PETRONAS DAGANGAN BERHAD**

(Incorporated in Malaysia)

### **DIRECTORS' REPORT FOR THE YEAR ENDED 31 DECEMBER 2022**

The Directors have pleasure in submitting their report and the audited financial statements of the Group and of the Company for the year ended 31 December 2022.

#### **PRINCIPAL ACTIVITIES**

There have been no significant changes in the nature of principal activities of the Company during the financial year, which is domestic marketing of petroleum products.

During the current year, the Company continues to grow its principal activities to include non-fuel business.

The principal activities of subsidiaries, associates and joint ventures are stated in Note 34, Note 35 and Note 36 to the financial statements respectively and the Board of Directors deems such information included in the Company's Directors' Report by such reference and shall form part of the Company's Directors' Report.

#### **ULTIMATE HOLDING COMPANY**

The holding and ultimate holding company is Petroliam Nasional Berhad ("PETRONAS"), a company incorporated in Malaysia.

#### **SUBSIDIARIES**

The details of the Company's subsidiaries are disclosed in Note 34 to the financial statements.

#### **RESULTS**

*In RM'000*

	<b>Group</b>	<b>Company</b>
Profit for the year	787,838	754,518
Attributable to:		
Shareholders of the Company	776,595	754,518
Non-controlling interests	11,243	—

## **DIVIDENDS**

During the financial year, the amount of dividends paid by the Company were as follows:

- a) In respect of the financial year ended 31 December 2021 as reported in the Directors' Report of that year:
  - i. an interim dividend of 26.0 sen per ordinary share amounting to RM258,298,040 declared on 22 February 2022 and paid on 24 March 2022; and
- b) In respect of the financial year ended 31 December 2022:
  - i. an interim dividend of 5.0 sen per ordinary share amounting to RM49,672,700 declared on 26 May 2022 and paid on 24 June 2022;
  - ii. an interim dividend of 11.0 sen per ordinary share amounting to RM109,279,940 declared on 24 August 2022 and paid on 22 September 2022; and
  - iii. an interim dividend of 20.0 sen per ordinary share amounting to RM198,690,800 declared on 28 November 2022 and paid on 27 December 2022.

The Directors had on 22 February 2023 declared an interim dividend of 26.0 sen per ordinary share amounting to RM258,298,040 in respect of the financial year ended 31 December 2022.

In addition, the Directors declared a special dividend of 14.0 sen per ordinary share amounting to RM139,083,560 in respect of the financial year ended 31 December 2022.

The financial statements for the current financial year do not reflect these declared interim and special dividends. Such dividends will be accounted for in equity as an appropriation of retained profits in the financial year ending 31 December 2023.

Further details on dividends are disclosed in Note 26.

## **RESERVES AND PROVISIONS**

There were no material movements to or from reserves and provisions during the year other than as disclosed in the financial statements.

## **DIRECTORS**

Directors who served during the financial year until the date of this report are:

Datuk Anuar bin Ahmad (Chairman)

Azrul bin Osman Rani

Tang Saw Hua

Shafie bin Shamsuddin

Alvin Michael Hew Thai Kheam

Nirmala a/p Doraisamy

Arni Laily binti Anwarrudin

Datuk Sazali bin Hamzah (appointed on 1 June 2022)

Mohd Yuzaidi bin Mohd Yusoff (appointed on 1 June 2022)

Tunku Alizakri bin Raja Muhammad Alias (appointed on 1 June 2022)

Ahmad Adly bin Alias (resigned on 1 June 2022)

Datuk Md Arif bin Mahmood (resigned on 1 January 2022)

**DIRECTORS (continued)**

In accordance with Article 107 of the Company's Constitution, Shafie bin Shamsuddin and Alvin Micheal Hew Thai Kheam are due for retirement by rotation at the forthcoming Annual General Meeting ("AGM") of the Company. Shafie bin Shamsuddin and Alvin Micheal Hew Thai Kheam, being eligible for re-election have given their consent for re-election at the forthcoming AGM.

In accordance with Article 100 of the Company's Constitution, Datuk Sazali bin Hamzah, Mohd Yuzaidi bin Mohd Yusoff and Tunku Alizakri bin Raja Muhammad Alias who was appointed as Director during the year shall hold office until the conclusion of the forthcoming AGM, and being eligible, offer themselves for re-election.

The Company has been granted a relief order pursuant to Section 255(1) of the Companies Act, 2016 relieving the Company's Directors from full compliance to the requirements under Section 253(2) of the Companies Act, 2016.

The names of Directors of subsidiaries are available on the Company's registered office that the Board deems such information is included in the Company's Directors' Report by such reference and shall form part of the Company's Directors' Report.

**DIRECTORS' INTERESTS**

The Directors in office at the end of the year who have interests and deemed interests in the shares of the Company and of its related corporations other than wholly-owned subsidiaries (including the interests of the spouses and/or children of the Directors who themselves are not Directors of the Company) as recorded in the Register of Directors' Shareholdings are as follows:

**Number of ordinary shares in  
PETRONAS Chemicals Group Berhad**

<b>Name</b>	<b>Balance at 1.1.2022</b>	<b>Bought</b>	<b>Sold</b>	<b>Balance at 31.12.2022</b>
Azrul bin Osman Rani - spouse	1,000	—	—	1,000
Arni Laily binti Anwarrudin	6,000	—	—	6,000
Datuk Sazali bin Hamzah - child	6,000	—	—	6,000

None of the other Directors holding office at 31 December 2022 had any interest in the ordinary shares of the Company and of its related corporations during the financial year.

## **DIRECTORS' BENEFITS**

Since the end of the previous financial year, no Director of the Company has received nor become entitled to receive any benefit (other than the benefit shown below), by reason of a contract made by the Company or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

The Directors' benefits paid to or receivable by Directors of the Company in respect of the financial year ended 31 December 2022 were RM1,366,000 comprising fees and other short-term employee benefits of RM1,335,000 and RM31,000 respectively.

There were no arrangements during and at the end of the financial year which had the object of enabling Directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

## **ISSUE OF SHARES**

There were no changes in the issued and paid up capital of the Company during the financial year.

## **OPTIONS GRANTED OVER UNISSUED SHARES**

No options were granted to any person to take up unissued shares of the Company during the financial year.

## **INDEMNITY AND INSURANCE COSTS**

During the financial year, PETRONAS and its subsidiaries (hereinafter referred to as "PETRONAS Group"), including the Company, maintained a Directors' and Officers' Liability Insurance in accordance with Section 289 of the Companies Act, 2016. The total insured limit for the Directors' and Officers' Liability Insurance effected for the Directors and Officers of PETRONAS Group was RM1,290 million (2021: RM1,290 million) per occurrence and in the aggregate. The insurance premium for the Group and the Company is RM117,300 (2021: RM112,300) and RM110,200 (2021: RM108,300) respectively.

## **OTHER STATUTORY INFORMATION**

Before the financial statements of the Group and of the Company were made out, the Directors took reasonable steps to ascertain:

- (i) that necessary actions had been taken in relation to the writing off of bad debts and the provisioning of doubtful debts and satisfied themselves that all known bad debts have been written off and adequate provision made for doubtful debts, and
- (ii) that any current assets which were unlikely to be realised in the ordinary course of business, their values as shown in the accounting records of the Group and of the Company, had been written down to an amount which they might be expected so to realise.

**OTHER STATUTORY INFORMATION (continued)**

At the date of this report, the Directors are not aware of any circumstances:

- (i) that would render the amount written off for bad debts, or the amount of the provision for doubtful debts, in the Group and in the Company inadequate to any substantial extent, or
- (ii) that would render the value attributed to the current assets in the financial statements of the Group and of the Company misleading, or
- (iii) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate, or
- (iv) not otherwise dealt with in this report or the financial statements, that would render any amount stated in the financial statements of the Group and of the Company misleading.

At the date of this report, there does not exist:

- (i) any charge on the assets of the Group or of the Company that has arisen since the end of the financial year and which secures the liabilities of any other person, or
- (ii) any material contingent liability in respect of the Group or of the Company that has arisen since the end of the financial year.

No material contingent liability or other liability of any company in the Group has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group and of the Company to meet their obligations as and when they fall due.

In the opinion of the Directors, the financial performance of the Group and of the Company for the financial year ended 31 December 2022 have not been substantially affected by any item, transaction or event of a material and unusual nature other than as disclosed in Note 24 to the financial statements, nor has any such item, transaction or event occurred in the interval between the end of that financial year and the date of this report.

In respect of the Directors or past Directors of the Company:

- (i) there is no estimated money value of any other benefits received or receivable by them otherwise than in cash from the Company or from any of its subsidiaries; and
- (ii) there are no amounts paid to or receivable by any third party in respect of the services provided to the Company or any of its subsidiary companies by any Director or past Director of the Company.

**AUDITORS**

The auditors, KPMG PLT, have indicated their willingness to accept re-appointment.

The auditors' remuneration of the Group and the Company during the year is RM845,800 and RM553,800 respectively.

Signed on behalf of the Board of Directors  
in accordance with a resolution of the Directors:

## **PETRONAS DAGANGAN BERHAD**

(Incorporated in Malaysia)

### **NOTES TO THE FINANCIAL STATEMENTS 31 DECEMBER 2022**

#### **1. BASIS OF PREPARATION**

##### **1.1 Statement of compliance**

The financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRS”), International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia.

These financial statements also comply with the applicable disclosure provisions of the Listing Requirements of the Bursa Malaysia Securities Berhad.

