20. Performance review

Revenue for the current quarter under review of RM57.9 million was 11.6% lower than that of the preceding year's corresponding quarter of RM65.4 million. The decrease was mainly attributed to lower circulation of newspapers and magazines. Revenue from circulation of newspapers declined by 12.6%. Nevertheless the Group recorded a lower loss before tax (LBT) of RM19.7 million as compared with a LBT of RM21.8 million for the corresponding quarter last year as a result of a reduction in total costs by 13.7%. Employee benefits expenses decreased by RM7.1 million mainly due to a voluntary separation scheme exercise implemented by a subsidiary company last year.

The performance of the respective operating business segments for the current quarter as compared with the corresponding quarter last year is analysed as follows:-

i. Publication, distribution and advertisements

Revenue for the current quarter decreased by 9.6% mainly due to lower circulation of newspapers and magazines as compared with the corresponding quarter last year. Meanwhile advertising revenue dropped by 1.7%. However, this segment registered lower LBT of RM19.8 million as compared with LBT of RM23.6 million last year consequent to a significant reduction in total costs particularly employee benefit expenses as a result of a voluntary separation scheme implemented by a subsidiary company last year.

- Information technology and multimedia This segment posted a higher revenue by RM283 thousand arising from a TV programme's revenue. Accordingly this segment registered a profit before tax (PBT) of RM9 thousand as compared with LBT of RM45 thousand last year.
- iii. Investment holding, management services and others This segment reported lower revenue by 57.3% attributed to lower gain on disposal of quoted shares by an investment holding company. Accordingly this segment posted a LBT of RM267 thousand as compared with PBT of RM1.3 million in the same quarter last year.

21. Comparison with the immediate preceding quarter results

The Group posted lower revenue by RM18.6 million from RM76.5 million in the preceding quarter ended 31 December 2014 to RM57.9 million in the current quarter mainly due to a decrease of revenue from publishing, distribution and advertisements segment by 25.1%. However the Group recorded a lower LBT of RM19.7 million as compared with LBT of RM45.2 million for the preceding quarter due to a significant reduction in total costs by 36.5%. The Group has provided higher impairment allowances on trade and other receivables in the fourth quarter 2014.

Explanatory notes pursuant to Bursa Malaysia Listing Requirements: Chapter 9, Appendix 9B, Part A For the three-month period ended 31 March 2015

21. Comparison with the immediate preceding quarter results (contd.)

The Group's performance by segments is as follows:-

- i. Publication, distribution and advertisements Revenue dropped by 25.1% but this segment posted lower LBT of RM19.7 million as compared with LBT of RM30.1 million in the preceding quarter mainly due to higher impairment allowances on trade and other receivables posted in the fourth quarter 2014.
- Information technology and multimedia This segment's revenue increased by RM101 thousand primarily due to the recognition of a TV programme's income in the current quarter. Hence this segment registered a PBT of RM9 thousand as compared with LBT of RM117 thousand in the preceding quarter.
- iii. Investment holding, management services and others

This segment's revenue increased slightly by 1.7% and reported lower LBT of RM267 thousand as compared with LBT of RM4.4 million in the preceding quarter mainly due to lower other operating costs as a result of higher impairment expenses on trade and other receivables and investment in quoted securities in the fourth quarter 2014.

22. Comment on current year prospects

The Group expects to continue to face challenges in 2015 given the on-going issues that are affecting consumer sentiment e.g. the implementation of Goods and Services Tax (GST) and the weakening performance of Ringgit against other major currencies.

Nevertheless, we will continue to strengthen our core business amidst strategies to seek new revenue streams to expand our business portfolios. Newspapers' content improvements are undertaken and creative packages for advertisements are offered in our effort to increase readership and revenue. Promotional activities to enable the Company to increase its direct engagement with readers and advertisers will continue to be organised. We are also exploring fund raising proposals to address the capital requirements to venture into other businesses.

The Group will continue to implement stringent cost control measures and to improve operational efficiency in order to sustain our immediate survival. We will constantly focus on strengthening our internal structure to ensure a solid foundation for the Group to embark on our future plans.
