EXPLANATORY NOTES PURSUANT TO THE MALAYSIAN FINANCIAL REPORTING STANDARD ("MFRS") 134: INTERIM FINANCIAL REPORTING

A1 Basis of preparation

The interim financial statements, other than for financial instruments and investment properties, have been prepared under the historical cost convention. Certain financial instruments have been carried at fair value in accordance to MFRS 139 Financial Instruments: Recognition and Measurement, while investment properties are stated at fair value as per MFRS 140 : Investment Property.

The interim financial statements also has been prepared in accordance with MFRS 134 : Interim Financial Reporting and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (Bursa Malaysia).

This interim financial statements should be read in conjunction with the audited financial statements for the financial year ended 31 December 2014 of the Group and the accompanying notes attached to the interim financial report. The accounting policies adopted in the preparation of the interim financial statements are consistent with those followed in the preparation of the Group's audited financial statements for the financial year ended 31 December 2014, except for the adoption of the Amendments and Annual improvements to Standards effective as of 1 January 2015.

(i) MFRS, IC Interpretation and Amendments to MFRSs adopted by the Group during the current quarter:

The following MFRS, IC Interpretation and Amendments to MFRSs have been adopted by the Group during the current financial period:

MFRSs, Amendments to MFRSs and IC Interpretations	**Effective for annual periods beginning on or after**
Amendments to MFRS 119 : Defined Benefit Plans: Employee Contributions	1 January 2015
Annual Improvements to MFRSs 2010 – 2012 Cycle	1 January 2015
Annual Improvements to MFRSs 2011 – 2013 Cycle	1 January 2015

The adoption of the above pronouncements did not have any financial impact to the Group.

A1 Basis of preparation (Cont'd)

(ii) MFRSs, Amendments to MFRSs and IC Interpretation issued but not yet effective

At the date of authorisation of these interim financial statements, the following MFRSs, Amendments to MFRSs and IC Interpretation were issued but not yet effective and have not been adopted by the Group:

MFRSs, Amendments to MFRSs and IC Interpretations			**Effective for annual periods beginning on or after**
Annual Improvements to MFRSs 2012 – 2014 Cycle			1 January 2016
MFRS 14	:	Regulatory Deferral Accounts	1 January 2016
Amendments to MFRS 10 and MFRS 128	:	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	1 January 2016
Amendments to MFRS 10, MFRS 12 and MFRS 128	:	Investment Entities : Applying the Consolidation Exception	1 January 2016
Amendments to MFRS 11	:	Accounting for Acquisitions of Interests in Joint Operations	1 January 2016
Amendments to MFRS 101	:	Disclosure Initiative	1 January 2016
Amendments to MFRS 116 and MFRS 138	:	Clarification of Acceptable Methods of Depreciation and Amortisation	1 January 2016
Amendments to MFRS 116 and MFRS 141	:	Agriculture : Bearer Plants	1 January 2016
Amendments to MFRS 127	:	Equity Method in Separate Financial Statements	1 January 2016
MFRS 15	:	Revenue from Contracts with Customers	1 January 2017
MFRS 9	:	Financial Instruments (IFRS 9 as issued by International Accounting Standards Board ("IASB") in July 2014)	1 January 2018

Annual Improvements to MFRSs 2012 – 2014 Cycle consist of the following amendments:

(a) MFRS 5 Non-current Assets Held for Sale and Discontinued Operations

- if an entity determines that an asset (or disposal group) no longer meets the criteria to be classified as held-for-distribution, then it ceases held-for-distribution accounting in the same way as it would cease held-for-sale accounting.

Any change in method of disposal or distribution does not, in itself, extend the period in which a sale has to be completed.

A1 Basis of preparation (Cont'd)

(ii) MFRSs, Amendments to MFRSs and IC Interpretation issued but not yet effective (Cont'd)

(b) MFRS 7 Financial Instruments : Disclosures

The amendment clarifies when servicing arrangements are in the scope of its disclosure requirements on continuing involvement in transferred financial assets in cases when they are derecognised in their entirety. A servicer is deemed to have continuing involvement if it has an interest in the future performance of the transferred asset – e.g. if the servicing fee is dependent on the amount or timing of the cash flows collected from the transferred financial asset; however, the collection and remittance of cash flows from the transferred financial asset to the transferee is not, in itself, sufficient to be considered 'continuing involvement.'

It is also amended to clarify that the additional disclosures required by Disclosures: Offsetting Financial Assets and Financial Liabilities (Amendments to MFRS 7) are not specifically required for inclusion in condensed interim financial statements for all interim periods; however, they are required if the general requirements of MFRS 134 Interim Financial Reporting require their inclusion.