As of 1 January 2022, the Group and the Company had adopted amendments to MFRSs (“pronouncements”) that have been issued by the Malaysian Accounting Standards Board (“MASB”) as described fully in Note 37.

MASB has also issued new and revised pronouncements which are not yet effective for the Group and the Company and therefore, have not been adopted in these financial statements. These pronouncements including their impact on the financial statements in the period of initial application are set out in Note 38. New and revised pronouncements that are not relevant to the operations of the Group and of the Company are set out in Note 39.

These financial statements were approved and authorised for issue by the Board of Directors on 22 February 2023.

##### **1.2 Basis of measurement**

The financial statements of the Group and of the Company have been prepared on historical cost basis except for certain items which are measured at fair value, as disclosed in the accounting policies below.

##### **1.3 Functional and presentation currency**

The individual financial statements of each entity in the Group are prepared using the currency of the primary economic environment in which the entity operates (the “functional currency”). The Group’s and the Company’s financial statements are presented in Ringgit Malaysia (“RM”), which is the Company’s functional currency.

All financial information is presented in Ringgit Malaysia and has been rounded to the nearest thousands, unless otherwise stated.

## **1. BASIS OF PREPARATION (continued)**

### **1.4 Use of estimates and judgments**

The preparation of financial statements in conformity with MFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are described in the following Notes:-

- (i) Note 3 : Property, plant and equipment;
- (ii) Note 4 : Intangible assets;
- (iii) Note 5 : Investments in subsidiaries;
- (iv) Note 14 : Borrowings;
- (v) Note 15 : Deferred tax;
- (vi) Note 16 : Other long-term liabilities and provision;
- (vii) Note 18 : Revenue;
- (viii) Note 21 : Tax expense; and
- (ix) Note 31 : Financial instruments.

## 2. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements and have been applied consistently by the Group and the Company, unless otherwise stated.

### 2.1 Basis of consolidation

#### *Subsidiaries*

Subsidiaries are entities controlled by the Company. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Potential voting rights are considered when assessing control only when such rights are substantive. The Group considers it has de facto power over an investee when, despite not having the majority of voting rights, it has the current ability to direct the activities of the investee that significantly affect the investee's return.

Investments in subsidiaries are measured in the Company's statement of financial position at cost less any impairment losses, unless the investment is classified as held for sale or distribution. The cost of investment includes transaction costs.

The financial statements of subsidiaries are included in the consolidated financial statements of the Group from the date that control commences until the date that control ceases.

All inter-company transactions are eliminated on consolidation and revenue and profits relate to external transactions only. Unrealised losses resulting from inter-company transactions are also eliminated unless cost cannot be recovered.

#### *Business combinations*

A business combination is a transaction or other event in which an acquirer obtains control of one or more businesses. Business combinations are accounted for using the acquisition method from the acquisition date, which is the date on which control is transferred to the Group. The identifiable assets acquired and liabilities assumed are measured at their fair values at the acquisition date. The cost of an acquisition is measured as the aggregate of the fair value of the consideration transferred and the amount of any non-controlling interests in the acquiree. Non-controlling interests are stated either at fair value or at the proportionate share of the acquiree's identifiable net assets at the acquisition date.

When a business combination is achieved in stages, the Group remeasures its previously held non-controlling equity interest in the acquiree at fair value at the acquisition date, with any resulting gain or loss recognised in the profit or loss. Increase in the Group's ownership interest in an existing subsidiary is accounted for as equity transactions with differences between the fair value of consideration paid and the Group's proportionate share of net assets acquired, recognised directly in equity.

The Group measures goodwill as the excess of the cost of an acquisition and the fair values of any previously held interest in the acquiree over the fair value of the identifiable assets acquired and liabilities assumed at the acquisition date. When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

Transaction costs, other than those associated with the issuance of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.1 Basis of consolidation (continued)

#### *Non-controlling interests*

Non-controlling interests at the end of the reporting period, being the portion of the net assets of subsidiaries attributable to equity interests that are not owned by the Company, whether directly or indirectly through subsidiaries, are presented in the consolidated statement of financial position and statement of changes in equity within equity, separately from equity attributable to the shareholders of the Company.

Non-controlling interests in the results of the Group are presented in the consolidated statement of profit or loss and consolidated statement of other comprehensive income as an allocation of the profit or loss and total comprehensive income for the year between the non-controlling interests and shareholders of the Company.

Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

The Group treats all changes in its ownership interest in a subsidiary that do not result in a loss of control as equity transactions between the Group and its non-controlling interest holders. Any difference between the Group's share of net assets before and after the change, and any consideration received or paid, is adjusted to or against Group reserves.

#### *Loss of control*

Upon the loss of control of a subsidiary, the Group derecognises the assets and liabilities of the former subsidiary, any non-controlling interests and the other components of equity related to the former subsidiary from the consolidated statement of financial position. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity-accounted investee or as a fair value through other comprehensive income financial asset depending on the level of influence retained.

### 2.2 Associates

Associates are entities in which the Group has significant influence including representation on the Board of Directors, but not control or joint control, over the financial and operating policies of the investee company.

Associates are accounted for in the consolidated financial statements using the equity method less any impairment losses, unless it is classified as held for sale or distribution. The consolidated financial statements include the Group's share of post-acquisition profits or losses and other comprehensive income of the equity-accounted associates, after adjustments to align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases.

The Group's share of post-acquisition reserves and retained profits less losses is added to the carrying value of the investment in the consolidated statement of financial position. These amounts are taken from the latest audited financial statements or management financial statements of the associates.

When the Group's share of post-acquisition losses exceeds its interest in an equity accounted associate, the carrying amount of that interest (including any long-term investments such as loans and advances) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the associate.

## **2. SIGNIFICANT ACCOUNTING POLICIES (continued)**

### **2.2 Associates (continued)**

When the Group ceases to have significant influence over an associate, it is accounted for as a disposal of the entire interest in that associate, with the resulting gain or loss being recognised in the profit or loss. Any retained interest in the former associate at the date when significant influence is lost is measured at fair value and this amount is regarded as the initial carrying amount of a financial asset.

When the Group's interest in an associate decreases but does not result in loss of significant influence, any retained interest is not re-measured. Any gain or loss arising from the decrease in interest is recognised in profit or loss. Any gains or losses previously recognised in other comprehensive income are also reclassified proportionately to the profit or loss if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets and liabilities.

Unrealised profits arising from transactions between the Group and its associates are eliminated to the extent of the Group's interests in the associates. Unrealised losses on such transactions are also eliminated partially, unless cost cannot be recovered.

### **2.3 Joint arrangements**

Joint arrangements are arrangements of which the Group has joint control, established by contracts requiring unanimous consent for decisions about the activities that significantly affect the arrangements' returns.

Joint arrangements are classified as either joint operation or joint venture. A joint arrangement is classified as joint operation when the Group or the Company has rights to the assets and obligations for the liabilities relating to an arrangement. The Group and the Company account for each of its share of the assets, liabilities and transactions, including its share of those held or incurred jointly with the other investors, in relation to the joint operation. A joint arrangement is classified as joint venture when the Group has rights only to the net assets of the arrangements. The Group accounts for its interest in the joint venture using the equity method as described in Note 2.2.

### **2.4 Property, plant and equipment and depreciation**

#### ***Recognition and measurement***

Freehold land and projects-in-progress are stated at cost less accumulated impairment losses and are not depreciated. Other property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the assets and any other costs directly attributable to bringing the assets to working condition for their intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. The cost of self-constructed assets also includes the cost of material and direct labour. For qualifying assets, borrowing costs are capitalised in accordance with the accounting policy on borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.4 Property, plant and equipment and depreciation (continued)

#### *Subsequent costs*

The cost of replacing a component of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Group or the Company and its cost can be measured reliably. The carrying amount of the replaced item of property, plant and equipment is derecognised with any corresponding gain or loss recognised in the profit or loss accordingly. The costs of the day-to-day servicing of property, plant and equipment are recognised in the profit or loss as incurred.

#### *Depreciation*

Depreciation for property, plant and equipment other than freehold land and projects-in-progress, is recognised in the profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment. Property, plant and equipment are not depreciated until the assets are ready for their intended use.

Buildings are depreciated over 20 to 30 years or over the remaining land lease year, whichever is shorter.

The estimated useful lives of the other property, plant and equipment are as follows:

Plant, machinery, tankage and pipeline	6 - 20 years
Office equipment, furniture and fittings	3 - 7 years
Computer software and hardware	5 - 8 years
Motor vehicles	4 - 10 years

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The depreciable amount is determined after deducting residual value. The residual value, useful life and depreciation method are reviewed at each financial year end to ensure that the amount, period and method of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

#### *Derecognition*

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any, and the net carrying amount is recognised in the profit or loss.

### 2.5 Leases

#### (i) Definition of a lease

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for a consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group and the Company assess whether:

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.5 Leases (continued)

#### (i) Definition of a lease (continued)

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the customer has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the customer has the right to direct the use of the asset when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. The customer has the right to direct the use of the asset if either the customer has the right to operate the asset; or the customer designed the asset in a way that predetermines how and for what purpose it will be used throughout the period of use.

At inception or on reassessment of a contract that contains a lease component, the Group and the Company allocate the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices.

#### (ii) Recognition and initial measurement

##### As a lessee

The Group and the Company recognise a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the respective Group entities' incremental borrowing rate is used. Generally, the Group entities use their incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee;
- the exercise price under a purchase option that Group and the Company are reasonably certain to exercise; and
- penalties for early termination of a lease unless the Group and the Company are reasonably certain not to early terminate the contract.

