### 7. Loss Per Share

Basic loss per share amounts are calculated by dividing loss for the period, net of tax, attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the period, excluding treasury shares held by the Company.

Diluted loss per share amounts are calculated by dividing loss for the period, net of tax, attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the period, plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive ordinary shares into ordinary shares.

The following reflect the profit and share data used in the computation of basic and diluted loss per share:

#### 20. Performance review

The Group posted revenue of RM67.0 million for the current quarter as compared with RM67.9 million in the corresponding quarter ended 31 December 2015. Other income dropped significantly by RM47.9 million as a result of recognition of gain on disposal of investment amounted to RM50.6 in the 4th quarter 2015. The reduction in total costs by 16.0% has lessened the impact of the decline in other income. Accordingly, the Group registered a loss before tax (LBT) of RM8.4 million as compared with a profit before tax (PBT) of RM25.7 million for the corresponding quarter last year.

Similarly on a year-to-date basis, the Group registered lower revenue of RM230.4 million for the year ended 31 December 2016 as compared with RM248.9 million last year. This RM18.5 million reduction was attributable to the publishing and distribution segment. The reduction by RM52.4 million in other income was due to the same reason as mentioned above. A reduction of 6.8% in total costs has lessened the impact of reduction in revenue and other income. Hence, the Group registered a higher LBT of RM67.4 million as compared with LBT of RM17.4 million last year

### 21. Comparison with the immediate preceding quarter results

Revenue for the current quarter increased by RM9.4 million to RM67.0 million from RM57.6 million in the preceding quarter ended 30 September 2016 contributed mainly by higher distribution of books and print advertisement. Accordingly the Group recorded lower LBT of RM8.4 million as compared with LBT of RM17.2 million for the preceding quarter.

### 22. Comment on current year prospects

The Malaysian economy is expected to continue on a moderate growth path in 2017. Given the continuing challenges faced by print-based media company, the directors remain cautious with regard to the Group's performance in 2017.

We are actively seeking new businesses to support our core business activities. Whilst our core business remains in print media, we are promoting our Utusan Online portal and digital newspapers. In the e-learning segment, we have introduced Tutor Guru application which is a teaching tool for teachers. This application is intergrated with the existing Tutor.com.my offered by the Group. Continuous efforts are made to ensure our digital products garner higher traffics and subscriptions.