(c) MFRS 119 Employee Benefits

The amendment clarifies that high-quality corporate bonds or government bonds used in determining the discount rate should be issued in the same currency in which the benefits are to be paid. Consequently, the depth of the market for high-quality corporate bonds should be assessed at the currency level and not at the country level.

(d) MFRS 134 Interim Financial Reporting

The amendment clarifies that certain disclosures, if they are not included in the notes to interim financial statements, may be disclosed "elsewhere in the interim financial report" – i.e. incorporated by cross-reference from the interim financial statements to another part of the interim financial report (e.g. management commentary or risk report). The interim financial report is incomplete if the interim financial statements and any disclosure incorporated by cross-reference are not made available to users of the interim financial statements on the same terms and at the same time.

The adoption of the Annual Improvements to MFRSs 2012 - 2014 Cycle is not expected to have any financial impact to the Group.

Amendments to MFRS 10, MFRS 12 and MFRS 128

The amendments addresses issues that have arisen in the application of the consolidation exception for investment entities and provide relief in certain circumstances. The amendments clarify the exemption from preparing consolidated financial statements for an intermediate parent entity, a subsidiary providing services that support parent's investment activities, application of the equity method by a non-investment entity that has an interest in an associate or joint venture that is an investment entity, and the disclosures required. The adoption of these amendments is not expected to have any impact on the financial statements of the Group.

A1 Basis of preparation (Cont'd)

(ii) MFRSs, Amendments to MFRSs and IC Interpretation issued but not yet effective (Cont'd)

Amendments to MFRS 101

The amendments aim to improve the presentation and disclosure in the financial statements and are designed to encourage companies to apply professional judgement in determining what information to disclose and how to structure it in their financial statements. Since the amendments only affect disclosures, the adoption of these amendments are not expected to have any financial impact on the Group.

Amendments to MFRS 116 and MFRS 138 Clarification of Acceptable Methods of Depreciation and Amortisation

The amendments clarify that the use of revenue-based methods are prohibited to calculate charges for the depreciation or amortisation of items of property, plant and equipment or intangible assets. The adoption of these amendments will not have any impact on the Group as the Group does not use revenue-based methods to calculate depreciation and amortisation of its property, plant and equipment or intangible assets.

Amendments to MFRS 127 Equity Method in Separate Financial Statements

The amendments eliminate a GAAP difference for countries where regulations require entities to use the equity method to account for investments in subsidiaries, associates and joint ventures in an entity's separate financial statements. The adoption of this amendments is not expected to have any impact on the Group.

MFRS 15 Revenue from Contracts with Customers

MFRS 15 establishes principles that an entity shall apply to report useful information about the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with customers. The core principle of MFRS 15 is that an entity recognises revenue in a manner which reflects the consideration an entity expects to be entitled in exchange for goods or services. The adoption of MFRS 15 is not expected to have any material impact on the financial statements of the Group.

MFRS 9 Financial Instruments

In November 2014, MASB issued the final version of MFRS 9 Financial Instruments, replacing MFRS 139, where a retrospective application is required, but comparative information is not compulsory. This standard made changes to the requirements for classification and measurement of financial assets and financial liabilities, impairment, and hedge accounting. It also requires impairment assessments to be based on an expected loss model, replacing the MFRS 139 incurred loss model. Finally, it aligns hedge accounting more closely with risk management, establish a more principle-based approach base to hedge accounting and address inconsistencies and weaknesses in the previous model.

The adoption of this standard is expected to have an effect on the classification and measurement of the Group's financial assets. The Group is currently assessing the financial impact of the adoption of this standard in relation to the new requirements for classification, measurements and impairment. The requirements for hedge accounting is not relevant to the Group and is not expected to have any impact.

A1 Basis of preparation (Cont'd)

(ii) MFRSs, Amendments to MFRSs and IC Interpretation issued but not yet effective (Cont'd)

Amendments to MFRS 10 and MFRS 128 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
MFRS 11 Accounting for Acquisitions of Interests in Joint Operations
MFRS 14 Regulatory Deferral Accounts
Amendments to MFRS 116 and MFRS 141 Agriculture : Bearer Plants

The adoption of amendments to MFRSs 10, 11 and 128 will not have any financial impact to the Group as the Group does not have any interest in joint operations. The adoption of MFRS 14 and amendments to MFRS 116 and MFRS 141 will also not have any impact to the Group as they are not relevant to the business of the Group.

A2 Auditor's report on preceding annual financial statements

The preceding year's audit report for the year ended 31 December 2014 was not qualified.

A3 Seasonality or cyclicality of operations

The level of business activities usually varies with the festivals at the end and beginning of each year subject to the level of underlying demand and prevailing prices.

A4 Unusual items due to their nature, size or incidence

There were no unusual items affecting the assets, liabilities, equity, net income or cash flows of the Group in the second (2^{nd}) quarter and six months ended 30 June 2015.