The Group and the Company exclude variable lease payments that linked to future performance or usage of the underlying asset from the lease liability. Instead, these payments are recognised in profit or loss in the period in which the performance or use occurs.

The Group and the Company assess at lease commencement whether it is reasonably certain to exercise the extension options in determining the lease term.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.5 Leases (continued)

#### (ii) Recognition and initial measurement (continued)

##### As a lessee (continued)

The Group and the Company have elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group and the Company recognise the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The Group and the Company present right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in 'borrowings' in the statement of financial position.

#### (iii) Subsequent measurement

##### As a lessee

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Depreciation of certain right-of-use assets are subsequently capitalised into carrying amount of other assets whenever they meet the criteria for capitalisation. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a revision of in-substance fixed lease payments, or if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. The Group will reassess whether it is reasonably certain to exercise the extension option if there is a significant change in circumstances within its control.

When the lease liability is remeasured as described in the above paragraph, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

When there is lease modification due to increase in the scope of lease by adding the right-to-use one or more underlying assets, the Group and the Company assess whether the lease modification shall be accounted for as a separate lease or similar to reassessment of lease liability. The Group and the Company account for lease modification as a separate lease when the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments.

When there is lease modification due to decrease in scope, the Group and the Company decrease the carrying amount of the right-of-use asset and remeasure the lease liability to reflect the partial or full termination of the lease. The corresponding gain or loss shall be recognised in profit or loss. Lease liabilities are remeasured for all other lease modifications with corresponding adjustments to the right-of-use asset.

## **2. SIGNIFICANT ACCOUNTING POLICIES (continued)**

### **2.6 Intangible asset**

#### ***Goodwill***

Goodwill arising from business combinations is initially measured at cost as described in Note 2.1. Following the initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is not amortised but instead, it is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

In respect of equity-accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment. The entire carrying amount of the investment is reviewed for impairment when there is objective evidence of impairment.

#### ***Other intangible assets***

Intangible assets other than goodwill are measured on initial recognition at cost. The costs of intangible assets acquired in a business combination are their fair values as at the date of acquisition.

Following initial recognition, intangible assets with finite useful lives are carried at cost less accumulated amortisation and any accumulated impairment losses.

Amortisation for intangible assets with finite useful lives is recognised in the profit or loss on a straight-line basis over the estimated economic useful lives.

### **2.7 Investments**

Long-term investments in subsidiaries, associates and joint ventures are stated at cost less impairment loss, if any, in the Company's financial statements unless the investment is classified as held for sale or distribution. The cost of investments includes transaction costs.

The carrying amount of these investments includes fair value adjustments on shareholder's loans and advances, if any (Note 2.8(i)).

### **2.8 Financial instruments**

#### ***Recognition and initial measurement***

A financial instrument is recognised in the statement of financial position when, and only when, the Group or the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a receivable without a significant financing component) and a financial liability is measured at fair value plus or minus, in the case of a financial instrument not at fair value through profit or loss, any directly attributable transaction cost incurred at the acquisition or issuance of the financial instrument. A trade receivable that does not contain a significant financing component is initially measured at the transaction price.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.8 Financial instruments (continued)

#### *Classification and subsequent measurement*

##### *(i) Financial assets*

Financial assets are classified as measured at amortised cost.

The Group and the Company determine the classification of financial assets at initial recognition and are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

#### *Amortised cost*

Amortised cost category comprises financial assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The financial assets are not designated as fair value through profit or loss.

#### *Subsequent measurement*

Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective interest method (Note 2.8 (iv)). Interest income and foreign exchange gains and losses are recognised in profit or loss.

##### *(ii) Financial liabilities*

The categories of financial liabilities at initial recognition are as follows:

#### *Amortised cost*

Subsequent to initial recognition, other financial liabilities are subsequently measured at amortised cost using the effective interest method (Note 2.8 (iv)).

Gains and losses are recognised in the profit or loss when the liabilities are derecognised as well as through the amortisation process.

##### *(iii) Derivative financial instruments*

The Group and the Company use derivative financial instruments such as forward rate contracts to manage certain exposures to fluctuations in foreign currency exchange rates.

Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains and losses arising from changes in fair value on derivatives during the year are recognised in the profit or loss.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.8 Financial instruments (continued)

#### *Classification and subsequent measurement (continued)*

##### *(iii) Derivative financial instruments (continued)*

In general, contracts to sell or purchase non-financial items to meet expected own use requirements are not accounted for as financial instruments. However, contracts to sell or purchase commodities that can be net settled or which contain written options are required to be recognised at fair value, with gains and losses recognised in the profit or loss.

An embedded derivative is recognised separately from the host contract where the host contract is not a financial asset, and accounted for separately if, and only if, the derivative is not closely related to the economic characteristics and risks of the host contract and the host contract is not measured at fair value through profit or loss. The host contract, in the event an embedded derivative is recognised separately, is accounted for in accordance with policy applicable to the nature of the host contract.

##### *(iv) Effective interest method*

Amortised cost was computed using the effective interest method. This method used effective interest rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instrument to the net carrying amount of the financial instrument. Amortised cost takes into account any transaction costs and any discount or premium on settlement.

##### *(v) Offsetting of financial instruments*

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

##### *(vi) Amortised cost of financial instruments*

Interest income is recognised by applying effective interest rate to the gross carrying amount except for credit impaired financial assets (see Note 2.9 (i)) where effective interest rate is applied to the amortised cost.

##### *(vii) Derecognition of financial instruments*

###### *Financial assets*

A financial asset is derecognised when the rights to receive cash flows from the asset have expired or, the Group and the Company have transferred their rights to receive cash flows from the asset or have assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement without retaining control of the asset or substantially all the risks and rewards of the asset. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in the profit or loss, except for equity investments at fair value through other comprehensive income where the gain or loss are recognised in other comprehensive income.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.8 Financial instruments (continued)

#### *Classification and subsequent measurement (continued)*

#### *(vii) Derecognition of financial instruments (continued)*

##### *Financial liability*

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. On derecognition of a financial liability, the difference between the carrying amount of the financial liabilities extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in the profit or loss. In the case of waiver of debt from owners, the gain is recognised in equity as capital reserve.

##### *Interest rate benchmark reform*

The Group and the Company have applied the practical expedients provided in the amendments to MFRS 9 *Financial Instruments*, MFRS 139 *Financial Instruments: Recognition and Measurement*, MFRS 7 *Financial Instruments: Disclosures*, MFRS 4 *Insurance Contracts* and MFRS 16 *Leases (Interest Rate Benchmark Reform – Phase 2)*.

As of 31 December 2022, the Group and the Company have applied the practical expedients provided in the amendments for benchmark rate that had been replaced with an alternative benchmark rate. Certain transitional activities are currently ongoing, with an aim to achieve economically equivalent transactions and minimal impact upon transition.

### 2.9 Impairment

#### *(i) Financial assets*

The Group and the Company recognise loss allowances for expected credit losses (“ECL”) on financial assets measured at amortised cost.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit loss.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit loss, the Group and the Company consider reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group’s historical experience and informed credit assessment and including forward-looking information, where available.

The Group and the Company assume that the credit risk on a financial asset has increased significantly if it is past due.

The Group and the Company consider a financial asset to be in default when the borrower is unlikely to pay its credit obligations to the Group and the Company in full, without recourse by the Group and the Company to actions such as realising security.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.9 Impairment (continued)

#### (i) *Financial assets (continued)*

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument, while 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within the 12 months after the reporting date.

The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group and the Company are exposed to credit risk.

An impairment loss in respect of financial assets measured at amortised cost is recognised in profit or loss and the carrying amount of the asset is reduced through the use of an allowance account.

#### (ii) *Other assets*

The carrying amounts of other assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment.

If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or the cash-generating unit to which it belongs exceeds its recoverable amount. Impairment losses are recognised in the profit or loss.

A cash-generating unit is the smallest identifiable asset group that generates cash flows from continuing use that are largely independent from other assets and groups. An impairment loss recognised in respect of a cash-generating unit is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

The recoverable amount is the greater of the asset's fair value less cost to sell and its value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Impairment losses are reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Reversals of impairment losses are credited to the profit or loss in the year in which the reversals are recognised.

## **2. SIGNIFICANT ACCOUNTING POLICIES (continued)**

### **2.10 Cash and cash equivalents**

Cash and cash equivalents consist of cash on hand and bank balances, deposits with licensed financial institutions and highly liquid investments which have an insignificant risk of changes in fair value and are used by the Group and the Company in the management of their short-term commitments. For the purpose of the statements of cash flows, cash and cash equivalents are presented net of bank overdrafts and deposits restricted, if any.

Restricted cash in relation to a subsidiary, consist of deposit held by licensed banks and deposits held in trust by licensed banks, which have an insignificant risk of changes in fair value.

Deposit held in trust by licensed banks are funds collected from users which are deposited and managed separately in a trust account. The subsidiary is required to maintain at least the amount of the Company's e-Money liabilities in the trust account at all times in compliance with the Guideline on Electronic money issued by Bank Negara Malaysia ("BNM").

### **2.11 Contract liability - PETRONAS Mesra Loyalty Programme**

PETRONAS Mesra Loyalty Programme is an in-house loyalty programme where members are awarded with PETRONAS Mesra points at the point of sale made at PETRONAS stations and Kedai Mesra. The monetary value attributed to the awarded points is treated as contract liability and only recognised as revenue in the profit or loss upon redemption, cancellation and expiration of the points. Currently, members can redeem the awarded points for purchase of fuel at PETRONAS stations, items at Kedai Mesra or with selected partners.

