7. Loss Per Share

Basic loss per share amounts are calculated by dividing loss for the period, net of tax, attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the period, excluding treasury shares held by the Company.

Diluted loss per share amounts are calculated by dividing loss for the period, net of tax, attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the period, plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive ordinary shares into ordinary shares.

20. Performance review

The Group registered lower revenue of RM76.6 million for the current quarter under review as compared with RM89.8 million for the same quarter last year. Similarly for the year ended 31 December 2014, the Group's revenue declined from RM342.4 million to RM291.3 million. The decrease for the quarter and the year of RM13.2 million and RM51.1 million respectively were attributed to the publishing, distribution and advertisements segment. The Group recorded higher loss before tax (LBT) of RM44.2 million as compared with LBT of RM5.2 million for the corresponding quarter last year and higher LBT of RM82.6 million as compared with LBT of RM20.4 million last year. These are the results of lower revenue and higher impairment charges on trade and other receivables.

The performance of the respective operating business segments for the current quarter as compared with the corresponding quarter last year is analysed as follows:-

i. Publication, distribution and advertisements

Revenue for the current quarter decreased by RM11.8 million or 13.5% mainly due to a significant reduction in revenue from advertising revenue. Coupled with higher impairment costs in the fourth quarter, the Group posted higher LBT of RM29.1 million as compared with LBT of RM8.3 million in the corresponding quarter.

Similarly on yearly basis, this segment posted 14.4% lower revenue which was primarily contributed by a significant reduction in revenue from sub-segment publishing and distribution. Lower revenue and higher operating costs have resulted in this segment posting higher LBT of RM71.2 million as compared with RM27.9 million in the previous year. Even though raw material and vendors' commission expenses have shown a significant reduction, total costs for this segment increased by 2.4% mainly due to impairment on trade and other receivables.

ii. Information technology and multimedia

Revenue for the current quarter decreased by RM115 thousand. Similarly on yearly basis this segment recorded a reduction in revenue by RM1.3 million mainly due to the disposal of a subsidiary in the third quarter of 2013 which was the main contributor to this segment. However this segment registered a lower LBT of RM116 thousand for the current quarter and lower LBT of RM176 thousand for the year as compared with LBT of RM0.7 million and RM1.5 million respectively last year as the disposed subsidiary was a loss-making company.

Explanatory notes pursuant to Bursa Malaysia Listing Requirements: Chapter 9, Appendix 9B, Part A for the twelve-month period ended 31 December 2014 (unaudited)

20. Performance review (contd.)

The performance of the respective operating business segments for the current quarter as compared with the corresponding quarter last year is analysed as follows:- (contd.)

iii. Investment holding, management services and others
Revenue for the current quarter declined by 47.9%, mainly due to lower revenue from the investment holding subsidiary. This has resulted in higher LBT of RM4.5 million as compared with LBT of RM1.0 million in the same quarter last year. Beside the reduction of revenue, this segment also has reported higher operating expenses due to impairment losses on trade and other receivables and investment on quoted securities. Similarly on yearly basis, this segment's revenue decreased by 20.6% mainly due to lower revenue from management services. Accordingly coupled with higher operating costs, this segment reported a LBT of RM1.8 million as compared with a PBT of RM2.2 million last year.

21. Comparison with the immediate preceding quarter results

The Group posted a higher revenue by RM1.8 million from RM74.8 million in the preceding quarter ended 30 September 2014 to RM76.6 million in the current quarter derived mainly from higher circulation of newspapers. However total costs increased by RM41.3 million mainly due to higher other operating expenses as a result of higher impairment expenses in the fourth quarter. Hence the Group recorded a higher LBT of RM44.2 million as compared with LBT of RM5.8 million in the preceding quarter.

The Group's performance by segments is as follows:-

- i. Publication, distribution and advertisements This segment's revenue increased by 3.0% mainly contributed by publishing and distribution of books revenue, whilst revenue from advertisement sub-segment decreased by 4.2%. However, due to higher operating expenses particularly impairment on trade and other receivables, this segment registered higher LBT of RM29.1 million as compared with LBT of RM5.8 million.
- ii. Information technology and multimedia This segment posted a LBT of RM116 thousand in the current quarter as compared with PBT of RM28 thousand in the preceding quarter as a result of the decline in revenue.
- iii. Investment holding, management services and others

 This segment registered a slightly lower revenue by RM173 thousand. However this segment posted higher LBT of RM4.5 million as compared with LBT of RM344 thousand in the preceding quarter mainly due to higher impairment expenses on trade and other receivables and investment on quoted securities in the current quarter.

22. Comment on current year prospects

The Group expects the year of 2015 to remain challenging in view of increasing competition for the market share of advertising expenditure (ADEX) and circulation of newspapers. Nevertheless we will continue with our newspapers' content improvement strategies and offer creative packages for advertisements.

On 19 October 2014, we have introduced a new masthead for our flagship newspapers, Utusan Malaysia and Mingguan Malaysia. Alongside this, the contents and layout have been improved to include new and refreshed columns. Our Utusan Online has also been given a new look offering more videos and interesting features in order to attract more visitors. Meanwhile our e-learning product, Tutor.com.my has been made interactive for a more effective learning experience.

The Group will continue to adopt prudent cost saving strategies in its business operations. Amongst others, the Group is undertaking measures to reduce the return rate by employing efficient allocation of newspapers and magazine supplies. Administration, production and staff costs are being aggresively monitored.