A5 Material changes in estimates of amounts reported

There were no material changes in estimates of amounts reported in the previous financial year which have a material effect in the second (2^{nd}) quarter and six months ended 30 June 2015.

A6 Capital management, issuances, repurchases, and repayments of debts and equity instruments

For the current quarter, the Company did not repurchase any ordinary shares from the open market. As at 30 June 2015, a total of 958,925 treasury shares were held by the Company. The repurchased shares are held as treasury shares in accordance with the requirements of Section 67A of the Companies Act, 1965.

There were no issues of debt or equity securities for the current financial year to date.

The Group's objectives of managing capital are to safeguard the Group's ability to continue in operations as a going concern in order to provide fair returns for shareholders and benefits for other stakeholders and to maintain the optimal capital structure, the Group may, from time to time, adjust the dividend payout to shareholders, return capital to shareholders, issue new shares, redeem debts or sell assets to reduce debts, where necessary.

For capital management purposes, the Group considers shareholders' equity, non-controlling interests and long-term liabilities to be the key components in the Group's capital structure. The Group monitors capital on the basis of gearing ratio, which is net debt divided by total capital plus net debts.

A6 Capital management, issuances, repurchases, and repayments of debts and equity instruments (Cont'd)

The Group includes within net debt, loan and borrowings, trade and other payables, less cash and bank balances. Capital includes equity attributable to the equity holders of the Group less the fair value adjustment reserve. The Group's strategy is to maintain a low gearing ratio.

Derivative liabilities	-	886	886
Borrowings	13,538	-	13,538
	25,322	886	26,208

Methods and assumptions used to estimate fair value

The fair values of financial assets and financial liabilities are determined as follows:

i. Financial instruments that are not carried at fair value and whose carrying amounts are a reasonable approximation of fair value

The carrying amounts of financial assets and liabilities, such as trade and other receivables, trade and other payables and borrowings, are reasonable approximation of fair value, either due to their short-term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the end of the reporting period.

ii. Derivatives

The fair value of a forward foreign exchange contract is the amount that would be payable or receivable upon termination of the outstanding position arising and is determined by reference to the difference between the contracted rate and the forward exchange rate as at the end of the reporting period applied to a contract of similar amount and maturity profile.

A15 Financial instruments (contd.)

(a) Financial instruments (contd.)

iii. Financial guarantee

The Group and the Company provide corporate guarantees to financial institutions for banking facilities and corporate guarantee given to a third party in respect of sales of good to a subsidiary and letter of credit. The fair value of such financial corporate guarantees is negligible as the probability of the Group defaulting on the financial facilities and repayment to the supplier is not probable.

(b) Fair value hierarchy

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 fair value measurements are those derived from inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following tables set-out the financial instruments carried at fair value is disclosed, together with their fair values and carrying amounts showed in the statement of financial position.

	Level 1 RM'000	Level 2 RM'000	Level 3 RM'000	Total RM'000	Carrying amount RM'000
Liabilities measured at fair value					
Financial liabilities at fair value through profit or loss					
- Forward currency contracts	-	-	886	886	886

There were no transfers between Level 1, Level 2 and Level 3 fair value measurements during the financial period ended 30 June 2015.

B1 Review of the performance of the company and its principal subsidiaries

a) Current quarter vs. Previous year corresponding quarter

The Group recorded revenue of RM109 million for the quarter ended 30.06.2015 ("2Q 2015"), which skidded RM12 million (9.9%) compared to revenue of RM121 million for the quarter ended 30.06.2014 ("2Q 2014"). The weaker performance for 2Q 2015 was mostly attributed by the trading operations, which offset the growth recorded by the manufacturing operations.

The Group recorded a loss before taxation for 2Q 2015 of RM1.3 million as compared to profit before taxation of RM3.9 million for 2Q 2014. Apart from declining average selling prices compressing margins, the loss before taxation was also impacted by higher operating expenses and foreign exchange losses as a result of the depreciating Ringgit. However, profit after taxation for 2Q 2015 bucked this downward trend and registered higher at RM3.8 million due to the recognition of RM5.4 million confirmed tax recoverable on taxes overpaid for revised prior year assessments.

The performance of the respective operating business segments of the Group for 2Q 2015 as compared to 2Q 2014 is analysed as follows:

Manufacturing

The manufacturing operations contributed revenue of RM46.0 million in 2Q 2015, an increase of RM6.6 million (16.8%) compared to RM39.4 million in 2Q 2014. The increase was mainly attributed to higher sales volume captured.