Fair value of the contract liability is determined by reference to the monetary value attributable to the awarded points and the redemption expiry dates.

### **2.12 Inventories**

Inventories are stated at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Cost of petroleum products includes direct costs and transportation charges necessary to bring the inventories to their present locations and condition and is determined on a weighted average basis.

Cost of material stores and spares consists of the invoiced value from suppliers.

### **2.13 Provisions**

A provision is recognised if, as a result of a past event, the Group and the Company have a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future net cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the accretion in the provision due to the passage of time is recognised as finance cost.

The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation at the reporting date. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.13 Provisions (continued)

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is not recognised in the statements of financial position and is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Group, are not recognised in the financial statements but are disclosed as contingent liabilities unless the possibility of an outflow of economic resources is considered remote.

#### *Contingent assets*

When an inflow of economic benefit of an asset is probable where it arises from past events and where existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity, the asset is not recognised in the statement of financial position but is disclosed as a contingent asset. When the inflow of economic benefit is virtually certain, then the related asset is recognised.

In particular, information about provisions that have the most significant effect on the amount recognised in the financial statements is described in Note 16 and 30.

### 2.14 Employee benefits

#### (i) *Short term benefits*

Wages and salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees of the Group and the Company.

#### (ii) *Defined contribution plans*

As required by law, companies in Malaysia make contributions to the state pension scheme, the Employees Provident Fund (“EPF”).

Such contributions are recognised as an expense in the profit or loss as incurred.

### 2.15 Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the profit or loss.

#### (i) *Current tax*

Current tax expense is the expected tax payable on the taxable income for the year, using the statutory tax rates at the reporting date, and any adjustment to tax payable in respect of previous years.

#### (ii) *Deferred tax*

Deferred tax is provided for, using the liability method, on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts in the financial statements. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences, unabsorbed capital allowances, unused tax losses and other unused tax credits to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, unabsorbed capital allowances, unused tax losses and other unused tax credits can be utilised.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.15 Taxation (continued)

#### (ii) *Deferred tax (continued)*

Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill and the initial recognition of an asset or liability in a transaction which is not a business combination and that affects neither accounting nor taxable profit or loss.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities where they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Deferred tax asset is reviewed at each reporting date and is reduced to the extent that it is no longer probable that the future taxable profit will be available against which the related tax benefit can be realised.

### 2.16 Foreign currency transactions

In preparing the financial statements of individual entities in the Group, transactions in currencies other than the entity's functional currency ("foreign currencies") are translated to the functional currencies at rates of exchange ruling on the transaction dates.

Monetary assets and liabilities denominated in foreign currencies at the reporting date have been retranslated to the functional currency at rates ruling on the reporting date.

Non-monetary assets and liabilities denominated in foreign currencies, which are measured at fair value, are retranslated to the functional currency at the foreign exchange rates ruling at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in foreign currency are not retranslated.

On consolidation, the assets and liabilities of subsidiaries with functional currencies other than Ringgit Malaysia, are translated into Ringgit Malaysia at the exchange rates ruling at reporting date.

The income and expenses are translated at the exchange rates at the dates of the transactions or an average rate that approximates those rates. Foreign currency differences are recognised in other comprehensive income and accumulated in the foreign currency translation reserve within equity.

In the consolidated financial statements, when settlement of a monetary item receivable from or payable to the Group's foreign operation is neither planned nor likely in the foreseeable future, foreign exchange gains and losses arising from such a monetary item are considered to form part of the net investment in a foreign operation and are reclassified to other comprehensive income and accumulated under foreign currency translation reserve in equity. Upon disposal of the investment, the cumulative exchange differences previously recorded in equity are reclassified to the consolidated profit or loss.

## **2. SIGNIFICANT ACCOUNTING POLICIES (continued)**

### **2.17 Borrowing costs and foreign currency exchange differences relating to projects-in-progress**

Borrowing costs which are directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to be prepared for their intended use or sale, are capitalised as part of the cost of those assets.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the assets is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs ceases when all activities necessary to prepare the qualifying asset for its intended use or sale are completed.

Exchange differences arising from foreign currency borrowings, although regarded as an adjustment to borrowing costs, are not capitalised but instead recognised in the profit or loss in the period in which they arise.

The capitalisation rate used to determine the amount of borrowing costs eligible for capitalisation is the weighted average of borrowings that are outstanding during the year, other than borrowings made specifically for the purpose of financing a specific qualifying asset, in which the actual borrowing cost incurred on that borrowing less any investment income on the temporary investment of that borrowings, will be capitalised. Borrowing costs incurred subsequently to the completion of a specific qualifying asset are included in the determination of the capitalisation rate.

### **2.18 Revenue**

Revenue is measured based on the consideration specified in a contract with a customer and exclude amounts collected on behalf of third parties. The Group or the Company recognises revenue when or as it transfers control over a product or service to customer. An asset is transferred when (or as) the customer obtains control of the asset.

An entity transfers control of a good or service over time and, therefore, satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- (a) the customer simultaneously receives and consumes the benefits provided by the entity's performance as the entity performs;
- (b) the entity's performance creates or enhances an asset (for example, work-in-progress) that the customer controls as the asset is created or enhanced; or
- (c) the entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

If a performance obligation is not satisfied over time in accordance with the above criteria, an entity satisfies the performance obligation and recognises revenue at a point in time.

## **2. SIGNIFICANT ACCOUNTING POLICIES (continued)**

### **2.19 Financing costs**

Financing costs comprise interest payable on borrowings and profit share margin on Islamic Financing Facilities as well as accretion in provision of dismantling, removal and restoration costs due to the passage of time.

All interest and other costs incurred in connection with borrowings are expensed as incurred, other than that capitalised in accordance with the accounting policy stated in Note 2.17. The interest component of finance lease payments is accounted for in accordance with the policy set out in Note 2.5. The financing costs on borrowings are recognised using the effective profit/interest method.

### **2.20 Earnings per share**

The Group presents basic and diluted earnings per share (“EPS”) data for its ordinary shares.

Basic EPS is calculated by dividing the profit and loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

Diluted EPS is determined by adjusting the profit and loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilute potential ordinary shares.

### **2.21 Operating segments**

An operating segment is a component of the Group and of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group’s and the Company’s other components, and for which discrete financial information is available. An operating segment’s operating results are reviewed regularly by the chief operating decision maker, which in this case is the Board of Directors of the Company, to make decisions about resources to be allocated to the segment and to assess the Group’s performance.

### **2.22 Fair value measurement**

Fair value of an asset or a liability, except for lease transactions, is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

#### **(i) Financial instruments**

The fair value of financial instruments that are actively traded in organised financial markets are determined by reference to quoted market bid prices at the close of business at the end of reporting date. For financial instruments where there is no active market, fair value is determined using valuation techniques. Such techniques may include using recent arm’s length market transactions; reference to the current fair value of another instrument that is substantially the same; discounted cash flow analysis or other valuation models.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.22 Fair value measurement (continued)

#### (ii) *Non-financial assets*

For non-financial assets, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When measuring the fair value of an asset or a liability, the Group and the Company use observable market data as far as possible. Fair value are categorised into different levels in a fair value hierarchy based on the input used in the valuation technique as follows:

- Level 1 - Quoted prices (unadjusted) in active markets for identifiable assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable input).

The fair value of an asset to be transferred between levels is determined as of the date of the event or change in circumstances that caused the transfer.

The Group and the Company recognise transfers between levels of the fair value hierarchy as of the date of the event or change in circumstances that caused the transfers.

### 2.23 Equity instruments

Instruments classified as equity are measured at cost on initial recognition and are not remeasured subsequently.

#### **Ordinary shares**

Ordinary shares are classified as equity.

***Restrictions of land title***

The titles to certain freehold and leasehold land are in the process of being registered in the Company's name.

**3. PROPERTY, PLANT AND EQUIPMENT (continued)****3.1 As a lessee***Significant judgments and assumptions in relation to leases*

The Group and the Company assesses at lease commencement by applying significant judgment whether it is reasonably certain to exercise the extension options. Group entities consider all facts and circumstances including their past practice and any cost that will be incurred to change the asset if an option to extend is not taken, to help them determine the lease term.

The Group and the Company also applied judgment and assumptions in determining the incremental borrowing rate of the respective leases. The Group and Company first determine the closest available borrowing rates before using significant judgment to determine the adjustments required to reflect the term, security, value or economic environment of the respective leases.

Less: Impairment losses - unquoted shares	(2,389)	—
	<u>295,170</u>	<u>177,325</u>

On 5 May 2022, the Group incorporated a wholly-owned subsidiary, Setel Pay Sdn. Bhd. with the intent to hold the e-money operations from Setel Ventures Sdn. Bhd.

Details of subsidiaries are stated in Note 34 to the financial statements.

***Impairment review of cost of investment in subsidiaries***

The Company performed impairment test on all of its subsidiaries that have indication of impairment. The recoverable value of investment was arrived at using value-in-use method. The estimated recoverable value is higher than the carrying value of the investment for these subsidiaries, except for a foreign subsidiary which was duly impaired during the year of RM2,389,000 (2021: Nil).

Issued and fully paid shares with no par value classified as equity instruments:					
Ordinary shares	993,454	993,454	993,454	993,454	993,454

The holders of ordinary shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company.