Trading

The trading operations contributed revenue of RM63.0 million in 2Q 2015, a decrease of RM18.6 million (22.8%) compared to RM81.6 million recorded in 2Q 2014. The weaker performance was due to the subdued construction and residential property market on tighter financing conditions, higher real property gains tax and GST impact eroding consumer demand.

b) Current year-to date vs. Previous year-to date

For the 6 months ended 30.06.2015 ("YTD 2Q 2015"), the Group recorded revenue of RM253.9 representing an increase of RM16.9 million as compared to revenue of RM237.0 million recorded in the 6 months ended 30.06.2014 ("YTD 2Q 2014"). The increase was mainly from the stronger Q1 2015 performance contributed by both the trading and manufacturing segment, where many dealers seized the opportunity and stocked up prior to GST implementation.

b) Current year-to date vs. Previous year-to date (Cont'd)

Though there was growth in revenue, the Group's profit before taxation for YTD 2Q 2015 decreased by RM3.9 million to RM4.0 million as compared to RM7.9 million for YTD 2Q 2014. This was mainly due to weaker average selling prices pressuring the Group's margin downwards, foreign currency exchange losses and higher selling costs. Overall, the Group's profit after taxation for YTD 2Q 2015 bucked the profit before taxation downward trend and rose to RM7.7 million as compared to RM5.8 million in YTD 2Q 2015. This was attributed to the recognition of RM5.4 million confirmed tax recoverable in 2Q 2015 on taxes overpaid for revised prior year assessments.

The performance of the respective operating business segments of the Group for YTD 2Q 2015 as compared to YTD 2Q 2014 is analysed as follows:

Manufacturing

The manufacturing operations recorded revenue of RM97.9 million for YTD 2Q 2015, an increase of 23.6% compared to RM79.2 million in YTD 2Q 2014. The increase was buoyed by strong demand from dealers as they stocked up prior to GST implementation.

Trading

The trading operations recorded revenue of RM156.0 million for YTD 2Q 2015, which eased marginally by 1.1% compared to RM157.8 million in YTD 2Q 2014. The relatively softer performance was due to weak market demand post GST implementation and lower average selling prices offsetting the strong 1Q 2015 contributions.

B2 Comparison with preceding quarter's results

The Group's revenue for 2Q 2015 shrank by RM35.9 million to RM109 as compared to RM144.9 million achieved in 1Q 2015, on the back of weak market demand post GST implementation. In tandem with the poorer revenue trend, this led to a loss before taxation in 2Q 2015 of RM1.3 million as compared to profit before taxation of RM5.3 million recorded in 1Q 2015. However, the loss before tax position turned to a profit after taxation of RM3.8 million due to the recognition of RM5.4 million in the current quarter of confirmed tax recoverable overpaid for revised prior year assessments.

B3 Current year prospects and progress on previously announced revenue or profit forecast

a) Prospects for 2015

The global steel industry continues to experience a tough operating environment on falling steel demand and China's massive production overcapacity flooding markets worldwide.

Domestically, the steel industry's near to medium outlook remains challenging. This is premised on the influx of cheaper imports impacting selling prices, weaker Ringgit against major currencies and softer property market on tighter loan conditions coupled with GST impact dampening customer sentiment further. However, the launch of the recent 11th Malaysia Plan (11 MP) focusing on high impact infrastructure projects, such as the Klang-Valley MRT Line 2 project and LRT Line 3 project should ease the challenging environment provided there is no delay in the implementation of the projects planned.

B3 Current year prospects and progress on previously announced revenue or profit forecast (Cont'd)

a) Prospects for 2015 (Cont'd)

To weather the tough and uncertain operating environment, the Group will focus on improving raw materials purchase pricing and improve efficiency to lower production costs while endeavoring to achieve a reasonable performance for the remaining half of the financial year.

b) Progress and steps to achieve revenue or profit estimate, forecast, projection and internal targets previously announced

There was no revenue or profit forecast announced by the Group.

B4 Statement of the Board of Directors' opinion on achievability of revenue or profit estimate, forecast, projection and internal targets previously announced

There was no revenue or profit forecast announced by the Group.

B5 Variance of actual profit from forecast profit or profit guarantee

There were no profit forecast or profit guarantee issued by the Group.

B6 Taxation

Tax charges comprise:

	Current year quarter RM'000	Current year todate RM'000
Income tax		
- current quarter / year	221	1,571
- over provision in prior quarter / year	(5,373)	(5,369)
Deferred tax		
- current quarter / year	10	96
Tax income	(5,142)	(3,702)

Income tax is calculated at the Malaysian statutory tax rate of 25% of the estimated assessable profit for the period. The effective tax rate for the current quarter resulted in a tax asset position mainly due to the recognition of taxes overpaid previously, confirmed refundable by the Inland Revenue Board ("IRB"), with respect to the revised Years of Assessment ("YA") 2009 to 2011.

The Malaysian statutory tax rate will be reduced to 24% from the current year's rate of 25%, effective from year of assessment 2016.