**12. RESERVES****Capital reserves**

Capital reserve arose as a result of business combination of entities under the common control of PETRONAS and comprises merger deficit.

Merger deficit represents the excess of cost of acquisition over the Group's interest in the net carrying value of identifiable net assets, liabilities and contingent liabilities of the acquiree. Merger deficit is classified as part of non-distributable reserves.

**Foreign currency translation reserve**

The foreign currency translation reserve comprises all foreign currency differences arising from the translation of the financial statement of a subsidiary whose functional currency is different from that of the Company's functional currency as well as foreign currency differences arising from the translation of monetary items that are considered to form part of a net investment in a foreign operation.

**13. NON-CONTROLLING INTERESTS**

This consists of the non-controlling interests' proportion of share capital and reserves of partly-owned subsidiaries.

**16. OTHER LONG-TERM LIABILITIES AND PROVISIONS**

<i>In RM'000</i>	<b>Group</b>		<b>Company</b>	
	<b>2022</b>	<b>2021</b>	<b>2022</b>	<b>2021</b>
Dismantling, removal and restoration costs	36,074	31,272	36,074	31,272

***Dismantling, removal and restoration costs***

The movement of provision for dismantling, removal and restoration costs during the financial year is shown below:

<i>In RM'000</i>	<b>Group and Company</b>	
	<b>2022</b>	<b>2021</b>
Balance at 1 January	31,272	29,495
Net changes in provision	825	(333)
Unwinding of discount	3,977	2,110
Balance at 31 December	36,074	31,272

Under provisions of certain land lease agreements, the Company has an obligation to dismantle and remove structures on certain sites and restore those sites at the end of the lease term to an acceptable condition consistent with the lease agreement.

For these affected sites, the liabilities for dismantling, removal and restoration costs are recognised at present value of the compounded future expenditure estimated using existing technology, at current prices and discounted using a real discount rate.

The present value of the estimated costs is capitalised as part of the asset and the related provisions raised on the date when the obligation arises. The capitalised cost is depreciated over the expected life of the asset. The increase in the net present value of the provision for the expected cost is included as finance costs in the profit or loss.

Any change in the present value of the estimated expenditure is reflected as an adjustment to the provision. The impact of the changes in the estimate is not material in relation to the Group's and the Company's net profits for the year.

While the provision is based on the best estimate of future costs and the economic lives of the affected assets, there is uncertainty regarding both the amount and timing of incurring these costs. All the estimates are reviewed on an annual basis or more frequently, where there is indication of a material change.

As at 31 December 2022, the provision for dismantling, removal and restoration costs is expected to be utilised as follows:

<i>In RM'000</i>	<b>Group and Company</b>
	<b>2022</b>
1 to 10 years	14,047
11 to 20 years	9,599
More than 20 years	12,428
	<u>36,074</u>

**17. TRADE AND OTHER PAYABLES**

<i>In RM'000</i>	<b>2022</b>	<b>Group 2021</b>	<b>2022</b>	<b>Company 2021</b>
<b>Trade</b>				
Trade payables	51,868	33,719	45,480	30,583

	<u>1,003,955</u>	<u>816,094</u>	<u>898,964</u>	<u>765,450</u>
<b>Trade and other payables</b>	<u>5,016,696</u>	<u>3,645,060</u>	<u>4,852,434</u>	<u>3,547,161</u>

Contract liability is attributable to the monetary value of the awarded Mesra points under PETRONAS Mesra Loyalty Programme.

Trade amounts due to related companies, subsidiaries, associates and joint ventures arose in the normal course of business.

Non-trade amounts due to holding company, subsidiaries, associates, joint ventures and related companies are unsecured, interest free and repayable on demand.

E-Money liabilities are in relations to users' balances in their e-wallets which are refundable to users upon request.

**18. REVENUE**

<i>In RM'000</i>	<b>2022</b>	<b>Group 2021</b>	<b>2022</b>	<b>Company 2021</b>
<b>Revenue from contracts with customers</b>				
Sales of petroleum products	36,506,117	22,480,514	36,006,639	22,005,563
Other revenue:				
- non-fuel business	223,562	168,723	—	168,723
- rendering of services	19,217	24,812	—	—
	<u>36,748,896</u>	<u>22,674,049</u>	<u>36,006,639</u>	<u>22,174,286</u>

***Disaggregation of revenue from contracts with customers***

In the following table, revenue is disaggregated by major products/services lines.

<i>In RM'000</i>	<b>2022</b>	<b>Group 2021</b>	<b>2022</b>	<b>Company 2021</b>
<b>Major products/services lines</b>				
- Retail	17,371,537	12,551,395	17,277,987	12,647,811
- Commercial	19,156,544	9,947,465	18,728,652	9,526,475
- Convenience	220,815	175,189	—	—
	<u>36,748,896</u>	<u>22,674,049</u>	<u>36,006,639</u>	<u>22,174,286</u>

Revenue for the Group derived from petroleum products are predominantly sold to the retail and commercial sectors in Malaysia which have been disclosed in the Operating Segments (Note 29). During the year, the Group introduced the Convenience business segment to focus on activities of the non-fuel business which is a principal activity of the Group. Further details are disclosed in Note 29 to the financial statements. The Group and the Company have restated the comparative figures in prior year due to change in reportable operating segments effective first quarter of 2022 which have been disclosed in Note 40 to the financial statements.

**Nature of goods and services**

<b>Nature of goods and services</b>	<b>Timing of recognition or method used to recognise revenue</b>	<b>Significant payment terms</b>
Retail	Revenue is recognised when petroleum products are delivered and accepted by the customers at their premises/sites or ex-depot.	Payment for the products supplied shall be made before delivery, on delivery or within stipulated credit period.
Commercial	Revenue is recognised when petroleum products are delivered and accepted by the customers at their premises/sites or ex-depot and recognised over time when services are rendered to customers.	Payment for the products supplied shall be made on delivery or within stipulated credit period.
Convenience	Revenue is recognised when products are delivered or services are rendered over time to customers.	Payment for the services rendered shall be made on delivery or within stipulated credit period.

There are no variable elements in consideration, obligation for returns or refunds nor warranty in the provision of goods and services by the Group and the Company.

- deferred tax expense	(1)	(11,912)	1	3,560
Tax expense	31	<u>347,197</u>	28	<u>209,537</u>
<b>Company</b>				
<i>In RM'000</i>	%	<b>2022</b>	%	<b>2021</b>
Profit before taxation		<u>1,049,477</u>		<u>877,834</u>
Taxation at Malaysian statutory tax rate	24	251,875	24	210,680
Effect of corporate tax recognised at different rates	7	78,761	—	—
Non assessable income, net of non deductible expenditure	(1)	(13,568)	(2)	(19,490)
	30	<u>317,068</u>	22	<u>191,190</u>
Under/(over) provision in prior years				
- current tax expense	(1)	(10,185)	—	4,091
- deferred tax expense	(1)	(11,924)	—	3,594
Tax expense	28	<u>294,959</u>	22	<u>198,875</u>

In the previous financial year, the deferred tax assets and tax liabilities in respect of temporary differences that were realised in 2022 were originated at blended rates. The blended rates were measured at 24% on the first RM100 million of estimated chargeable income and one-off 33% on the remaining estimated chargeable income for the year of assessment 2022 in accordance with the provision of Malaysian Finance Act 2021.

In measuring the provision for taxation and deferred taxation at reporting date, the management applied judgments and estimates in relation to certain interpretation of tax legislation in arriving at the Group's and the Company's tax positions. Judgments and estimates are based on the current tax legislation and best available information as at the reporting date. The management continuously reassesses its judgments and estimates whenever there is a change in circumstances.

**21. TAX EXPENSE (continued)*****Unrecognised net deferred tax assets***

The net deferred tax assets not recognised in the statement of financial position in respect of the temporary differences of a subsidiary are as shown below:

<i>In RM'000</i>	<b>2022</b>	<b>Group 2021</b>
Property, plant & equipment	(21,527)	(22,080)
Unutilised tax losses	19,415	27,905
Unabsorbed capital allowance	82,419	31,876
	<u>80,307</u>	<u>37,701</u>

Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the subsidiaries can utilise the benefits. In accordance with the provision of Malaysian Finance Act 2021 requirement, the utilisation of unused tax losses will be limited to ten years with effect from year of assessment 2019.

Unabsorbed capital allowances do not expire under current tax legislation.

**22. ACQUISITION OF SUBSIDIARY**

In prior year, the Group fulfilled all the conditions of its Sale and Purchase Agreement entered on 4 September 2021 to acquire 100% equity interests in Setel Express Sdn. Bhd. (“Setel Express”) (formerly known as D-Two Couriers (M) Sdn. Bhd.). Following this acquisition, Setel Express has become a wholly owned subsidiary of the Group.

The fair value of the net identifiable liabilities and license as disclosed below:

The effect of the acquisition on the cash flows and fair values of assets and liabilities acquired was as follows:

<i>In RM'000</i>	<b>At fair value</b>
Property, plant and equipment	7
Trade and other receivables	32
Cash and cash equivalents	2
Trade and other payables	(132)
Net identifiable liabilities	<u>(91)</u>
Add: License on acquisition	806
Purchase consideration	<u>715</u>
Less: Cash and cash equivalents of acquired subsidiary	<u>(2)</u>
Cash flow on acquisition, net of cash	<u>713</u>

The principal activity of Setel Express is stated in Note 34 to the financial statements.

**23. DISPOSAL OF SUBSIDIARY**

In prior year, the Group via its wholly-owned subsidiary PDB (Netherlands) B. V. disposed off PETRONAS International Marketing (Thailand) Co. Ltd. (“PIMTCL”) for a total consideration of RM13,128,000 to another related company.

The net effect of the above disposal on the cash flows and carrying amount of assets and liabilities disposed were as follows:

**Cash flows from disposal of subsidiary**

<i>In RM'000</i>	<b>Group 2021</b>
Net cash from investing activities	<u>7,278</u>

**Effect of disposal on the financial position of the Group**

<i>In RM'000</i>	<b>Carrying amount at disposal date</b>
Non-current assets	2,190
Current assets	28,695
Current liabilities	(15,523)
Non-current liabilities	<u>(699)</u>
Net assets disposed off	14,663
Foreign exchange translation reserve	8,779
Loss on disposal of subsidiary	<u>(10,314)</u>
Consideration received	13,128
Less: Cash and cash equivalents of subsidiary disposed	<u>(5,850)</u>
Cash flow on disposal, net of cash disposed off	<u>7,278</u>

As PIMTCL was acquired via a common control acquisition in prior years from the ultimate holding company, the capital reserve amounting to RM18,427,000 was realised to retained earnings.

**24. SIGNIFICANT EVENTS****i. Business Transfer Agreement (“BTA”) with PETRONAS Dagangan Berhad (“PDB”) Group’s subsidiaries**

PDB has entered into a BTA with its wholly owned subsidiary, Mesra Retail & Cafe Sdn. Bhd. (“MESRA”) on 9 December 2022 for the business transfer of non-fuel business operations effective 1 January 2022 that includes net assets transfer of RM18,366,000 from PDB to MESRA for a consideration of the same amount which remains as payable by MESRA as at the year end. Novation exercise between PDB, MESRA and counterparties whereby PDB discharges its rights, interests, obligations and liabilities to MESRA were gradually completed during the year from 1 January 2022.

PDB has entered into a BTA with its wholly owned subsidiary, Setel Express Sdn. Bhd. (“SESB”) on 21 July 2022 for the business transfer of courier services and sale of PETRONAS merchandise via retail marketing and e-commerce effective 1 November 2021 and 1 January 2022 respectively.

The business transfers were treated as common control transactions as these subsidiaries are controlled by PDB.

The principal activities of MESRA and SESB is stated in Note 34 to the financial statements.

**ii. Disposal of LPG business in Sarawak**

On 9 March 2022, the Group has entered into a Business Transfer and Share Subscription Agreement (“BTSSA”) with PETROSNIaga Sdn. Bhd. (“PNIAGA”) and Petroleum Sarawak Berhad (“PETROS”), in relation to the divestment of its LPG business in Sarawak and for subscription of 49% equity stake in PNIAGA. On 30 April 2022, the BTSSA was completed and PDB now holds 49% equity in PNIAGA which will market PETROS-branded LPG cylinders to household and commercial customers in Sarawak. The Company recorded net gain of disposal amounting to RM87,937,000 from this divestment.

**Effect of disposal on the financial position of the Group**

<i>In RM'000</i>	<b>2022</b>
Consideration received:	
- Cash	40,000
- Equity (49% shareholding in PNIAGA)	48,039
Total consideration received	<u>88,039</u>
Net assets disposed off	(102)
Gain on disposal of LPG business in Sarawak	<u>87,937</u>

**25. EARNINGS PER SHARE*****Basic earnings per ordinary share***

The calculation of basic earnings per ordinary share was based on the profit attributable to ordinary shareholders and a weighted average number of ordinary shares outstanding calculated as follows:

<i>In RM'000</i>	<b>2022</b>	<b>Group 2021</b>
Profit for the year attributable to shareholders	776,595	529,754
Number of ordinary shares ('000)	993,454	993,454
Basic earnings per ordinary share (in sen)	78.2	53.3

**Basic earnings per share**

No diluted earnings per share is disclosed in these financial statements as there is no potential dilutive ordinary share.

**26. DIVIDENDS**

<i>In RM'000</i>	<b>2022</b>	<b>Company 2021</b>
<b>In respect of financial year ended 31 December 2021:</b>		
Quarter 4: Interim dividend of 26.0 sen per ordinary share (2020: 17.0 sen)	258,298	168,887
<b>In respect of financial year ended 31 December 2022:</b>		
Quarter 1: interim dividend of 5.0 sen per ordinary share (2021: 14.0 sen)	49,673	139,084
Quarter 2: interim dividend of 11.0 sen per ordinary share (2021: 10.0 sen)	109,280	99,345
Quarter 3: interim dividend of 20.0 sen per ordinary share (2021: 20.0 sen)	198,691	198,691
	615,942	606,007

The Directors had on 22 February 2023 declared an interim dividend of 26.0 sen per ordinary share amounting to RM258,298,040 and a special dividend of 14.0 sen per ordinary share amounting to RM139,083,560 in respect of the financial year ended 31 December 2022. The interim and special dividends have not been accounted for in the financial statements for the year ended 31 December 2022.

**27. RELATED PARTIES DISCLOSURES**

For the purposes of these financial statements, parties are considered to be related to the Group or the Company if the Group or the Company has the ability, directly or indirectly, to control or jointly control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group or the Company and the party are subject to common control. Related parties may be individuals or other entities.

Related parties also include key management personnel defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Group either directly or indirectly. The key management personnel include all the Directors of the Company, and certain members of senior management of the Group.

The Group's and the Company's related parties include subsidiaries, associates, joint ventures as well as the holding company, PETRONAS and its related entities. The Group's related parties also include the Government of Malaysia and its related entities as the holding company is wholly-owned by the Government of Malaysia.

**Key management personnel compensation**

<i>In RM'000</i>	<b>Group and Company</b>	
	<b>2022</b>	<b>2021</b>
<b>Directors</b>		
- Fees	1,335	1,212
- Other short-term employee benefits	31	28
	<u>1,366</u>	<u>1,240</u>

The Company reimbursed the holding company for compensation of certain key management personnel attributable to services rendered as well as fees for Directors who are appointees of the holding company as disclosed in the related parties disclosures.

**27. RELATED PARTIES DISCLOSURES (continued)****Significant transactions with related parties**

In addition to the transactions detailed elsewhere in the financial statements, the Group and the Company had the following transactions with related parties during the financial year:

**Group***In RM'000*

	<b>2022</b>	<b>2021</b>
<b>Federal and State Government of Malaysia:</b>

Information regarding outstanding balances arising from related party transactions as at 31 December 2022 are disclosed in Note 9 and Note 17 as well as lease liabilities balances as follows:

<i>In RM'000</i>	<b>2022</b>	<b>Group 2021</b>	<b>2022</b>	<b>Company 2021</b>
Related companies	526	505	526	505

The Directors of the Company are of the opinion that the above transactions have been entered into in the normal course of business and have been established on a commercial basis. The above has been stated at contracted amount.

## 28. COMMITMENTS

Outstanding commitments in respect of capital expenditure at the end of the reporting year not provided for in the financial statements are:

<i>In RM'000</i>	<b>2022</b>	<b>Group 2021</b>	<b>2022</b>	<b>Company 2021</b>
<b>Property, plant and equipment</b>				
Approved and contracted for	97,011	137,220	91,325	136,975
Approved but not contracted for	326,655	244,769	260,667	234,315
	423,666	381,989	351,992	371,290

**29. OPERATING SEGMENTS**

Effective first quarter of 2022, the Group's reportable segments comprise Retail, Commercial and Convenience Businesses. The change in the reportable operating segments is in line with the change in the way the Group's business is managed. Accordingly, the Group has restated the operating segment information for the prior year. Each reportable segment offers different products and services and require different marketing strategies. The following summary describes the operations in each of the Group's reportable segment:

- Retail – consist of sales and purchases of petroleum products to the retail sector.
- Commercial – consist of sales and purchases of petroleum products and provision of services to the commercial sector.
- Convenience – comprise mainly non-fuel business activities.

For each of the reportable segment, the Group chief operating decision maker, which is the Board of Directors of the Company, reviews internal management reports at least on a quarterly basis.

Performance is measured based on segment profit or loss before tax as included in the internal management reports that are reviewed by the Company's Board of Directors. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

Revenues derived from petroleum products are predominantly sold to the retail and commercial sectors in Malaysia which have been disclosed in the operating segment. In this respect, no further disaggregation of revenue is presented.

**Group  
2022**

<b>Business Segments</b>	<b>Retail</b>	<b>Commercial</b>	<b>Convenience</b>	<b>Total</b>
<i>In RM'000</i>

**Geographical information**

There is no disclosure on geographical segment information as the Group's operations are predominantly within Malaysia.

**Major customers**

As at 31 December 2022, there are no major customers with revenue that contribute to more than 10 percent of the Group's revenue.

**30. CONTINGENCIES****Group***In RM'000***2022****2021****Contingent assets**

An award in favour of a subsidiary was issued by the arbitrator in 2018 following an arbitration proceeding, which allowed additional costs and expenses for restructuring works at one of the subsidiary's major facility. The quantum to be paid following the award as of the financial period date is pending settlement negotiation between the parties.

26,662

26,662

In the normal course of business, the Group is subject to several contingencies arising from litigations and claims brought by various parties. As at 31 December 2022, there were no material contingent liabilities since the last audited consolidated statement of financial position.

**31. FINANCIAL INSTRUMENTS****Categories of financial instruments**

### 31. FINANCIAL INSTRUMENTS (continued)

#### Categories of financial instruments (continued)

##### Financial risk management

The Group and the Company are exposed to various risks that are particular to its core business which consists of domestic marketing of petroleum products. These risks, which arise in the normal course of the Group's and the Company's business, comprise credit risk, liquidity risk and market risk relating to interest rates and foreign currency exchange rates.

The Group has policies and guidelines in place that sets the foundation for a consistent approach towards establishing an effective financial risk management across the Group.

Risk taking activities are undertaken within acceptable level of risk or risk appetite, whereby the risk appetite level reflects business considerations and capacity to assume such risks. The risk appetite is established at Board level, where relevant, based on defined methodology and translated into operational thresholds.

The Group's and the Company's goal in risk management are to ensure that the management understands, measures and monitors the various risks that arise in connection with their operations. Policies and guidelines have been developed to identify, analyse, appraise and monitor the dynamic risks facing the Group and the Company. Based on this assessment, each business unit adopts appropriate measures to mitigate these risks in accordance with the business unit's view of the balance between risk and reward.

##### Credit risk

Credit risk is the risk of potential exposure of the Group and of the Company to losses in the event of non-performance by counterparties. The Group's and the Company's exposures to credit risk arise principally from customers and placement in financial institutions. Credit risks are controlled by individual companies in line with PETRONAS' policies and guidelines.

##### *Trade and other receivables*

##### *Risk management objectives, policies and processes for managing the risk*

The Group and the Company minimise credit risk by ensuring that all potential third party counterparties are assessed prior to registration and entering into new contracts. Existing third party counterparties are also subject to regular reviews, including re-appraisal and approval of granted limits. The creditworthiness of counterparties is assessed based on an analysis of all available quantitative and qualitative data regarding business risks and financial standing, together with the review of any relevant third party and market information. Reports are prepared and presented to the management that cover the Group's overall credit exposure against limits and securities, exposure by segment and overall quality of the portfolio.

Depending on the types of transactions and counterparty creditworthiness, the Group and the Company further mitigate and limit risks related to credit by requiring collateral or other credit enhancements such as cash deposits, letter of credit, Amanah Saham Bumiputera ("ASB"), Amanah Saham Bumiputera 2 ("ASB 2"), Amanah Saham Wawasan 2020 ("ASW 2020") and bank guarantees.

The Group uses ageing analysis to monitor the credit quality of the receivables. As at the year end, 94% (2021: 96%) of gross trade receivables of the Group are within the credit terms.

### 31. FINANCIAL INSTRUMENTS (continued)

#### Credit risk (continued)

##### *Trade and other receivables (continued)*

##### *Risk management objectives, policies and processes for managing the risk (continued)*

Management has taken reasonable steps to ensure that receivables that are neither past due nor impaired are stated at their realisable values. A significant portion of these receivables are regular customers that have been transacting with the Group and the Company.

At each reporting date, the Group and the Company assess whether any of the trade receivables are credit impaired.

The gross carrying amounts of credit impaired trade receivables and contract assets are written off (either partially or full) when there is no realistic prospect of recovery. This is generally the case when the Group or the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. Nevertheless, trade receivables and contract assets that are written off could still be subject to enforcement activities.

##### *Exposure to credit risk, credit quality and collateral*

As at the end of the reporting period, the maximum exposure to credit risk arising from trade receivables are represented by the carrying amounts in the statement of financial position.

At each reporting date, the Group and the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the customer;
- a breach of contract such as a default; or
- it is probable that the customer will enter bankruptcy or other financial reorganisation.

##### *Concentration of credit risk*

On reporting date, there is a significant concentration of credit risk of the Group arising from an amount owing from a customer constituting 14% (2021: 13%) of the total trade receivables of the Group.

In addition, there is a significant concentration of credit risk of the Group on the amount owing from the Government constituting 92% (2021: 95%) of the total other receivables of the Group. The amount related to subsidies arising from the Automatic Pricing Mechanism governing the sales of petroleum products.

**31. FINANCIAL INSTRUMENTS (continued)****Credit risk (continued)***Trade and other receivables (continued)**Recognition and measurement of impairment loss*

In managing credit risk of trade receivables, the Group and the Company monitors its debtors and takes appropriate actions (including but not limited to legal actions) to recover long overdue balances.

The Group and the Company perform credit rating assessment of all its counterparties in order to measure Expected Credit Loss (“ECL”) of trade receivables for all segments using the PETRONAS Credit Risk Rating system. This credit rating assessment considers quantitative assessment using the counterparties’ financial statements or a qualitative assessment of the counterparties which includes but is not limited to their reputation, competitive position, industry and geopolitical outlook.

In determining the ECL, the probability of default assigned to each counterparty is based on their individual credit rating. This probability of default is derived by benchmarking against available third party and market information, which also incorporates forward looking information.

Loss given default is the assumption of the proportion of financial asset that cannot be recovered by conversion of collateral to cash or by legal process, and is assessed based on the Group’s and the Company’s historical experience.

The following table provides information about the exposure to credit risk and ECLs for trade receivables as at 31 December 2022 which are grouped together as they are expected to have similar risk nature.

<b>Group 2022</b>		<b>Gross carrying amount</b>	<b>Loss allowance</b>	<b>Net balance</b>

	<u>1,863,764</u>	<u>1,596,136</u>	<u>1,699,377</u>	<u>1,488,013</u>

There are trade receivables where the Group has not recognised any loss allowance as the trade receivables are secured by collateral and/or other credit enhancements such as cash deposits, letter of credit, ASB, ASB 2, ASW 2020 and bank guarantees.

**31. FINANCIAL INSTRUMENTS (continued)****Credit risk (continued)*****Trade and other receivables (continued)******Recognition and measurement of impairment loss (continued)***

Trade receivables which are credit impaired amounting to RM59,873,000 (2021: RM22,676,000) are partially collateralised in the form of financial guarantee by banks. Impairment loss has been provided in excess of the collateral value of the financial guarantee of RM164,616,000 (2021: RM166,340,000).

The movements in the allowance for impairment losses of trade receivables during the year are as follows:

<i>In RM'000</i>	<b>Group</b>		<b>Company</b>	
	<b>2022</b>	<b>2021</b>	<b>2022</b>	<b>2021</b>
Opening balance	22,676	12,236	16,180	6,428
Impairment loss recognised	40,281	16,002	35,329	13,024
Impairment loss reversed	(3,084)	(4,468)	(1,248)	(3,267)
Impairment loss written off	—	(45)	—	(5)
Disposal of subsidiary	—	(1,049)	—	—
Closing balance	59,873	22,676	50,261	16,180

***Fund investments***

The Group and the Company are also exposed to counterparty credit risk from financial institutions through fund investment activities which is managed by IFSSC on behalf of the Group comprising primarily money market placement. These exposures are managed in accordance with existing policies and guidelines that define the parameters within which the investment activities shall be undertaken in order to achieve the Group's investment objective of preserving capital and generating optimal returns above appropriate benchmarks within allowable risk parameters.

Investments are only made with approved counterparties who met the appropriate rating and other relevant criteria, and within approved credit limits, as stipulated in the policies and guidelines. The treasury function is governed by a counterparty credit risk management framework.

The maximum exposure to credit risk is represented by the carrying amounts in the statement of financial position.

As at the reporting date, the Group and the Company have only invested in short term domestic money market instrument. In view of the sound credit rating of counterparties, the Group and the Company do not expect any counterparties to fail to meet its obligation and hence, loss allowance is not provided for.

**Liquidity risk**

Liquidity risk is the risk that the Group and the Company will not be able to meet its financial obligations as they fall due. The Group's and the Company's exposure to liquidity risk arises principally from its trade and other payables, and borrowings. In managing its liquidity risk, the Group and the Company maintains sufficient cash and liquid marketable assets and a balance between continuity of funding and flexibility through use of stand-by credit facilities. The Company's current credit rating enables it to access banking facilities in excess of current and immediate future requirements of the Group and the Company.

**31. FINANCIAL INSTRUMENTS (continued)****Liquidity risk (continued)*****Maturity analysis***

The table below summarises the maturity profile of the Group's and of the Company's financial liabilities as at the reporting date based on undiscounted contractual payments:

*continued from previous page***Market risk**

Market risk is the risk or uncertainty arising from change in market prices and their impact on the performance of the business. The market price changes that the Group and the Company are exposed to include interest rates, foreign currency exchange rates that could affect the value of the Group's and the Company's financial assets, liabilities or expected future cash flows.

**Profit margin or Interest rate risk**

Profit margin or interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market rates.

Short-term revolving credit facilities, short-term receivables and payables are not significantly exposed to interest rate risk.

The Group's interest-bearing financial assets and financial liabilities, which consist mainly of fixed rate short term fund placement and short term revolving credit facilities do not have significant exposure to interest rate risk.

All profit or interest rate exposures are monitored and managed proactively in line with PETRONAS' policies and guidelines.

As at 31 December 2022, 100% (2021: 100%) of the interest-bearing financial liabilities of the Group are fixed rate instruments and a change in interest rate is not expected to have any significant impact to the Group's cash flows.

**Foreign exchange risk**

The Group and the Company are exposed to varying levels of foreign exchange risk when they enter into transactions that are not denominated in the respective companies' functional currencies and when foreign currency monetary assets and liabilities are translated at the reporting date. The main underlying economic currencies of the Group's cash flows are Ringgit Malaysia and US Dollars. The Group's and the Company's funds are managed by IFSSC whereby foreign currency exposure is typically managed by matching receipts and payment for the same currency and internally hedged with IFSSC. When deemed necessary and appropriate, the Company, via IFSSC will enter into external hedging to minimise its exposure to the foreign currency movements.

**31. FINANCIAL INSTRUMENTS (continued)****Market risk (continued)****Foreign exchange risk (continued)**

The Group's and the Company's significant exposure to foreign currency risk, based on carrying amounts as at the reporting date is as follows:

<b>Group</b> <i>In RM'000</i>	<b>2022</b>	<b>2021</b>
	<b>Denominated in USD</b>	<b>Denominated in USD</b>
<b>Financial assets</b>		
Trade and other receivables	213,616	251,591
<b>Financial liabilities</b>		
Trade and other payables	(164,124)	(58,011)
Lease liabilities	(90,897)	(7,835)
	<u>(41,405)</u>	<u>185,745</u>
<b>Company</b> <i>In RM'000</i>	<b>2022</b>	<b>2021</b>
	<b>Denominated in USD</b>	<b>Denominated in USD</b>
<b>Financial asset</b>		
Trade and other receivables	213,436	250,854
<b>Financial liabilities</b>		
Trade and other payables	(160,822)	(55,432)
Lease liabilities	(90,897)	(7,835)
	<u>(38,283)</u>	<u>187,587</u>

Sensitivity analysis for a given market variable provided in this note, discloses the effect on profit or loss and equity as at 31 December 2022 assuming that a reasonably possible change in the relevant market variable had occurred at 31 December 2022 and been applied to the risk exposures in existence at that date to show the effects of reasonably possible changes in price on profit or loss and equity to the next annual reporting date. Reasonably possible changes in market variables used in the sensitivity analysis are based on implied volatilities, where available, or historical data for equity and commodity prices and foreign exchange rates. Reasonably possible changes in interest rates are based on management judgment and historical experience.

The sensitivity analysis is hypothetical and should not be considered to be predictive of future performance because the Group's actual exposure to market prices is constantly changing with changes in the Group's portfolio of among others, commodity, debt and foreign currency contracts. Changes in fair values or cash flows based on a variation in a market variable cannot be extrapolated because the relationship between the change in market variable and the change in fair value or cash flows may not be linear. In addition, the effect of a change in a given market variable is calculated independently of any change in another assumption and mitigating actions that would be taken by the Group. In reality, changes in one factor may contribute to changes in another, which may magnify or counteract the sensitivities.

**31. FINANCIAL INSTRUMENTS (continued)****Market risk (continued)***Foreign exchange risk (continued)*

The following table demonstrates the indicative pre-tax effects on the profit or loss and equity of applying reasonably foreseeable market movements in the following currency exchange rates:

	<b>Appreciation in foreign currency rate %</b>	<b>Group Effect on profit or loss</b>	<b>Company Effect on profit or loss</b>
<b>2022</b>			
<i>In RM'000</i>			
USD	10	(4,141)	(3,828)
<b>2021</b>			
<i>In RM'000</i>			
USD	10	18,575	18,759

A depreciation in USD would have had equal but opposite effect, on the basis that all other variables remain constant.

**Fair value information**

The Group's and the Company's financial instruments consist of borrowings, cash and cash equivalents, trade and other receivables and trade and other payables.

The carrying amounts of cash and cash equivalents, short term fund investments, receivables and payables and short term borrowings reasonably approximate their fair values due to the relatively short term nature of these financial instruments.

**31. FINANCIAL INSTRUMENTS (continued)****Fair value information (continued)**

The following table analyses financial instruments not carried at fair value for which fair value is disclosed, together with the carrying amounts shown in the statement of financial position.

<b>Group 2022</b>	<b>Fair value of financial instruments not carried at fair value</b>		<b>Carrying amount</b>
	<b>Level 3</b>	<b>Total</b>	
<i>In RM'000</i>			
<b>Financial liability</b>			
Revolving credits	—	—	—

<b>Group 2021</b>	<b>Fair value of financial instruments not carried at fair value</b>		<b>Carrying amount</b>
	<b>Level 3</b>	<b>Total</b>	
<i>In RM'000</i>			
<b>Financial liabilities</b>			
Revolving credits	15,801	15,801	16,000

***Non-derivative financial instruments***

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the end of the reporting period.

**31. FINANCIAL INSTRUMENTS (continued)****Income/(expense), net gains and losses arising from financial instruments**

<b>Group 2022</b> <i>In RM'000</i>	<b>Interest income</b>	<b>Interest expense</b>	<b>Impairment loss</b>	<b>Others</b>	<b>Total</b>

<b>Total</b>	<b>58,059</b>	<b>—</b>	<b>(9,845)</b>	<b>(2,031)</b>	<b>46,183</b>

Others relate to gains and losses arising from financial instruments other than interest income, interest expense and impairment loss such as realised and unrealised foreign exchange gains or losses.

### **32. CAPITAL MANAGEMENT**

The Group defines capital as equity and debt. The objective of the Group's capital management is to maintain an optimal capital structure and ensure availability of funds to support its business and maximise shareholders' value. As a subsidiary of PETRONAS, the Group's approach in managing capital is set out in the PETRONAS Financial Policy.

The Group monitors and maintains a prudent level of total debt to total asset ratio to optimise shareholder's value, and to ensure compliance with covenants under debt and shareholders' agreements and regulatory requirements, if any.

The debt to equity ratio of the Group as at 31 December 2022 is 3.2:100 (2021: 2.1:100).

There were no changes in the Group's approach to capital management during the year.

Under the requirement of Bursa Malaysia Practice Note No.17/2005, the Company is required to maintain consolidated shareholders' equity equal to or not less than 25% of the issued and paid-up capital (excluding treasury shares) and such shareholders' equity is not less than RM40 million. The Group has complied with this requirement.

### **33. HOLDING AND ULTIMATE HOLDING COMPANY**

The holding company as well as ultimate holding company is Petroliam Nasional Berhad ("PETRONAS"), a company incorporated in Malaysia.

**40. COMPARATIVE FIGURES**

The Group and the Company has represented the comparative figures in prior year due to change in reportable operating segments effective first quarter of 2022. The effects of the restatement are disclosed below:

**Group**

<i>In RM'000</i>	<b>As restated</b>	<b>As previously stated</b>
Revenue	22,674,049	22,505,326
Cost of revenue	(19,939,275)	(19,936,900)
Administration expenses	(1,158,451)	(1,160,826)
Other income	173,288	342,011

**Company**

<i>In RM'000</i>	<b>As restated</b>	<b>As previously stated</b>
Revenue	22,174,286	22,005,563
Cost of revenue	(19,557,979)	(19,555,604)
Administration expenses	(1,125,931)	(1,128,306)
Other income	372,710	541,433

The above restatement does not have any impact on the earnings for ordinary shares of the Group. Certain notes to the financial statements have been represented to be in accordance with the current year presentation.

## **INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF PETRONAS DAGANGAN BERHAD**

(Company No. 198201008499 (88222-D))  
(Incorporated in Malaysia)

### **Report on the Audit of the Financial Statements**

#### **Opinion**

We have audited the financial statements of PETRONAS Dagangan Berhad, which comprise the statements of financial position as at 31 December 2022 of the Group and of the Company, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 9 to 102.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 December 2022, and of their financial performance and their cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

#### **Basis for Opinion**

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our auditors' report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Independence and Other Ethical Responsibilities*

We are independent of the Group and of the Company in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

## **Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### **Revenue Recognition**

Refer to page 39 (Note 2.18 Significant Accounting Policies) and page 67 (Note 18) to the financial statements.

#### **The key audit matter**

The main revenue streams of the Group are split into retail, commercial and convenience. Revenue recognition is a key audit matter due to risk that revenue may be overstated arising from pressure faced by the Group in achieving performance targets as revenue recognition has a direct impact on the results of the Group.

#### **How the matter was addressed in our audit**

We performed the following audit procedures, among others, around revenue recognition:

- We tested the design and implementation as well as operating effectiveness of the Group's controls relevant to recognition of revenue;
- We assessed whether sales transactions either side of the statement of financial position date as well as credit notes issued after year end are recognised in the correct period;
- We tested sales transactions recorded to the acknowledged customer delivery orders as an indication of transfer of control on goods to ascertain validity of sales; and
- We involved our Information Risk Management specialist to test the overall general IT control environment and application controls relevant to recognition of sales.

#### **Information Other than the Financial Statements and Auditors' Report Thereon**

The Directors of the Company are responsible for the other information. The other information comprises the information included in the Director's Report and Statement on Risk Management and Internal Control (but does not include the financial statements of the Group and of the Company and our auditors' report thereon), which we obtained prior to the date of this auditor's report, and the remaining parts of the annual report, which are expected to be made available to us after that date.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

### **Information Other than the Financial Statements and Auditors' Report Thereon (continued)**

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the remaining parts of the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the Directors of the Company and take appropriate actions in accordance with approved standards on auditing in Malaysia and International Standards on Auditing.

### **Responsibilities of the Directors for the Financial Statements**

The Directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the ability of the Group and of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

### **Auditors' Responsibilities for the Audit of the Financial Statements (continued)**

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Group and of the Company.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group or of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### **Auditors' Responsibilities for the Audit of the Financial Statements (continued)**

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our auditors' report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

In accordance with the requirements of the Companies Act 2016 in Malaysia, we report that the subsidiary of which we have not acted as auditors is disclosed in Note 34 to the financial statements.

### **Other Matter**

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.
